Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

BORN.

WALKER—At Millford, on Thursday Oct. 2nd, to Mr. and Mrs. Willet Walker, a son.

NICHOLS—In Richmond, on Sept. 19th, to Mr. and Mrs. L. B. Nichols, Bowmanville, a son.

ABRAMS—At Richmond, on Oct. 2nd, to Mr. and Mrs. Morgan Abrams, a son.

McMULLEN—At Napanee, on Sept. 22nd, to Mr. and Mrs. Alex. L. McMullen, a son (stillborn).

MARRIED.

DAVERN—ANDERSON—On Sept. 20, at Mountain View, Mary Isabel, only daughter of Mr. and Mrs. Sidney Anderson, to William Albert Davern, late of the R.A.F., son of Mr. and Mrs. Albert Davern, Toronto.

ABERCROMBIE—MASQUERE—At Cincinnati, Sept. 12th, Mrs. Alys Masquere, New Orleans, La., and William D. Abercrombie, Picton.

PARLIAMENT—SPENCER—At Burr's, Oct. 1st, Miss Myrtle Spencer to Percy Parliament.

YOR—MARTIN—At Thurlow, on Sept. 30th, H. Hanson York, Camden, to Miss E. Blanche Martin, Thurlow.

LEWIS—ZARFAE—At Napanee, on Oct. 2nd, Ross Lewis and Marie Ada Zarfae, both of Ernestown.

DIED.

LOVE—At Rockwood Hospital, Kingston, Oct. 7th, William L. Love, aged fifty-one years.

ECKERT—In Athol, Oct. 1, Elzina Eckert, wife of the late John Eckert, aged eighty-seven years.

STORY—At Picton, Oct. 5th, Newdig Story, of Ameliasburg, aged seventy-two years.

STORLEY—At Napanee, on October 2nd, Mrs. Martha Ann Storley, aged 63 years.

DESCHENE—At Napanee, on October 5th, Mabel Gladys Deschene, aged 13 years.

REEDYEO—At Napanee, on October 7th, Harold Reedyeo, aged 9 years, 18 days.

THINGS FOR OUR READERS

PROPOSED IN THE BEMPEZA POSSIBLE FORM.

The Whig's Daily Condensation of the News of the World from Telegraphic Service and Newspaper Exchange.

The government plans to take over the Grand Trunk railway.

The Liberty League in Windsor is divided on the advisability of voting "Yes" on Question One on the referendum ballot.

The Belgian Prime Minister states that the government is considering the creation of a £20,000,000 loan, and hopes to raise \$600,000,000.

Capt. Oswald M. Pease, M.C., of Toronto was thrown from his horse while riding with a party of friends, and later died from his injuries.

The appointment is expected to be announced shortly of Edward Bayly, K.C., to the position of deputy attorney-general, rendered vacant by the death of J. S. Cartwright, K.C.

The colors of the 157th Battalion, presented by South Simcoe Teachers' Association, were formally deposited in St. Andrew's Church, Barrie, Ont.

The Chilean Government has announced its decision to send propaganda pamphlets to Germany, with the object of encouraging German-Chilean trade.

The Monetary Times' estimate of Canada's fire losses for the month of September is \$1,940,272 compared with \$1,374,495 in August, and \$917,286 for September a year ago.

Leslie Mitchell, whose farm is located a short distance southeast of London, in the vicinity of Pond Mills, is reported to have discovered oil on his property while digging for water.

The two Lupart children of Detroit, Mich., poisoned by their mother may recover. Dr. Thomas Carter, expert toxicologist of Chicago, is fighting to save them and is hopeful.

J. C. Elliott, West Middlesex and Andrew Robson, London, Liberal candidates for Ontario House, have withdrawn owing to labor and U. F. O. candidates being in the field. Mr. Elliott's dropping out makes half a dozen Liberals who decided not to allow their names to go on the ballots.

