YEAR 86, No. 265.

KINGSTON, ONTARIO, SATURDAY, NOVEMBER 15, 1919.

LAST EDITION.

PLAN TO HAVE COUNTRY TIGHT

Under the New Law Passed By the United States Government.

ARMY MORE THAN 300,000

TO TAKE CHARGE OF BATTLE TO MAKE COUNTRY ALCOHOLIC TIGHT.

This "Army" is Backed by Appropriation of \$2,000,000 by Congress to Enforce First Year of National Prohibition and Will Have \$4,000,000 for the Second Year—How Machine For Enforcement of the Dry Law is Organized.

Washington, Nov. 15.—An army of more than 30,000 officials will spring to attention Monday when John F. Kramer, newly appointed federal prohibition commissioner, takes charge of the battle to make the country alcohol-tight under the enforcement act for war-time and constitutional prohibition.

More than 500 arrests already have been made under the act, it was unofficially estimated to-day, but few formal reports have yet been received by the Internal Revenue Bureau. To-day officials were in the midst of the last minute rush of perfecting the temporary machinery that was set up Oct. 25th, when the enforcement act went into effect over President Wilson's veto.

The "army" is backed by \$3,000,000 appropriated by Congress to enforce the first year of national prohibition. Reinforcements will be available July 1st, 1920, according to internal revenue bureau officials, who point out that Congress then will make a new appropriation. Officials plan to ask for \$4,000,000 for the second fiscal year.

Prohibition officials understand that the law now is being openly violated in many sections of the country, where they are told liquor is being sold in ice-cream parlors. That bootleggers are working almost unimpeded in many sections, also is admitted.

The machine for enforcement is organized in this way: Federal forces: Commissioner Kramer and more than 100 federal executives; sixty-four internal revenue collectors and 800 deputy collectors; 300 federal district attorneys and their assistants who will conduct prosecutions.

Local officials: 3,000 county sheriffs, 5,000 state detectives, attorneys and general executive officials, 25,000 city police and rural constables. All must co-operate in helping the federal government screw down the dry lid to stay. Internal Revenue Commissioner Roper holds.

Deputy Commissioner H. M. Gaylord planned to name nine department commissioners before to-night. They will be the chief lieutenants of "General" Kramer.

The forty-eight state commissioners will be named from day to day. It also is planned to add to the personnel of the already big force of inspectors or "dry law detectives" who will be organized into flying squadrons with headquarters in each of the nine departments.

Uglier tactics now mapped out for the "prohibition army" is the flying squadrons will be held in readiness to swoop down upon any sector where bootleggers are operating.

THE PREMIER'S AFFER TO RAILWAYMEN

Joint Management of Roads With Directors and Government Officers.

London, Friday, Nov 15.—Premier Lloyd George has offered the Railwaymen's Union membership committee management of the roads with railroad directors and Government officials, according to a statement by J. H. Thomas, general secretary of the National Union of Railwaymen.

Mr. Thomas announces that the Government has made a definite offer of new machinery to deal with wages of railwaymen and settlement of disputes. Both offers were made at a conference of the Premier with a delegation from the National Union of Railwaymen Thursday. The plan will be submitted to the executive of the union to-day for decision.

The minister of justice has placarded the city with announcements that martial law will be invoked to deal with acts of high treason, murder, pillage or arson. The entry of the Hungarian national army, under Admiral Herthy, took place to-day.

HE IS ENGAGED IN ANOTHER ADVENTURE

D'Annunzio Has Left Fiume and is Operating in Dalmatia.

(Canadian Press Despatch) Paris, Nov. 15.—The American peace delegation here has received a telegram from Vice-Consul O'Hara, at Trieste, telling of the reports there that D'Annunzio had left Fiume on the torpedo boat Valle and landed on the Dalmatian coast, where he is engaged in another adventure.

D'Annunzio was said to have been followed by an Italian warship, which was merely observing his movements. His debarcation point on the Dalmatian coast is not known. Advice in the peace conference were from the American vice-consul at Trieste. He forwarded the report that D'Annunzio had left on the Valle and had effected a landing on the Dalmatian coast line. Special importance is attached in the peace conference circles to D'Annunzio's movements because of the fact that Sunday is election day in Italy with Fiume as the chief issue. It is generally thought D'Annunzio is seeking to carry out a spectacular operation to strengthen the Fiume party, which is reported in Paris to be in a lost considerable ground in Italy.

THE ADJUSTMENT OF COAL DISPUTE

The Secretary of Labor Told the Conference What Must Be Done.

(Canadian Press Despatch) Washington, Nov. 15.—Operators and miners again faced each other today in an effort to settle the controversy which led to the recent nationwide strike of the soft coal miners. Secretary of Labor Wilson, by whom the conference, was called here yesterday, in an address, told both sides just what would have to be done for an adjustment of their disputes. When the conference reconvened at ten o'clock today the suggestions outlined by Mr. Wilson were the first things to be discussed by both factions.

