Painful Rheumatism
May Be Driven Out of the System by Enriching the Blood.

In the days of our fathers and grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people.

Medical science did not understand the trouble, did not know that it was rooted in the blood. It was thought that rheumatism was the mere effect of exposure to cold and damp, and it was treated with liniments and hot application, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of rheumatic cripples. Now, medical science understands that rheumatism is a disease of the blood, and that with good, rich, red blood any man or woman of any age can defy rheumatism, and many who have conquered it by simply keeping their blood rich and pure. The blood making, blood enriching qualities of Dr. Williams' Pink Pills, becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. At the first sign of poor blood, which is shown by loss of appetite, palpitations, dull skin and dim eyes, protect yourself against the further ravages of disease by taking Dr. Williams' Pink Pills. They have cured thousands of people—if you give them a fair trial they will not disappoint you.

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.