Our Own Niagara and the Victoria of Zambesi.

While Niagara Falls will continue to hold their own as a mecca for honeymooners and other travelers, they must henceforth submit to comparison with another natural wonder, the Victoria Falls of the Zambesi, as Africa becomes frequented by tourists.

From being a place of mystery, so feared that Livingstone, who discovered the falls in 1855, had great difficulty in persuading his followers to accompany him, the falls now are visible from a railway, that crosses the river half a mile below them, and they lie under the proposed route of the Cape to Cairo aerial service, which is to be established this autumn.

Louis Livingstone Seaman describes a visit to Victoria Falls and contrasts them with Niagara, as follows:

"Our approach was made by rail from the Indian Ocean at Beira, near the mouth of the Zambesi (that hotbed of micro-organisms, described by James Bryce as the most deadly in Africa), and across the narrow belt of swamp and jungle forming the coast; thence up the gradual slope to the volcanic plateau that forms the real continent of Africa.

"By morning an altitude of nearly 6,000 feet was reached, and a transition from the excessive heat and moisture of the lowlands was experienced that was most grateful and exhilarating.

"This section still abounds with antelope, elephants, lions and other large game, which find excellent cover in the tall elephant grass or the dense forests and jungles, while in the river hippo still gambol and flounder in ungainly herds amid the floating islands of rank vegetation of Nile reeds and papyrus.

"With the altitude, however, came another and less grateful change. The forests were no longer in evidence, but in their stead were vast arid, birdless plains, with parched hungry vegetation, whose anaemic and stunted growth bears witness to the scarcity of moisture, that so severely affects Rhodesia and the great stretches of veldt far away to the Transvaal.

"Early in the morning of the third day we were suddenly awakened by the guard and treated to a scene of beauty never to be forgotten. Some ten miles distant five enormous columns of vapor were shooting their roseate-tinted shafts hundreds of feet heavenward, while the faint roar of the falls told us the Mosioa-Tunga—the smoke that sounds—was no longer a mystery.

"Each moment increased the beauty and vividness of the scene. With the first rays of the rising sun came a picture of color of wondrous loveliness. Delicate tints of violet, crimson, and berry played through the mounting spray as it shot higher and higher, ultimately disappearing as virga clouds in heaven, while the ever-increasing thunders of the waters lent an added solemnity to the view.

"Hardly could we wait to reach our destination, so great was our enthusiasm. But our hopes were doomed to momentary disappointment only to be more than realized at a study of the environment; for, notwithstanding their magnitude, the first view of Victoria Falls is decidedly disappointing.

"Although nearly a mile in width and 400 feet in height, the grandeur of their proportions is belied by the sudden disappearance of the river, as it lunges into a narrow, rocky fissure extending across its entire width. Only at a single central point is there a breach in this fissure through which the falls can be seen and appreciated in their full proportions, where the converging waters rush madly to the zigzag canyon below. So restricted is this view that there is an entire absence of that awe-inspiring and almost paralyzing effect which strikes the visitor dumb with wonder and amazement when Niagara bursts upon his vision.

"On first sight of the Victoria Falls one involuntarily exclaims, 'Oh, how beautiful!' but they lack the majesty of our grand Niagara.

"No single visit can reveal the fullness of their charms, but repeated excursions must be made to their islands and precipices, their grottoes and palm gardens, their rain forests and projecting crags, their rainbows and cataraacts and many-sided views of their exquisite setting in the emerald framework of tropic forests, before their indescribable beauty can be appreciated. The fascination of discovering new and hidden charms from different points of view grows on the visitor and becomes one of the greatest attractions.

"Had the falls been in America, the Indians would have named them Minnehaha, Laughing Waters; for like a coy maiden are their fascinations, half concealing, half betraying their beauties, and requiring much wooing before revealing all their loveliness of hidden treasures and charm."

