# PERFECTION

## OIL HEATER

THE PERFECTION OIL HEATER IN THE HOME

It weighs only ten pounds. The housewife can carry it to any part of the home without even the slightest difficulty. It cannot smoke—that has been made impossible by our patent "Flame Spreader Lock." You cannot turn up the wick too far.

Consider the convenience—when the below-zero days arrive—when the kiddies come home from school and dad from work, chilled to the bone—when the guest room must be pressed into service—when there's illness in the home—and a thousand and one other times, a Perfection Heater brings quick, clean, radiant warmth!

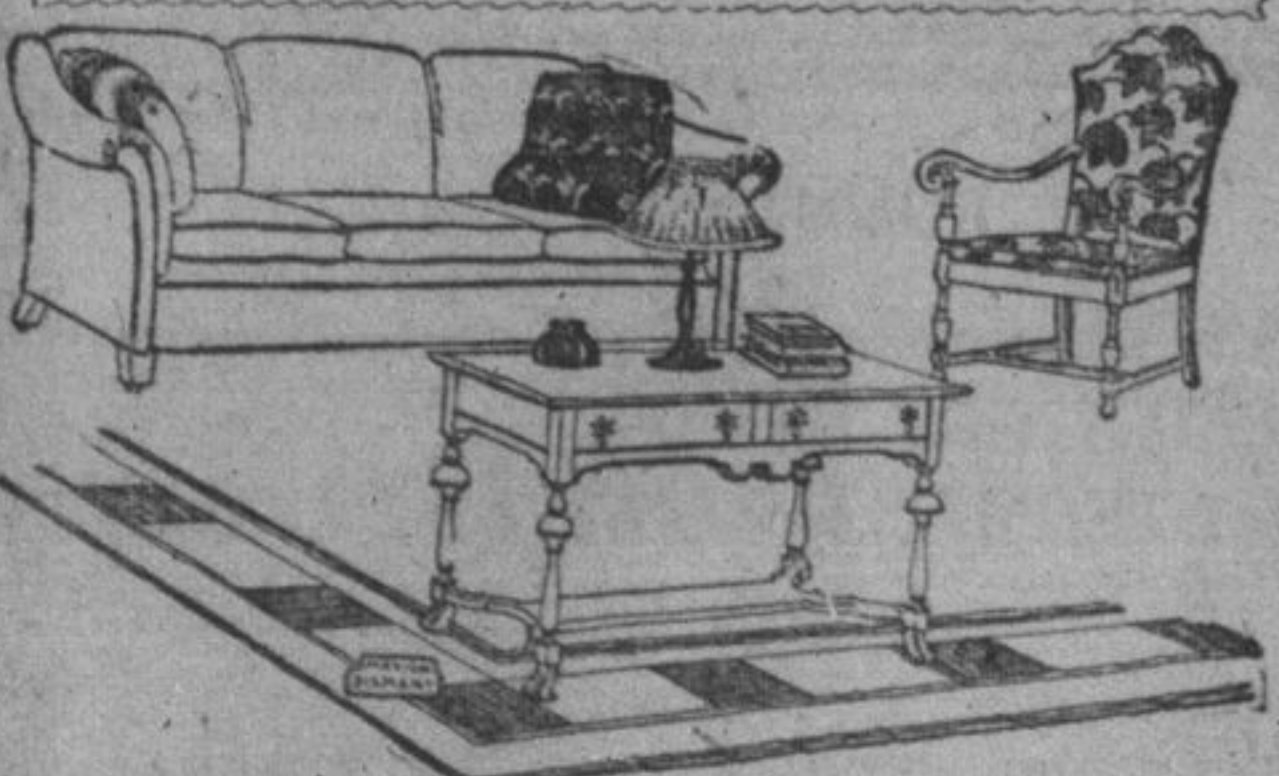

There's no reason why there shouldn't be a Perfection Heater in every home in Canada—in your home. If you knew what cheer and comfort the possession of one of these heaters would bring—you'd go immediately to your hardware dealer and buy one. Your dealer will be glad to show you a "Perfection."
