

Waiting For Your Approval

The most comprehensive stock of Overcoats in Kingston.

This is a broad statement, but we think you will agree with us.

Young fellows who know styles are enthusiastic over these new models.

Knowing that the stock of good Overcoats was very limited, we bought heavily early in the season giving us the choice of better materials at prices impossible later.

Unusual values at \$40.00 and at \$35.00, \$42.50, up to \$50.00.

See window display.

R. WALDRON

Theatrical

At The Grand.
When the musical spectacle, "My Soldier Girl," the supreme success of all the season's offerings, is presented at the Grand Opera House on Tuesday evening, Oct. 21st, theatre-goers will readily appreciate why this new play was a hit from the first performance. The novel settings are in two acts—the opening scene is laid at Col. Stone's home, Miami, Florida, where a lawn fête is arranged for the boys and girls whom the colonel met while "over-seas" in the interest of the Red

DOROTHY GARRIGUE
Clever dancer and comedienne with the musical novelty "My Soldier Girl," coming to the Grand Opera House, on Tuesday night, October 21st, for a return engagement.

Cross. Banks of flowers and lights form the background of a beautiful picture and a night of gaiety, song, dance and music form a brilliant spectacle.

The last act presents a gorgeous stage setting for a Follies production, linking bright hues and novel electrical effects together for a picture in which a brilliant "pony" ballet and excellent cast wear smart costumes and wend their way through novel drills and dance ensembles. Nothing prettier in the pictureland of the stage has been done in years than is offered in this new musical play.—Advt.

At Griffin's.
D. W. Griffin's latest production, "True Heart Susie," drew an unusually large audience to Griffin's last night, who viewed with much interest the unfolding of this sweet and true-to-life story. The soft and exquisite photography of which D. W. Griffin is the inventor and developer appears with new vigor of improvement in this picture. Trenchant, delightful, glowing with the charm of youth, and electric with the tumult of rival love, bristling with humanities, significant as a study and absorbing as entertainment, "True Heart Susie" is a most remarkable photoplay.

Lillian Gish, appears as Susie, and her artistry in this role is as exquisite as it is captivating, while Robert Harron's work as the boy she loves with such loyalty, will long be remembered by all who see him. Don't miss this picture.

Our vaudeville is also of exceptional merit, and proved highly entertaining last evening. Mrs. Zita & Co. in the special scenic act entitled "The Aurora of Light," is one of the most beautiful seen in Kingston in some time, while Debenax, Dell and Jee, in clever bits of variety, include some fine singing and ventriloquist work, which won much applause from the audience. Lastly, Lucille Karlin made a big hit by her clever rendition of songs and piano playing.

A better programme than this would be hard to find, so don't miss it.—Advt.

To Manage Steel And Tires Company
It is announced that F. K. Buller, the popular treasurer of the Canadian National Railways at Toronto, is resigning on the 15th of the month to accept the position of vice-president and manager of the Canadian Steel and Tires Company.

This company is associated with interests that occupy a very strong position in the railway equipment field and are constructing a plant of considerable magnitude at Montreal to manufacture steel tires for locomotives and passenger equipment. This means a new and important industry for Canada, as up to the present time all steel tires have been imported.

Mr. Buller is a well-known figure in the railway and business world. He has been in the service of the Canadian Northern and Canadian National Railways for nearly twenty years, where he has acquired a wide connection which will be valuable in the important position to which he now succeeds.

Joy-Riders Busy Again.
On Thursday evening the McLaughlin car owned by G. Y. Chown was stolen from the arts building at Queen's University. The police were notified and Constable Cotter was successful in locating the car on Barrie street, where it had been left by the unknown party who took it.

A Patriotic Duty.
For the honor of our flag, for the safety of our homes, mark your bait with four crosses in the "No" column and banish old man "boose" from our fair land.

Want Police To Guard Garden.
From time to time the police get very funny requests. On Friday morning a young lad entered the station and asked the sergeant in charge if he would send up a man to guard his mother's garden, as some stray cattle had entered the premises and were eating the green vegetables.

Parson Maynard compelled to make a landing forty miles west of Omaha, Neb., with a broken crank shaft.

LETTERS TO THE EDITOR

Pure Water.
Kingston, Oct. 17.—(To the Editor): Because of other matters that have engaged my attention, I have had no opportunity of replying to Mr. Hewitt earlier.

Allow me to say that Lake Ontario has surface water flowing into it to a much larger degree than Loughboro Lake, and marshes in almost every part of it, in fact Kingston is surrounded by marshes. Notwithstanding this fact, this city's supply is drawn from it. As to the cost of the pipe, steel clad pipes are being largely used for water supply and are strongly recommended by engineers. It is this class of pipe through which this city's supply is being drawn. This class of pipe is much less expensive than a cast iron one, in fact would not cost more than half of the figure stated by Mr. Hewitt. In any case the supply is ample at present, and the undertaking could well be held over until materials and employment returned to normal conditions.

—J. GALLOWAY.

WORTHY EXAMPLE FOLLOWED.

Sister Colonies Ask Pointers from Navy League of Canada.
The fame of the Navy League of Canada has spread far afield. The president, Amelius Jarvis, has just received a communication from Robert Darroch of Wellington, New Zealand, stating that an organization on similar lines is in course of formation in New Zealand and requesting that a copy of the constitution of the Navy League of Canada be forwarded at once, together with organization material.

Not long ago, a similar letter was received by Mr. Jarvis from L. W. Dallamere of Cape Town, Tonoary Secretary of the South Africa Navy League. The information has been forwarded together with particulars in regard to the "Nelson Day" campaign here to raise funds for Navy League purposes.

DOES YOUR MILKMAN EARN MORE THAN YOUR HUSBAND?

A college professor recently gave up teaching to become an electrician. He couldn't live on his salary. And this is by no means an exceptional case. All along the line, men who work with their hands are better paid than those who do brain work. How much longer can they stand it? Will the doctor, lawyer, engineer and teacher sit by and do nothing? Has the brain worker no rights? No redress? Millions of wives are asking this question to-day, for, in the long run, it is the women who suffer. Read Samuel Hopkins Adam's suggestive article, "The Anxious Class," in Pictorial Review for November. It points out a possible solution for this unfair condition.

Visitors From Perth.
Rev. Dr. A. H. Scott, of Perth, who attended the installation events at Queen's University, was a visitor to the Whig office Friday morning. Dr. Scott says he receives a number of newspapers in his home, but none is more welcome than the Kingston Whig, which, he states, shows "the highest type of journalism."

Weather Notes.
A shallow disturbance which was south of the great lakes yesterday morning, has moved quickly eastward to the Gulf of St. Lawrence, causing showers in Ontario, Quebec and the Maritime Provinces. In the west the weather has been fair and cool.

Take no chances, vote four "No's." On the 10th inst., the marriage was quietly solemnized by Rev. F. Deatly Woodcock of Mrs. Essie Campbell, Fairfield East, and William Comyn, Lyn, in the presence of only immediate relatives.