The acceptance, without qualification, by the mine workers of Secretary of Labor Wilson's proposal for the negotiation of a nation-wide wage scale agreement, was announced at the conference, today, by John L. Lewis, acting president of the United Mine Workers of America.

Advances Sought by the Longshoremen of St. John. (Canadian Press Despatch) St. John, N.B., Nov. 15.—An advance of twenty cents an hour in wages is demanded by the longshoremen of the port of St. John for the coming winter. The present rate, fixed a year ago, is sixty cents an hour. Men now ask for eighty cents. As a counter offer the steamers men suggested sixty-five cents an hour. Coal handlers who now receive seventy-five cents an hour are also asking for higher wages.

As Rector of Christ Church, Gananoque.

(Canadian Press Despatch) Gananoque, Nov. 15.—The resignation of Rev. Walter Cox, rector of Christ church, has been placed in the hands of the bishop, to take effect at the end of the year. Mr. Cox has taken this action because he feels the need of a rest from parochial work. He will not be altogether idle, however, and on the principle that "a change is as good as a rest," has purchased the Dominion Independent Oddfellow, the editorship of which he will assume as soon as freed from his present duties.

LEAVING FOR AUSTRALIAN HOMES.

THE REJECTION OF THE TREATY

Is Assured By the United States Senate Reservation.

THIS IS PRESIDENT'S VIEW

REPUBLICANS SAY IT WILL NOT AFFECT LEAGUE PLAN

Wilson May Veto the Senate's Action and Send Senator Lodge to Negotiate a New Treaty.

Washington, Nov. 15.—Rejection of the Peace Treaty by the Senate, or by President Wilson himself, is assured, if the resolution of ratification goes to a vote containing the reservation to Article X already adopted by the Senate, sitting in committee of the whole.

This was the opinion in Administration quarters here yesterday, based on the President's own words, frequently repeated during his recent tour of the United States.

Whether the President then will carry out his threat, to send leading Treaty opponents, including Senator Lodge, to Weimar to negotiate a new Treaty, remains to be seen.

Mr. Wilson has served notice that he would consider the adoption of the reservation to Article X the rejection of the whole treaty. There is nothing to indicate that he has changed this attitude.

When Senator Hitchcock recently called at the White House, Wilson told him the treaty would be unacceptable if certain of the pending reservations were attached to it, and although Hitchcock never has specified what these "certain reservations" were, it is generally known here that the qualification of Article X is one of them.

STATE OF THE MARKET.

Shares of the Same Class Moved in Opposite Directions. (Canadian Press Despatch) New York, Nov. 15.—The mixed price changes at the opening of today's stock market, indicated the divergent opinion of the traders. In several instances shares of the same class moved in opposite directions. The tendency, in the main, was downward, but rails were firm to strong.

GO OVER HALF BILLION.

This Is the Belief of the Victory Loan Workers. (Canadian Press Despatch) Toronto, Nov. 15.—Confidence that the half-billion mark will have been passed in the Victory Loan campaign when the subscriptions are closed, to-night, is expressed at the headquarters here. The latest returns give the total for all Canada as \$478,795,778, but this does not cover any of the provinces to date.

THE VICTORY LOAN OVER-SUBSCRIBED.

The manner in which the people of Canada have met the Victory Loan appeal is a good augury for the future of this country. The original allotment of \$300,000,000 was subscribed during the second week, and on Thursday of this week the call for an additional \$100,000,000 was issued. The exact figures for the whole Dominion last night were \$478,500,000.

The position of the province of Ontario is noteworthy, as half of the total amount was raised by the good people of this province. As in the last loan, Kingston has gone splendidly "over the top" with \$2,955,100, but Frontenac county has failed to fully come up to expectations. However, the deficiency in the county was more than made good by the city, and the District of Frontenac holds an honored place among the districts of the province. Complete returns to-night are expected to show Kingston and Frontenac \$5,200,000.

We congratulate the executive committee, the canvassers and all whose energies contributed to this magnificent result. They are deserving of the highest praise.

PARIS DESPAIRS OVER U.S. ACTION

In Adopting Reservations to the Treaty of Peace.

CO-OPERATION OF AMERICA

IS REQUIRED BY THE LEAGUE OF NATIONS

In Tearing to Pieces a Treaty Signed By Wilson U. S. Senate Makes Uncertain Action of Future American Government.

Paris, Nov. 15.—A feeling amounting to despair has been created throughout France on receipt of the news of the United States Senate first vote adopting reservations to the Versailles Treaty. In the opinion of the French people the whole construction of the League of Nations is threatened.

France has never been over-enthusiastic about the League of Nations, but has sincerely accepted the idea of a League because she had been told it was the desire of America. The whole treaty stands on the League and the co-operation of America.

The problems of Sarre, Dantzig, the Near East and the German colonies have been solved after many discussions by the creation of the League at the suggestion of America. We are now told by the American Senate that we are wrong to listen to an American President and follow an American suggestion; there is to be no League of Nations, or at least the League is to be without American co-operation. The whole skyscraper is crumbling, and, of course, it is the hope of those who are pulling it down that it will bury the President under its ruins; but let something else in the debris.

