THE SCHOOL NEWS SCHEDULE.

By arrangement with the principals of the various schools, we are now able to announce the days allotted to the various schools for their school news.

Every Monday. Louise school, Sydenham school. (Copy to be in by Friday evening.)

Every Tuesday. Frontenac school, MacDonald school. (Copy to be in by Monday at noon.)

Every Wednesday. Victoria school, St. Vincent's Academy. (Copy to be in by Tuesday at noon.)

Every Thursday. Cataract school, Notre Dame Convent. (Copy to be in by Wednesday at noon.)

Every Friday. Central school. (Copy to be in by Thursday at noon.)

Every Saturday. Kingston Collegiate Institute. (Copy to be in by Thursday evening.)

This schedule will be adhered to as much as possible. It is now the duty of the scholars to see that sufficient copy is sent in to keep their school section filled with good stories.

At times stories are heard of fine records of unbroken attendance at school. We feel sure that there are some children in Kingston with such records.

Lord Robert Cecil in the British House of Commons said that the reservations to the Peace Treaty by the U. S. Senate, provisionally accepted, meant the repudiation of the treaty.

are so anxious to co-operate on a work of this kind.

Every principal and teacher interviewed by the Whig regarding the introduction of a section devoted to stories written by the children themselves was enthusiastic over its possibilities.

The Parent-Teachers' Association. This innovation on the part of the Whig is one which should meet with the approval of the Parent-Teachers' Associations of the various schools.

The New School. It is expected that work on the new Cataract school will be commenced next spring.

A Suggestion. The educational articles which are appearing in the two outside columns of this section are, as will be observed, of a very practical nature.

On Making a Noise. Why is it that the large majority of boys, and many girls, too like to make a tremendous noise by stamping their feet when they are marching into school from the playground?

Splendid Art Exhibition. Last year a splendid exhibition of art work was given by the pupils of the Convent of the Congregation of Notre Dame.

Perfect Attendance. At times stories are heard of fine records of unbroken attendance at school.

IT IS IMMODEST. The "Sheer" Waist Cut Low, is Being Banned.

LOST ON HIM. Mrs. Longwind (concluding an exhaustive harangue): And now, you miserable loafer, what have you got to say?

PERFECTION. Oil Heaters. Look for the Triangle Trade Mark.

For Girls to Make

Curtains for a Girl's Own Room

Study your bedroom. Choose material for curtains that will harmonize with the wall paper and rug.

Measure your window from two inches above the top of the glass to one inch below the bottom of the sill.

Baste and measure carefully. It is the only way to avoid mistakes. Allow 1/2-inch seams when turning hems.

FANCY CURTAINS. If you desire fancier curtains you may: (1) Make a 4-inch border of contrasting material to match the decorations of the room.

VERY NERVOUS. You say he's very nervous? Yes, he shook like a jellyfish.

LOOKS THAT WAY. Now they say a chorus girl must have a perfect profile. Going to stand sideways exclusively.

LOST ON HIM. Mrs. Longwind (concluding an exhaustive harangue): And now, you miserable loafer, what have you got to say?

PERFECTION. Oil Heaters. Look for the Triangle Trade Mark.

IT ENDS THE PAIN

Children who have once had Zam-Buk applied, cry for it when hurt.

Not only in the home, but in the office, store and factory, Zam-Buk should be kept handy to apply immediately an injury is sustained.

Zam-Buk is equally good, too, for all skin troubles, eczema, rashes and boils. It destroys all germs and replaces the diseased tissue with new, healthy flesh.

FREE—Send this advert, name of paper and 1c. stamp (for return postage) to Zam-Buk Co., Toronto, for free box.

Zam-Buk HEALING AND ANTISEPTIC

Comfortable Dressing and Shaving. A chilly bedroom or bathroom—any room—is quickly made comfortable by a Perfection Heater.

Small, light and handy, it gives a lot of heat—clean heat. The wick-stop prevents smoking.

No more trouble than a kerosene lamp. Well built and lasts for years. Nickel trimmings with either blue enameled drum or black japanned drum.

PERFECTION Oil Heaters. Look for the Triangle Trade Mark.

Dr. Chase's Nerve Food

Tomorrow the sun will shine for you. Everything will seem clear, rosy and bright. Your system is filled with liver and bowel poison which keeps your skin sallow, your stomach upset, your head foggy and aching.
