GUM TENDERNESS - A TOOTH-MENACE

It is true that four out of five people over forty suffer from gum-shrinkage, or Pyorrhoea (Riggs' Disease). Many people even under thirty have Pyorrhoea. Women, particularly after the baby comes, are peculiarly subject to Pyorrhoea. At such time they cannot be too careful about their teeth.

Pyorrhoea commences with tender gums, or with gum-bleeding, at tooth-brush time. Gradually the gums become spongy. They inflame and then shrink. The teeth become exposed to decay at the base and tiny openings in the gums become the breeding places of disease germs which infect the joints—of tonsils—cause other ailments.

Beware of that first gum tenderness! Try Forhan's for the gums. It positively prevents Pyorrhoea, if used in time and used consistently. No ordinary tooth paste will do this.

And Forhan's cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment.

You may have noticed that the man who can turn his hand to anything seldom has the price of a wooden overcoat when he turns up his toes. It is easier to make complaints than it is to make a living.

From Time To Get Up 'till Twilight

THERE'S ALWAYS SOMETHING NEW TO TALK ABOUT IN LION CLOTHES.

The other day somebody asked us why we advertised. We told the interested party that we do it for the same reason there's a daily newspaper. There's so much of interest in LION CLOTHES it would be impossible to say it all at once. Some Clothes would get along without advertising because there's so little to say about them that even an advertisement would exhaust the subject. LION CLOTHES are so new all the time that every ad. we write about them we discover dozens of things we might have mentioned and forgot to. We could write something new about them every minute of the day—from Cock-crow to Curfew.
