

### His Death Expected New Brunswick Man Saved

Mr. Isidore Thomas, of Tilley's Road, Gloucester County, N.B., while expecting death, availed himself of help that was offered at random. Here is part of a letter he wrote to me:

"I beg you to publish my letter, so that people may know what Gin Pills did for me. My case was very serious. I was so sick everybody expected my death any day. Finally, on advice from friends, I tried Gin Pills, and in a short time was well again, and soon had gained 20 pounds."

Kidney and bladder troubles, very often, work in secret ways. A bad condition may exist, with only a headache to indicate it. That is why the slightest pains in back or sides should be investigated. These pains, along with sciatic neuralgia, rheumatism, dizziness, constipation, lassitude, lumbago, highly-colored urine, headache, floating specks before the eyes, gravel, indicate kidney trouble. A course of Gin Pills, taken at once, will give relief, and prevent the progress of the disease, enabling the organs to right themselves and restore good health. Gin Pills are the sure, safe, quick remedy. Get a box from your druggist, or dealer—50c. Money refunded if no relief found. Send for free sample.

### Guard Your Home Against the Flu

Don't Neglect Treating a Cold on Its First Appearance.

The flu is again making its appearance and every home should safeguard its inmates against the epidemic. The initial symptoms of the flu are precisely the same as those of a cold in the head. Consequently no appearance of such complaint should be neglected.

As soon as the first sign of a cold—sneezing, a sore throat, running of the nose, etc.—appears, the sufferer should start taking Grip Fix. This preparation is composed of ingredients which meet every condition of the system created by the complaint, it keeps the system open, relieves the feverish condition and tones up the entire system. It acts very quickly on the head, and muscles, reduces the feverish condition and tones up the entire system. It is relieved in 24 hours and even a case of Grip in 48 hours.

Grip Fix is a potent medicine. It is a combination of just the drugs which any physician would use, and the ingredients are taken from each box. It comes in capsule form, the convenient method of use, and has a record of many successful services. A box should be in every home at this season when the flu is around and colds are common.

You can obtain Grip Fix from your druggist, where it is sold at 35 cents per box or three for \$1.00. Be sure and get Reid's Grip Fix as there is no substitute which will do its work. Get a supply today and you will avoid should the flu come or colds appear.

### A Simple Way to Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluff, lustre, glossy, silky and soft, and look and feel a hundred times better.

### SCIATIC PAINS QUICKLY RELIEVED

Keep Sloan's, the World's Liniment, Handy to Alleviate Aches.

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular a third of a century ago—far more popular today.

That's because it's so wonderfully helpful in relieving all external aches and pains—rheumatism, lumbago, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it soon penetrates without rubbing to the sore spot. Leaves no mess, stained skin, clogged pores. A bottle today is a wise precaution. Keep it handy. Made in Canada.

All drugists—35c., 75c., \$1.40.

### Sloan's Liniment Keep it handy

### ROBUST CHILDREN

A child should not look pale, thin or worn. Such condition denotes malnutrition. To keep up growth and robustness a child needs a plenitude of food rich in vitamins.

### SCOTT'S EMULSION

abundant in growth-promoting properties, is an ideal supplemental food that could well be a part of the diet of every growing child.

Children always do well on Scott's Emulsion.

It doesn't bother a lawyer when he sees breakers ahead—if they are law breakers.

# Bandeaux from India and Paris Are Worn by Young Girls in the Evening

Paris exploits the elaborate bandeau for evening wear, and whatever we may think of some of the details of Paris fashions this season, we must all admit that the new French coiffure, including the bandeau, is charming, especially on young girls. And it is, of course, young girls who largely go in for this new and rather startling bandeau.

To begin with every dressmaker in Paris found inspiration in Persia. One would go into one of the big houses and ask the name of the mannequin who was particularly pleasing. "Oh," would answer the vendeuse, "that is Shoo Shen Shoo" or something like that. And one would say, with a flash of inspiration, "Oh—you mean Chu Chiu Chow?" And then the vendeuse, "But, Madame, I do not know how you say it; we say Shoo Shen Show."

These mannequins, needless to say, wear delightful head-dresses of the Persian sort, in lovely coloring. Usually they are partly developed in vivid tulle, and they have gorgeously colored feathers and spangles and sometimes ropes of pearls entwined with the folds of the tulle.

The mannequin at the house of Lanvin wore bandeau showing flat roses embroidered on tulle in rust, Saxe blue and old rose that were charming.

Now, perhaps the best thing about these bandeaux is that any woman with a little patience and ingenuity can fashion them for herself—or for her daughter. She can buy the tulle and spangles. She can perhaps find a string of pearls and some tiny ostrich tips, or else she can buy there, too. And then she can go to work and make something really charming

in the way of a bandeau. In the sketch is one lovely band of ribbon holding tiny flame-colored ostrich tips in groups about the brow and hair. That would be easy to make, given pretty ostrich tips. One thing to remember when you make things yourself is not to economize too much. Plan to be satisfied with a saving over something of a similar value, bought from a dressmaker. Don't expect to make a really beautiful thing for the price of a cheap one. It can't be done, and often the dreaded home-made things is due to the inferior materials that are used.