IN THE ONTARIO ELECTION RACE the upper picture is that of H. J. Soden, Conservative candidate in West Peterborough. Below, from left to right, are: J. M. Webster, of Bruden, U.F.O. nominee in West Lambton, and a candidate in Temiskaming. The lower picture is that of Peter Gardiner, who is opposing Mr. Webster as Conservative candidate in West Lambton.

TWO FALLS CONTRASTED.

Our Own Niagara and the Victoria of Zambesi.

While Niagara Falls will continue to hold their own as a mecca for honeymooners and other travelers, they must henceforth submit to comparison with another natural wonder, the Victoria Falls of the Zambesi, as Africa becomes frequented by tourists.

From being a place of mystery, so feared that Livingstone, who discovered the falls in 1855, had great difficulty in persuading his followers to accompany him, the falls now are visible from a railway, that crosses the river half a mile below them, and they lie under the proposed route of the Cape to Cairo aerial service, which is to be established this autumn.

Louis Livingstone Seaman describes a visit to Victoria Falls and contrasts them with Niagara, as follows:

"Our approach was made by rail from the Indian Ocean at Beira, near the mouth of the Zambesi (that hotbed of micro-organisms, described by James Bryce as the most deadly in Africa), and across the narrow belt of swamp and jungle forming the coast; thence up the gradual slope to the volcanic plateau that forms the real continent of Africa.

"By morning an altitude of nearly 6,000 feet was reached, and a transition from the excessive heat and moisture of the lowlands was experienced that was most grateful and exhilarating.

"This section still abounds with antelope, elephants, lions and other large game, which find excellent cover in the tall elephant grass or the dense forests and jungles, while in the river hippo still gambol and flounder in ungainly herds amid the floating islands of rank vegetation of Nile reeds and papyrus.

"With the altitude, however, came another and less grateful change. The forests were no longer in evidence, but in their stead were vast arid, birdless plains, with parched hungry vegetation, whose anaemic and stunted growth bears witness to the scarcity of moisture, that so severely affects Rhodesia and the great stretches of veldt far away to the Transvaal.

"Early in the morning of the third day we were suddenly awakened by the guard and treated to a scene of beauty never to be forgotten. Some ten miles distant five enormous columns of vapor were shooting their roseate-tinted shafts hundreds of feet heavenward, while the faint roar of the falls told us the Mosioa-Tunga—the smoke that sounds—was no longer a mystery.

"Each moment increased the beauty and vividness of the scene. With the first rays of the rising sun came a picture of color of wondrous loveliness. Delicate tints of violet, crimson, and berry played through the mounting spray as it shot higher and higher, ultimately disappearing as virga clouds in heaven, while the ever-increasing thunders of the waters lent an added solemnity to the view.

"Hardly could we wait to reach our destination, so great was our enthusiasm. But our hopes were doomed to momentary disappointment only to be more than realized at a study of the environment; for, notwithstanding their magnitude, the first view of Victoria Falls is decidedly disappointing.

"Although nearly a mile in width and 400 feet in height, the grandeur of their proportions is belied by the sudden disappearance of the river, as it lunges into a narrow, rocky fissure extending across its entire width. Only at a single central point is there a breach in this fissure through which the falls can be seen and appreciated in their full proportions, where the converging waters rush madly to the zigzag canyon below. So restricted is this view that there is an entire absence of that awe-inspiring and almost paralyzing effect which strikes the visitor dumb with wonder and amazement when Niagara bursts upon his vision.

"On first sight of the Victoria Falls one involuntarily exclaims, 'Oh, how beautiful!' but they lack the majesty of our grand Niagara.

"No single visit can reveal the fullness of their charms, but repeated excursions must be made to their islands and precipices, their grottoes and palm gardens, their rain forests and projecting crags, their rainbows and cataraacts and many-sided views of their exquisite setting in the emerald framework of tropic forests, before their indescribable beauty can be appreciated. The fascination of discovering new and hidden charms from different points of view grows on the visitor and becomes one of the greatest attractions.