In tearing to pieces a treaty which was signed by an American President the Senate is also tearing to pieces the possibility in the future of any treaty with an American Government. You must make the French as they are, with their defects and mischiefs. One of their qualities is logic—so, logically, when in 1922 a Republican President will come forth with a treaty proposal the French will say: "No, thank you, our experience in 1919 is sufficient for us." They will ask: "Who can guarantee that your signature will not be disavowed by your Senate? Who can guarantee that a Democratic majority in Washington will not undo engagements of a Republican delegation?"

APPALING CONDITIONS.

Viennese Babies Die From Lack of Warmth. Berne, Nov. 15.—A medical mission just returned from Vienna, declares that the death rate of newborn infants there is becoming distressing even in the maternity hospitals, and that the main cause is the coal shortage. Mothers during confinement shiver and their babies, born, die of bronchial catarrh, or inflammation of the lungs, owing to the much too low temperatures of hospitals and houses. Frequently the mothers die at the same time as the infants, and this again is mainly due to the lack of warmth. Newborn infants cannot be washed except at the risk of their lives, owing to the low temperature. The American commission for saving children is trying to cope with the disaster.

BAKERS CLOSE STORES.

Protest Against Fixed Bread Prices at Havre. Havre, Nov. 15.—The bakers have decided to close their stores as a protest against the new prices fixed for the sale of bread. The authorities maintain the instance as the bakers accepted the new prices in writing, their action constitutes a misdemeanor and proceedings have been instituted against the president and other officers of the Master Bakers' Association. Arrangements have been made to supply the population with bread from the army bakeries.

20,000 Men Tramped Through Slush Behind Hearse. Berlin, Nov. 15.—The ashes of Hugo Haase, leader of the Independent Socialists, were deposited in the Lichterfelde cemetery yesterday. It is estimated that 20,000 men tramped through six inches of slush, caused by the heavy snowfall, behind the hearse bearing the urn to the cemetery. The cortege was more than an hour in passing a given point. Mammoth red-ribbed wreaths formed a conspicuous feature of the procession, which started from the Reichstag immediately after the conclusion of a memorial service held there.

ROSS RIFLE CLAIM LIMIT \$3,000,000

The Exchequer Court to Hear Factory Expropriation Case.

Ottawa, Nov. 15.—Sir Charles Ross' claim for compensation for the expropriation of the Ross rifle factory at Quebec by the Government in 1916 will be heard by the Exchequer Court. Award of the court, however, will be limited to \$3,000,000. Sir Charles filed a claim for approximately \$18,000,000. He was refused a fiat, however, to sue for that amount, inasmuch as the order-in-Council fixed the maximum value of the plant at \$3,000,000. The case will now go to trial with the limit of compensation placed at the figure stated in the order-in-Council.

GERMANS CANNOT PAY

Potash Production Too Low to Admit of Big Deal. Berlin, Nov. 15.—Owing to inability to make sufficient deliveries to pay for the amount of textiles and leather goods offered Germany in exchange for potash by Americans, the potash syndicate has been forced to break off negotiations for the deal. The syndicate was offered commodities estimated at 1,500,000,000 marks by American officials in the occupied zone. ANOTHER VOTE BY REFERENDUM

So the People May Say if They Want Bone-Dry Province.

PREMIER DRURY FAVORS

GIVING THE PEOPLE A CHANCE TO SAY THIS.

He is Opposed to Race Track Betting—The Title "Premier" Quite Good Enough For Mr. Drury. Toronto, Nov. 15.—Followers of the turf may say good-bye to race track betting in Ontario, for Premier Drury yesterday declared himself as strongly opposed to it.

The leader of the Farmers, while not speaking for the Government as a whole, also said that he favored submitting another referendum to the people as to whether they wanted more far-reaching prohibition than the Ontario Temperance Act provides.

"Will the new Government send to the people a referendum on the question whether they want a more far-reaching prohibition than the Ontario Temperance Act provides?" he was asked.

"I am only in a position to speak for myself at this present time, as the Cabinet has not met, but I think, personally, that the Government will send a referendum to the people."

"It has been suggested that in spite of any legality the Dominion Parliament may give to race track betting, the new Government may find a way to further interfere with racing. Will your Government take any action along these lines?"

"That is a matter which must be taken up by the Cabinet. I am not at all opposed to horse racing, but race track betting is a very different thing, and I am strongly opposed to that."

"It has been stated that your Government will be more or less opposed to titles and ceremonial, and that you will not follow the lead of your predecessors in calling yourself 'Prime Minister.'"

"I am not looking for titles or ceremonial, and 'Premier' is quite good enough for me."

About forty guests were in the hotel when the fire started on the second floor and swept up wooden stairways to the roof.

Most of them escaped unaided by way of fire escapes. Firemen carried Pawling and others from a third floor.

A lighted cigar or cigarette dropped on the second floor caused the fire. Charles F. Pettie, the manager, said. The building is owned by the Greater Buffalo Real Estate Corporation. The hotel accommodates 150 guests.
