**ACIDS IN STOMACH
CAUSE INDIGESTION**

Create Gas, Sourness and Pain
How To Treat.

Medical authorities state that nearly nine tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisulphated Magnesia; and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid, and there is no sourness, gas or pain. Bisulphated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

A happy company that salutes each smiling morn; teels the shave and comes through still wearing the smile. For there's no smart—no "rubbing in" with Mennen's. Just a pleasant, speedy shave.

CHEESE 20 CENTS IN BRITAIN.

Price Fixed Notwithstanding Food Controller Ceases Buying.
London, Sept. 19.—The British Food Controller has announced that he will not purchase the balance of Canada's 1910 exportable surplus of cheese remaining after the purchases now being made by the Ministry of Canada are completed. These purchases will be finished in a month's time and will total 20,000 tons. After that any sales of Canadian cheese to Britain will be on private account, but will be governed by the maximum importers' selling price of one shilling and two pence per pound.

BRINGING UP FATHER

By GEORGE McMANUS

MAKE PROFITABLE CROP.
By Sam E. Conner, in September Popular Mechanics.
Raising bees for the stings pays an eastern woman better than keeping them for the honey which they would produce. From these strings is secured the purest formic acid obtainable, and the customers are the manufacturing druggists of the country. During the past 24 years this woman has supplied one firm with 25,000 stings annually; other concerns take from 500 to 5,000 each year, making a yearly trade of 50,000 stings. To produce this number, but two colonies of bees are necessary, while it would require 50 colonies to make an amount of honey equal in value to the stings.
The method of taking the sting from a bee is simple. The bees are first gathered in a specially arranged box by shaking a comb on which they are working over the mouth of the box. Next, in a room with all the shades but one drawn, the box is opened. As the bees come out of the box they are attracted to the lighted window and cluster there on glass or screen. Beeskeepers pick up the insects by their heads and, holding them under a magnifying glass draw the stings. For this purpose a small pair of tweezers is used. The stings are placed in a dish filled with milk sugar, which covers them with a coat that prevents decay.
Each sting contains a small amount of formic acid, which is removed by distillation. This acid is used in the treatment of rheumatism by homeopathic physicians, being administered in much reduced strength, while doctors of the regular school use it, reduced one-half, for restoring circulation in cases of paralysis, applying it externally. Formic acid was one of the first of the solid-fat acids discovered. It was originally obtained by distilling common red ants (Formica rufa) from which the name is derived.

Real Strength.

There are days when skies are sunny, there are days when skies are gray. There are times when joy and laughter seem to lead us on our way. Then the clouds begin to gather, and the doubts and fears arise. And the tears of grief and sorrow dim the happiest of eyes. Oh, it's then you need your courage and it's then you must depend on your faith in God above you to sustain you to the end.
You can live your days of sunshine all unaided and alone. You can share with men the pleasures and the treasures that you own. You can whistle cheery snatches of some gay and lilting song. When the sun is high above you and there's nothing much that's wrong. But when darkness settles round you and when death is at the door, Man has not the strength to give you that your soul is crying for.
When the world is at its brightest life's an easy thing to live. From the store of mortal gladness we can take and we can give. But I notice when our burdens seem too much for us to bear. Then we seek Divine assistance by the avenue of the prayer. And we calmly face our trials and we suffer every test. If your voice of faith, shall tell us that whatever is, is best. —Edgar A. Guest.
Don't do anything Sunday that will worry you on Monday.

Leeds

POOLE'S RESORT.
Sept. 17.—Farmers have completed their harvesting in this vicinity. M. T. Boulger had the phone installed in his home recently. Miss Margaret Lynch, won a prize of \$2.50 in gold on Friday evening last, at the masquerade ball at Rockport, prize being awarded to the best masked lady. Dr. Edgar Blaisell, Mallorytown, is attending Thornton Address, who is very ill. A number from this district will attend the big fair at Kingston. This fair, which will be held next week, is sure to be grand success as no pains have been spared by the manager, Mr. Bushell, Mr. and Mrs. Walter Williams attended the state fair at Syracuse last week. Mrs. Agnes Latimer, Quabbin, is a guest of Mrs. Thompson Weeks. Master Cecil Guild and sister Mary, Mallorytown, spent a few days with relatives here last week. Thomass Faney spent yesterday at Burton Poole's, Caintown. Mr. and Mrs. Buel Dickey motored to Brockville Tuesday. Anthony Senecal is having a large barn erected.

AN ATHENS DELEGATION

Coming To Kingston To Attend the Big Fair.
Athens, Sept. 17.—Potatoes here are a fair crop, and retail at 55c a peck, or \$2 a bushel. Neighboring farmers have begun ploughing for the fall wheat sowing. Threshing machines are at work in the vicinity. The schools have re-opened for the fall term. The personnel of the high school staff is as follows: Messrs. Burchell and Case, Misses Ferris, Lewis and Guest, Public school, Mr. Snowden, Mrs. Fisher, Miss Carl. Miss Mina Donnelly, B.A., has come to Eganville to teach. Miss Bertha Hollingsworth has gone to Elen Etbe, Miss Elizabeth Doolan to Elnora, Miss Pearl Stevens to Mallorytown, Miss Eliza Webster to Selton, Miss Lily White to Hard Island. Miss Gertrude Viokey has gone to Ottawa to attend Normal. Miss Geraldine Kelly has gone to Kingston to attend model school. Athenians have patronized the fall fairs liberally, many attending the big exhibition at Toronto and Ottawa, and from present indications several will go from here next week to attend "Bob" Bushell's big fair at Kingston. The village schools fair takes place here on Friday, in the town hall. In the evening a good programme of songs and d-rills is being put on, also a playlet, "Father Time's Jubilee" in which nearly fifty children have a part. The annual district convention of the Women's Missionary Society is to be held in the Athens Methodist church on Oct. 8th.
Send Dr. Chown to China.
Toronto, Sept. 18.—Rev. Dr. Chown, Methodist general superintendent, has issued a call for a meeting of the general board of missions on Oct. 2nd. It is expected that the board will authorize the sending of a delegation of mission board officers to inspect conditions in China and Japan. Rev. Dr. Chown for the senior work, and Dr. Stephenson for the young people's societies, are likely to be appointed on the delegation.