If you expect to make an evening frock out of cotton and silk crepe that equals one you have seen in a shop made out of silk, you won't get good results. If you buy good materials, and have clever fingers and a brain that visualizes the finished product, you can get results that will charm not only yourself, but your friends. So buy the best tulle, buy

good plumes, buy lovely sprays of feather, if you try to make any of these little head bands. Don't expect to make them of shabby materials, you want them to have the "right" look.

In one of the shops there is a most lovely spangled net. It is spanged with little sequins arranged to shade, in the finished product, from black to steel color, and they really look for all the world like a beautiful, wet fish's scales. Some of this net would make an admirable foundation for one of these bandeaux. Then, too, you could spangle your own net.

In the sketch the newest sort of coiffure for young girls is shown, and really it looks more like a rat's nest than a formal coiffure. For the hair is simply piled, rather untidily, on top of the head. This, of course, is a Director's fashion, reminiscent of the days when the ladies of the Directorate who had been imprisoned by the revolutionists and shaved prepar-

atory for the guillotine and then by some lucky chance escaped, made a farce of necessity, and piled their shorn locks on top of their heads. They didn't wear tips, not they. They simply made elaborate coiffures out of scant locks. Of course they got to curling these self-same short locks and tying them in a little bunch with a ribbon. The modern way is simply to pile the hair loosely and high, with upstanding ends.

It is suitable, this new coiffure, for only the young—the very young and the very pretty.

### BULBS FOR BRIGHTENING

Outdoor Culture of Hardy Spring Flowering Bulbs.

An Open Situation Desirable and Reasonable Care in Planting With Protection During the First Winter—Fall Pasture for Stock.

(Contributed by Ontario Department of Agriculture, Toronto.)

HERE is probably no class of plants that gives more satisfaction and are more thoroughly appreciated by the flower lover than a collection of spring flowering bulbs, flowering as they do from quite early in spring, even before the winter covering of snow has entirely left us, until well on into the early months of summer before but very few of the other border plants are in flower. Their bright flowers are doubly acceptable on this account.

Location.—Bulbs are best planted where there is good drainage and where no surface water lies in winter or early spring. When planted in masses or beds, it is best to have the soil in the centre of the bed a few inches higher than the margin, so as to pitch the water off readily. Bulbs succeed best planted in an open situation and not too close under buildings or under the dense shade of trees. For the later flowering kinds of bulbs, however, that flower about the end of May, such as the Darwin type of tulip, a little shade prolongs the length of the blooming season considerably.

Soil.—The best kind of soil for bulbs is a moderately rich, light, loamy soil. They will succeed fairly well in a sandy soil, but do not give as fine blooms as in soil of a loamy nature. If the soil is of a clayey nature, dig in some sand or black soil from the bush, or both, to lighten it. Fresh straw manure should never be dug into the soil when planting. If manure is applied at planting time, it should be well decayed, seaweed manure, almost the nature of the soil itself, even then it should be dug in an inch or two underneath the bulbs so as not to touch them.

When to Plant Bulbs.—The best time for planting outdoor bulbs is about the second or third week in October, although bulbs may be planted until the ground is frozen over for the winter, even as late as the end of November or early in December. Later planted bulbs do not, as a rule, however, give as good results. The soil should be thoroughly dug and raked fine before planting.

Depth to Plant.—All of these smaller growing bulbs should be planted from two to three inches under the soil and quite thickly together, an inch and a half or two inches apart, to give a good effect. The Tulips, Dutch Hyacinths and Narcissus grow about twelve to eighteen inches in height and can be dotted in masses or blocks in flower beds or in groups more towards the back of a perennial border. They are also very effective planted in groups among or around shrubs. Tulips and Narcissus should be planted about four inches under the surface of the soil and about six inches apart. A group of these of a circular or oval shape, fifteen to twenty inches in diameter, especially Narcissus, has a very pleasing and bright effect in early spring, dotted here and there over the perennial or mixed

border. Protecting Bulbs in Winter.—All bulbs, especially late planted ones, are best protected during the first winter, as it prevents the bulbs from heaving and lifting. Bulbs that have become well established in the border require very little if any protection in winter. Long, straw manure, straw or coarse grass about three or four inches in depth, make a good winter covering. Green pine boughs laid over the manure prevent unsightliness. Pine boughs alone make a good winter protection. Dutch Hyacinths especially need some protection in winter, as they are not as hardy as Tulips and Narcissus. The covering should be taken off about the end of March or early in April, when the weather has become settled. Remove the covering part at a time, taking away the wet underneath part first and replacing an inch or so of the lighter part for a week or so until the top growth of bulbs becomes hardened to the weather. Hot sun is often as injurious to bulb growth as late spring frosts.

Hardy Kinds to Plant.—Tall growing, 1 to 2 feet: Narcissus—Emperor, Empress, Bi-color Victoria, Golden Spur, Poeticus, Poeticus ornatus, Barri sonspicus, Mrs. Langtry, Stella, Poeticus Elvira.

