Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Pure Milk!

— pure at the source

No matter what precautions are taken throughout the manufacture of Borden's St. Charles Brand Milk, we can not be sure of its final purity unless we know the milk is pure at the source. That is why we are so particular in selecting the dairy districts which furnish it. Rich, clean pasture lands, pure water supply, dairymen advanced in modern methods—these are the first requirements.

St. Charles Brand is the purest of sweet milk, with nothing added. Part of the natural moisture is removed—that is all—then it is hermetically sealed in sterilized cans—ready for instant use wherever ordinary milk is used. Order a supply today—by name.
