

The Canadian V.C.'s

How Men From Canada Earned the Empire's Highest Tribute for Bravery in the Field of Battle.

For most conspicuous bravery, devotion to duty and initiative during the operations east of Arras, from 2nd to 4th September, 1918.

Ahead of his company he rushed a trench, occupied by a large party of the enemy, personally bayoneting two and taking ten prisoners.

Later he located and engaged with great skill under constant rifle fire

SERGEANT W. L. RAYFIELD, V.C.

an enemy sniper who was causing many casualties. He then rushed the section of trench from which the sniper had been operating and so demoralized the enemy by his coolness and daring that 30 others surrendered to him.

Again, regardless of his personal safety he left cover under heavy machine gun fire and carried in a badly wounded comrade.

His indomitable courage, cool foresight and daring reconnaissance were invaluable to his company commander and an inspiration to all ranks.

Official Record.

The Hacking Cough Strains The Lungs

The terrible, hacking, lung-wracking cough that sticks to you in spite of everything you have done to get rid of it is a great source of danger to your health and the longer it is allowed to stick the more serious the menace becomes.

You can easily get rid of the cough or cold at its inception by using Dr. Wood's Norway Pine Syrup, a remedy that has been universally used throughout Canada for the past 30 years.

Mrs. Samuel Matthews, Portage, P. E. I., writes:—"Last winter I caught a heavy cold, and was laid up for sometime. I had such a hacking cough I could not sleep at night, and did not think I could ever get over it. One day a friend dropped in to see me, and was surprised to see how bad my cough was. She advised me to use Dr. Wood's Norway Pine Syrup, so the next day I sent for a bottle and soon got relief, and by this time I had taken two bottles, my cough was all gone. I doubt there is anything to equal it."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; 3 pine trees the trade mark; price 25c. and 50c. Manufactured only by The T. M. M. Co., Limited, Toronto, Ont.

was employed on the "Lucky Baldwin" estate in northern California. Sergeant Rayfield enlisted with the British recruiting mission at Los Angeles, in July, 1917. On coming to Vancouver he was first put into a forestry corps. At his own request he transferred to the fighting ranks, and left Vancouver, December, 1917, with a draft to the 7th Battalion, reaching France in April, 1918.

Liked the Old Way Best. Every scientific management sharp butts up, sooner or later, against the human element. "Look here, my man," a scientific management chap said to a hod-carrier, "let me show you how to pack those bricks in your hod. You don't place them right? You should do it this way. There see that? By this new scientific method you actually got eight more bricks in the hod." "Yes, know," said the hod-carrier, "but like the old way best." "Why? Grease Caesar's ghost! Eight more bricks I tell you! Why?" "Because the

old's easier to carry the old way boss." Canada's net debt shows considerably less increase in October than September.

Pte. Sims, a crippled veteran of Toronto, died as the result of a motor ambulance overturning. The driver was held on a charge of criminal negligence. Several other soldiers were injured.

It is stated that the falling eyesight of Viscount Grey, British Ambassador at Washington, has been caused by an abscessed tooth which impaired the optic nerve. The Viscount's sight may be restored.

LAST DAY TO-DAY

GOING GOING GO

BUY TO-DAY—Get in before the hammer strikes at midnight and your opportunity is gone to buy Victory Bonds.

BUY TO-DAY—Get in now before you have lost your chance to buy Victory Bonds—they insure good times and good wages.

BUY TO-DAY—Get in before the hammer strikes at midnight—put every dollar you can command into Victory Bonds—buy to your limit now as a patriotic Canadian—as a shrewd business man or woman.

- Buy for Canada
- Buy for Yourself
- Buy for Prosperity
- Buy Before it is Too Late

THE LISTS CLOSE AT MIDNIGHT

Issued by Canada's Victory Loan Committee in cooperation with the Minister of Finance of the Dominion of Canada.

Canada at the National Chemical Exposition, Chicago.

The importance and magnitude of our Chemical Industries form a sensational chapter in the Industrial history of Canada, that has become known the world over. Development followed development during the war with amazing rapidity and still continues. Some idea of the progress made, may be gathered from the fact that up to a few months prior to the end of the war all synthetic nitrates for explosives produced on this continent, were of Canadian origin. Our production of acetone was equally phenomenal.

It is no wonder, therefore, that Canada occupied such an important position at the National Chemical Exposition recently held at Chicago, admitted to be the greatest industrial event in the history of that city.

In addition to the large attendance from Chicago, over twenty thousand members of various scientific societies, Universities, manufacturing concerns and others interested in commercial and scientific development attended the exposition. These included, The American Institute of Mining and Metallurgical Engineers, American Electro-Chemical Society, Technical Association of Pulp and Paper Industry and others.

The Government of Canada and the Province of Ontario, realizing the importance of this opportunity of telling abroad the story of our resources were represented by exhibits, and by some of their best men. The Canadian National Railways had an exhibit illustrating the mineral, forest wealth, water powers and raw materials of the country.

During the Exposition two addresses were delivered by C. Price, then, Commissioner, Industrial & Resources Dept., Canadian National Railways, on Canadian National Resources and the great field afforded in Canada for enterprise and investment of Capital, which were widely reported in the American Press and many scientific publications.