Tulips—Darwin, Cottage Garden and Early Flowering in variety.

Dwarf-growing kinds, 6 inches to 1 foot high—Crocus in variety, Sellia, Chionodoxa (Glory of the Snow), Leucjum (Snowflake), The Paper White Narcissus, Chinese Sacred Lily, and the Roman Hyacinths are not hardy enough for planting out of doors. They are only useful for growing indoors.—W. H. Hunt, Ontario Agricultural College, Guelph.

Pasture Necessary for Stock In Fall.

One of the essential factors in keeping live stock in good condition through the fall and early winter which is highly important, is good pasture, says Andrew Boes, vice-director of the Minnesota Experiment Station. Nothing excels the grasses for pasture, though mixtures of the

### TO-DAY IN HISTORY

One year ago today, November 11, 1918, an armistice was signed at 5 A. M. by Marshal Foch and the German delegates and hostilities came to an end.

Find another delegate.

Answer to yesterday's puzzle: Upper left corner down, in body and trees.

grasses and clover are better than either grasses or clover alone and furnish the best kind of feed for all kinds of stock. Where an abundance of cultivated grasses can be obtained for pasture no further attention need be given the subject. Meadow aftermath containing clover, or timothy and clover, makes good fall feed. Clover growing in the stubble field is also an excellent fall pasture.

Some of our oldest colleges are still in full possession of their faculties.

### TRACTORS FOR QUEBEC

Provincial Government to Supply Them at Cost.

Quebec, Nov. 11.—Following the example of Ontario and the western provinces, Quebec is to make extensive use of tractors on the farms, first to offset the scarcity of horses, and the high cost of feed and to enable the cultivation of a larger acreage. The Quebec Department of Agriculture has closed an agreement with an American manufacturing corporation for a number of tractors to be sold to the farmers of Quebec at cost price.

The Department of Agriculture for the past few months has been engaged in experimenting with a number of tractors and has closed a deal for a particular tractor which has proved to be efficient in all the requirements necessary for the Quebec farmers. In addition to the tractors the Government may also supply fuel for their use, so as to reduce to a minimum the cost of this innovation to the farmer.

Experts will be engaged to give the farmers advice as to the care and use of their tractors while schools of instruction will be conducted throughout the province.

### SHIPBUILDING DEVELOPMENTS

Vickers to Take Large Interest in Dominion Steel Corporation.

London, Nov. 11.—Col. Grand Morden will go to Canada in December, and it is understood his visit is in connection with shipbuilding developments of the Dominion Steel Corporation and Vickers, Limited. The story here is that Vickers will take a large interest in the Steel Corporation, which will go in for a big shipbuilding enterprise which will handle every branch of manufacture from raw material up to the finished ship. It is also rumored the concern will engage in coasting trade in Britain and shipping operations generally.

### ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

"BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pains, Neuralgia, Toothache, Headache, Rheumatism, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-acetic acid of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

### SICK HEADACHES CONSTIPATION

If you have suffered from constipation for years, tried doctors and all the remedies you ever heard of read of, without getting relief, if you have been subject to all the miseries associated with constipation, such as sick and bilious headaches, biliousness, specks floating before the eyes, water brash, heartburn, jaundice and the painful, troublesome, internal, bleeding or protruding piles, etc., wouldn't you consider it a blessing to be able to keep the bowels in a good healthy condition and prevent disease getting a foothold on your system.

Milburn's Laxa-Liver Pills are indicated just for this purpose; their regulative relieving the worst cases of constipation.

Mrs. Malcolm McDermid, Cranston Station, N.S., writes:—"I have been sick for a number of years with sick headaches and constipation. I tried all kinds of doctor's medicine, but none did me any good. I tried Milburn's Laxa-Liver Pills, and after using four vials I am completely cured and would heartily recommend them to all sufferers."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Inverary Personal.

Inverary, Nov. 7.—Mrs. Mary Gibson is in the Kingston General Hospital recovering from an operation. B. A. Lake is away on a hunting expedition. Mrs. Tolls is spending a couple of weeks with her daughter, Mrs. Fred Porter, of Elginburg. Thomas Gordon, has purchased Edward Johnson's fine farm and residence at Latimer. Wilton Allison has purchased a portion of the same farm. John Taylor will work his own farm the ensuing year. Mrs. Maggie Sharp of Kingston is spending the week with her sister, Mrs. Richard Arthur, Latimer. Miss Edna Garrett is with her grandfather, William Gibson of Sunbury, who was taken ill but is somewhat improved. Miss Margaret Arthur of Queen's, and Miss Pearl Oliver of Kingston Business College, spent the week-end at their homes here. The Ladies' Aid met on Wednesday at the home of Mrs. Robert Lyons. Mrs. Hamilton and John Ferguson still continue very ill. Mrs. Thomas Arthur is much improved in health.

To the writer of scandals there is a secret satisfaction about being anonymous. It is far sweeter than fame.

A weak-minded man is always the most headstrong.