"Had the falls been in America, the Indians would have named them Minnehaha, Laughing Waters; for like a coy maiden are their fascinations, half concealing, half betraying their beauties, and requiring much wooing before revealing all their loveliness of hidden treasures and charm."

Our Red Cross.

The Canadian Red Cross Society will come to exist as an overseas organization in a few more weeks. The Canadian ambulances, which it was first proposed to return to Canada for presentation to various hospitals, were found to have done such long service in France that it was considered advisable to dispose of them in London, and this is being done. Like other military stores, they have realized good prices.

Col. Braylock, head of the Canadian Red Cross, will shortly retire to private life and remain in England, while Lady Drummond will return to Montreal.

Good Beginning.

Visitor—What makes you think that William will grow up to be a great doctor?

Fond Mother—While playing doctor with his little playmates, he said: "Gentlemen, before we begin to operate, you hold the patient's hands and feet. I'll get the three cents out of this right hand pocket."

EXIT THE SNEER.

Maurice Francis Egan in October Yale Review.

This war has taught us to use no more that weapon which is the usual defense of half-admitted inferiority—the sneer. We have begun to discover the mind of Europe, and no longer to assert our superiority in

Don't Split Your Vote

Vote "YES" to all Four Questions

YES	NO
X	
YES	NO
X	

Don't Split Your Vote on October 20th—
 a solid four Yes's will be your only guarantee that you will get that sane, fair and just compromise that is needed in Ontario—the sale of light, non-intoxicating beer and wine generally, and the sale of pure spirituous liquors through Government agencies only.

Don't Split Your Vote on October 20th—
 that is your only sure guarantee that you will get careful consideration to your vote on each question.

Don't Split Your Vote on October 20th—
 support to the limit the broad-minded men and women of the Citizens' Liberty League who conscientiously believe that the unsatisfactory Ontario Temperance Act must be repealed and new legislation enacted more in keeping with the demands of all sections of the people.

Don't Split Your Vote on October 20th—
 support the labor unions, soldier organizations and thousands of the rank and file of the citizens of this Province who want a more palatable yet absolutely non-intoxicating beer.

Don't Split Your Vote on October 20th—
 You can be assured that those in favor of the Ontario Temperance Act as it now stands will vote a solid "NO" to all four questions. The citizens of this Province who desire that changes should be made in the Ontario Temperance Act will actually kill one another's vote and so make ineffective their desire for a change, without they vote a solid "YES" on all four questions. If four voters who desire liquor in some form go to the polls and vote "YES" only to the particular question he or she favors, the following table will clearly show how these four voters will really be casting their vote in favor of retaining the Ontario Temperance Act, with a total of four Yes votes and twelve No votes.

Questions	1st Voter's Ballot		2nd Voter's Ballot		3rd Voter's Ballot		4th Voter's Ballot		Totals for four Ballots	
	Yes	No	Yes	No	Yes	No	Yes	No	Yes	No
1st Question	X			X	X		X		1	3
2nd Question		X	X			X		X	1	3
3rd Question		X		X	X			X	1	3
4th Question		X		X		X	X		1	3

Vote "YES" to all Four Questions

Mark your ballot with an X. Any other marking will spoil it. Remember, also—every voter must vote on every question or his ballot will be spoiled.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Ten boxes of 12 tablets cost, but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrocinolide of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

able belief in their race and their nation. They wanted neither our sympathy nor our praise; they simply "carried on," and our boys soon learned that energy and youth could acquire much from the example of men whom they were only too ready to look upon as their inferiors. From the little French shells we learned that prudence was not inconsistent with bravery, that physical strength did not make the soldier, and that perfect team-work, the submergence of the individual, in all except the keeping alive of the individual fervor of the heart, make of your Parisian gamins at crucial moments beings who seem almost glorified.
