NOW MAJ.-GEN. WILLIAMS

OFFICER COMMANDING MILITARY DISTRICT NO 3 PROMOTED.

Gen. Williams has been in the Canadian Army thirty years—went to France with the first contingent.

On Tuesday afternoon Brig.-Gen. V. A. S. Williams, G.O.C., M.D. No. 3, received official notification that he had been promoted to the rank of major-general, and as word of it became known his office was besieged by his friends who were anxious to be the first to offer their congratulations. It is needless to say that Kingston is pleased over the distinction that has come to Gen. Williams because it has been most worthily bestowed.

Major-General Williams was one of the first Canadian officers to reach France, going over with the first contingent. He commanded a brigade at the second battle of Ypres. On his return to Canada, he was appointed to succeed Major-General T.D.R. Hemming as G.O.C., M.D. No. 3 (since deceased), and as he had formerly been general staff officer, his appointment was a most popular one. Major-General Victor Arthur Seymour Williams has been a soldier all his life. He is a graduate of the Royal Military College and entered the Canadian Army in 1889.

ASKS THE PRINCE TO MEET CITIZENS

On Tuesday night Mayor Newman telegraphed the private secretary of the Prince of Wales, asking him if it would be possible for His Royal Highness to spend half an hour at the city hall, after returning from the Royal Military College, for the purpose of shaking hands with the citizens of Kingston.

It is expected that there will be a reply some time during the day.

DEFEATED MINISTERS.

Beck and McGarry Best Known in Kingston. Sir Adam Beck, K.B., M.P.P., who was defeated in his London constituency by a Labor candidate, is the champion of the great Hydro-electric power scheme. He broke with the party machine in this campaign and sought re-election as an Independent. He was first elected to the Ontario Legislature for London in 1902, and was re-elected in 1903, 1911 and 1914. He was appointed Minister without portfolio in the Whitney Cabinet in 1905, later retiring from the Cabinet when Mr. Hearst became Premier in 1914 on the death of Sir James Whitney.

Sir Adam was born in Waterloo county in 1857, and acquired extensive business interests in the city of London. His great work has been as Chairman of the Hydro-electric Commission, in which he had had the hearty co-operation of scores of municipalities in the Province, and has had strong support in the Legislature from both parties, though it has been sometimes charged that prominent members of his own party were secretly opposed to his plans. He was knighted in 1914 in recognition of his public services. During the war he served as Director of Remounts, purchasing many army horses for the Canadian forces. Hon. Thomas William McGarry, Provincial Treasurer, who was defeated in his home riding of South Renfrew, had been a member of the Government since December, 1914. Mr. McGarry entered the Legislature in 1905, and has sat continuously until the present. He was born in the county of Lanark in 1871, of Irish parents, and is a Roman Catholic. Mr. McGarry is a ready speaker, and was in demand on the platform in support of the Conservative cause. He was best known in Eastern Ontario, and he was a prominent lawyer in the town of Renfrew before he entered public life.

The Remains Buried. The body of the man found some days ago on the railway tracks at Collins Bay, was buried on Wednesday. The cortege left James Reid's undertaking parlors at 10 a.m. and proceeded to Cataract cemetery, where interment took place. The funeral was under the direction of the D.S.C.R., as deceased was presumably a returned soldier. The service was conducted by Lieut.-Col. A. M. Gordon, the new chaplain of this district.

McGill Players Injured. Several of the McGill seniors are suffering from bruises received on the hard ground at Kingston, Montserrat, and Normanton. Williams, Somers, and Ballie were used up more than any of the others. They did the greater part of the ball carrying, and were hit hard in the tackling. Coach Shaughnessy will try out several changes in the senior lineup between now and the Toronto game, with a view to strengthening up the defense.

Could Have Conference Meeting. If the Methodists of Kingston were assured that there was sufficient accommodation they could have the next meeting of the Montreal Conference held in this city. Up until the present time no place for the meeting has been selected. There is a feeling that it would be very unwise to extend an invitation with the present lack of accommodation.

Weather Notes. A shallow disturbance centred near Western Nova Scotia is causing rain in the Maritime Provinces and another is moving eastward across the North West States. Showers have occurred in Ontario and Quebec, and snow in many parts of the Western Provinces.

Who Can Find It? On Wednesday morning a citizen announced that he lost his vote on Monday. The clerk was just as quick as the citizen, so she advised him to advertise for it and he might find it. William Snowden was removed to his home, 263 Alfred street, from the General Hospital on Tuesday, in S. S. Corbett's motor ambulance.

INCIDENTS OF THE DAY

LOCAL NOTES AND ITEMS OF GENERAL INTEREST.

