NEED FOR TRAINED THINKERS

EMPHASIZED BY CHANCELLOR BEATTY IN ADDRESS

At Gathering Held in Grant Hall On Friday Morning—Principal Taylor Refers to Lack of Boarding Houses For the Students.

Speaking to the students in Grant Hall, on Friday morning, the newly-elected Chancellor, E. W. Beatty, K. C., drew attention to the great waste, due to inefficiency, and the great demand for trained thinkers. He declared that the needs of today called for all to get back to the old fundamentals that called for thrift and hard work.

"At no time in the history of the world has it been so necessary that men should take an interest in the problems that confront us as today."

said Mr. Beatty. "I do not think that any young man or woman can begin too early to discuss the social, political, and economical problems of our country. The need for this is impressed upon us every day."

The chancellor referred to his own days at college, and stated that the most valuable part of it had not been found in text books, but in the associations he had formed with the men of his own age. This had been an education in itself.

The speaker said that he found that the actual participation in every part of the college life was a valuable asset. A gift of clear expression was also a valuable asset for a man, as every day he was called upon to put his case before others.

Chancellor Beatty remarked that football was his favorite sport, and he expressed the wish that Queen's would capture the championship this year. The team, he said, had made rather a poor showing, in its opening game, but the supporters should not be discouraged. It required one or two seasons to make a football team.

The Chancellor stated that he would be back in Kingston next week and expected to make a visit to the University from time to time.

Principal Taylor returned thanks to the students for the part they had taken to make the ceremonies of Thursday a success. He referred to the big classes and the lack of boarding houses. There were so few boarding houses that the trustees of the university had arranged for work on the Woman's residence to go on at once. The speaker suggested a club for the men, and one for the women, with perhaps a large dining hall, a room for the Y.M.C.A. Alma Mater and a centre for all college activities.

A. B. Kenner, president of Queen's Alma Mater Society, presided, and in a graceful address introduced the Chancellor and the Principal.

HON. MACKENZIE KING MEETS WITH LIBERALS

A Contest Not Likely to Take Place in Bye-Election.

Hon. Dr. W. L. Mackenzie King, who attended the installation ceremonies at Queen's University on Thursday, and had conferred upon him the honorary degree of LL.D., met prominent Liberals of the city Friday morning who congratulated him upon his election to the leadership of the party in Canada and expressed their unbounded confidence in him. Hon. Mr. King replied in a very happy vein. He displayed in a pre-eminent degree his ability as a mixer and in a discussion of the affairs of the country showed a masterly grasp of detail. It had been the hope of the Kingston Liberals to have Hon. Dr. King address a large meeting while in the city, but pressing business called him away on the noon train. Dr. King possesses a most pleasing and captivating personality.

There is report to the effect that the Liberals of the city are not likely to press for a contest in the coming bye-election.

THE LATE R. M. MILNE.

The Burial Took Place On Friday Morning.

The death occurred on Tuesday morning, Oct. 15th, of Robert. M. Milne, at his home, 133 Raglan Road. Father Traynor, of Brewers' Mills, being also present in the Sanctuary. The remains of the late Mr. Milne were placed in St. Mary's vault. AN ASSAULT CASE

Which Resulted Over 25 Cent Bet at Local Fair.

An interesting assault case was disposed of by Hunter on Thursday that grew out of a twenty-five cent bet at the Kingston Industrial Fair.

The parties met in a local blacksmith shop and both at once threw off their coats and went at each other in first-class fashion. The younger man of the two sent his antagonist to the floor three times and on the third time he took the count. When he viewed the damage he sustained he began to make threats of prosecution, whereupon the father of the victor took him direct to Col. Hunter's court and pleaded guilty of assault. The colonel fined him \$2 and costs. The proceedings were hardly over when the other man arrived to lodge a complaint and he was very chagrined when he found that the matter had already been disposed of, but the colonel said he could not try a man a second time for the same offense.

WOMAN'S HAIR REACHES TO KNEES

A Year Ago Was Threatened With Baldness Tells How She Made Her Hair Grow.

Mrs. Esther Emery, now visiting friends in the city, is the fortunate possessor of marvelously beautiful hair, which, when loosened from its coils, falls to her knees. Moreover, it is of soft, silky and fluffy texture and in color a glorious, glossy gold. Yet just one year ago she was threatened with baldness. Urged to tell how she had obtained this wonderful growth in so short a time, she said:

"Twelve months ago my hair, which then reached barely to my shoulders, was falling out at an alarming rate and growing very thin, actually exposing the bald scalp in several spots. It was dull and lifeless in color, turning grey in patches, and very dry and brittle. My head was covered with dandruff and itched like mad all the time. I tried fully a dozen different hair-tonics, but they never did me a bit of good. One day I chanced to read in my home paper of a simple home prescription to make the hair grow that was recommended by a well-known physician. It said that by taking ordinary Lavona de Composee and mixing with Bay Rum and Menthol Crystals and applying to the scalp each night with the finger tips the new hair would grow very rapidly. I decided to try it and had my druggist mix 2 ounces of the Lavona de Composee with 6 oz. of Bay Rum and 1/2 dr. of Menthol Crystals, and started to use it. My hair quickly began to grow. First, the hair stopped falling, the itching ceased and the dandruff disappeared. Then tiny little hairs appeared all over my scalp. These grew and grew as though nothing would ever stop them. They are growing yet and while, of course I have used the treatment steadily and expect to continue it, at least until my hair reaches the floor. I might have stopped and been perfectly satisfied at the end of three months. I think that any woman can get long, thick, beautiful hair by using this prescription as I have recommended it to several friends and all are delighted with the result. The prescription is very inexpensive and any druggist can fill it."

"Those who use it should be careful not to get it on the face or where the hair is not desired."

LINDSAY'S

A MARK OF REFINEMENT

Added to the many pleasures to be derived from music there is the unquestioned mark of refinement with which it stamps the home in which it is fostered. To purchase a

LINDSAY PIANO

is the first step towards introducing music into your home. The next step is to start the musical education of one of the children. The LINDSAY PIANO is an instrument in which beauty of line and finish is wedded to a tonal quality that is quite rare in a piano of its price. It would indeed be unfortunate if you were to choose your new piano before first having seen the LINDSAY. A visit obligates you in no way whatever. If a purchase is intended, easy terms of payment can be arranged if desired.