Happenings in the City and Vicinity—What the Merchants Offer to the Readers of the Whig.

W. Swaine, piano tuner, orders at McAuley's, or phone 664w.

The steamer Maple Grove passed up, en route to Port Colborne, from Montreal, to load grain.

Miss Olive Woodman, of the staff of Whithy College, was in the city on Monday for the purpose of casting her vote.

Police Constable Mullinger, who has been on two weeks' vacation, returned to the city in time to vote on Monday.

William O'Gorman, aged about fifteen, was removed to the General Hospital Wednesday morning in S. S. Corbett's motor ambulance.

Now is the time to have your piano tuned. We carry two expert tuners and will assure entire satisfaction. C. W. Lindsay, Limited.

Mrs. F. S. Solmes, of Batavia, N.Y., who has been the guest of Mrs. A. R. Laidley, left this week to visit friends in Belleville and Prince Edward county.

We will rent you a piano, and at end of six months if you feel like purchasing instrument we will allow the six months' rental on purchase price, and arrange easy terms on balance. C. W. Lindsay.

Smith Elliott, who was hit some weeks ago by a G.T.R. train at the Perth Road crossing, was taken to his home in Kingston township on Tuesday in S. S. Corbett's motor ambulance.

The death occurred early Wednesday morning of Jonathan Abrams, of Maple Grove, Pittsburg. Deceased was eighty-two years of age, a farmer and a Methodist. He had been ill for over four years.

Lecture on Friday.

Sir Arthur Whitten Brown will lecture at the Grand Opera House on Friday, Oct. 24th on the aerial flight across the Atlantic which he and Sir Alcock made. The following are a few of the facts about the trip.

Sir Arthur Whitten Brown was the navigator of the Vimy-Vickers-Rolls aeroplane. It was his great skill in navigating that made the flight possible. The total time of the flight was 16 hours, 12 minutes. Actual time from American coast to Irish coast, 15 hours, 57 minutes; Alcock and Brown are the only two men who have stood in both Europe and America the same day. Columbus took nearly three months to make the same journey. The flight was made in competition for the Daily Mail-Lord Northcliffe Prize of \$50,000 offered in 1913, for the first direct flight across the Atlantic without any assistance. Both Lieut. Brown and Capt. Alcock were knighted by King George V. for their great deed of daring. Sir Arthur Whitten Brown is born of American parents. He received a great part of his education in Pittsburgh. The distance of the flight was 1,960 miles. The average speed was 12 miles per hour.

The full story of the flight has never been read or told in America. Sir Arthur Whitten Brown tells details that are entirely unknown to us. His story will be illustrated with slides and motion pictures showing all the parts of the flight that could be taken.

Guard Of Honor Parades. The 14th Regimental Guard of Honor for H.R.H. the Prince of Wales paraded at the armouries on Tuesday evening. There was a good turnout, and the brass band also practised.

On Thursday of this week Major-General V. A. S. Williams, G.O.C. Military District No. 3, will inspect the guard and band at the armouries. The guard will parade at the G.T.R. station on Saturday morning prior to the hour of the arrival of the train of His Royal Highness.

To Prevent Influenza. Cold and Grip and Influenza—LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

Who Will Handle Patronage. There is a lively discussion going on over the position of Kingston on the provincial patronage lists. The Tories are out of it and there is much speculation over the question as to which party will constitute the local committee.

Newman & Shaw

"The Always Busy Store"

KINGSTON EVENTS 23 YEARS AGO.

The secretary of the Dairy School received a letter from the Rathbun Company, Deseronto, asking if it could handle a ton of milk from over the Bay of Quinte Railway.

Prof. Riddick has arrived in the city and will take over the work at the Dairy School. He will have four assistants.

More Frontenac people have attended the Kingston Collegiate, where fees prevail, than have taken the free course at Sydenham.

A Geological Find. Sir Henry Jones, of Glasgow University, has just made a discovery which will probably have a very important bearing on the accepted theories of glaciology. In a narrow rock fissure on the hills in the neighborhood of Tighnabruach, Argyll, 20 feet below the ground level, he observed a protrusion quite unlike any of the geological remains of the neighborhood. The general appearance of the fossil was that of a petrified fish, but it had evidence of teeth and eye sockets quite unusual in the particular strata of the neighborhood. Sir Henry called in the expert advice of the Scottish Archaeological Society to examine the find and meanwhile for the sake of convenience it has been classified among the caprolids. The importance of the discovery lies in the fact that hitherto this order has not been found beds, a much later strata than found earlier than in the post-pleistocene Argyllshire hills.

Postponement with many simply means never. The cheerful giver may also foolishly make a song of it. The pessimist usually has a storm scheduled for to-morrow.
