

GANANOQUE

(From Our Own Correspondent.)

Nov. 24.—At the spring and axle department of the works of the Ontario Steel Products Co. Limited, on Saturday morning, a pleasant event took place when, at a concerted signal the power was stopped and the employees assembled to show their appreciation of their superintendent, Thos. A. Adair, who has held that position since the inauguration of that company, and who left yesterday to take charge of the company's new branch factory at Oshawa.

At the session of Grace Sunday School yesterday afternoon, Rev. William F. Crawford, of Ottawa, secretary of the Ottawa Branch of the Canadian Bible Society, gave an excellent lantern exhibit on the Bible, and later gave a similar exhibition in the Sunday school hall at St. Andrew's Church.

RECORD HOCKEY SEASON

IS EXPECTED AT QUEEN'S THIS COMING SEASON.

The Players Are at Work in the Gymnasium Getting Into Condition—Preparing the Two University Skating Rinks.

For some time the Queen's Hockey Club has been endeavoring to get a suitable coach. A few days ago Nighbor, of the Ottawas, was approached with the intention of getting him to give the team some time, but so far he has not given a definite answer.

These promises to be a record season in hockey at Queen's University. James Hewitt, secretary of the athletic committee, when speaking to the Whig on Monday, stated that he expected to have a bumper season. Although it will be some weeks before there is sufficient ice, the boys who intend taking part in the game realize that it is necessary to get into physical condition, so they are spending considerable time in the gymnasium.

For the past ten days men have been engaged in getting the covered rink and also the outside rink in shape for the cold weather. When asked if he thought that the citizens would be able to get the use of the outside rink for private skating parties, Mr. Hewitt stated that according to present plans it is doubtful if all the hockey teams representing the university will be able to get the use of the rink, let alone outsiders.

KILLING THE WALRUS

Will This Mammal Follow the Buffalo to Oblivion?

The killing-off of the walrus had far more than anything else to do with the peril of starvation which menaced the very existence of the Eskimos only a few years ago. Reindeer, imported from Siberia, have saved them, but to them the loss of the gigantic marine mammal is a really dreadful misfortune.

The walrus is one of the most useful creatures provided by a beautiful providence for the benefit of mankind, and since time immemorial it has been the main dependence of the Eskimos.

There are to-day comparatively few walrus left in the world, and the prospect is that before long this valuable species will be virtually exterminated. Persistent slaughter has reduced its numbers to such a point that there is no longer much profit in hunting it for commercial purposes—wherein lies the only hope for its survival.

Hunters seek the beast for its tusks, which are of very fine ivory; for its hide, which makes first-rate leather, and even for its whiskers, which furnish picks for opium pipes. To the Eskimo it is (or was) food, clothing, house, utensils (from bones and tusks) and most other necessities of life.

More than half a century ago the whalers, responding to a commercial demand for ivory, turned their attention to the walrus and proceeded to wipe them out systematically. Sometimes as many as 2,000 of the animals were slaughtered on a single cake of ice merely for the tusks.

Thus to-day a walrus is hardly to be found in waters where the creatures used to be so numerous that their howlings were heard above the roar of the waves and the grinding of the ice floes.

The poor animals had no chance at all. Usually the method adopted was to approach a herd of walrus on the ice, and after picking off the most alert bulls from a safe distance, with rifles, slaughter the rest at leisure.

A Demand For the "Yes."

"Learn to say 'No,'" exclaimed the proverbialist. "The accomplishment is too common," answered Mr. Crosfoot. "What I want to see is a grocer who has learned to say 'Yes' when you ask him for a couple of pounds of sugar."

"What's this I hear about ye gettin' married again, Willie Tamson?" "Oh, aye; I'm venturing on matrimonial bonds wi' Jean Cameron." "Losh me, man, ye've been married three times already." "Four times, four times." "Eh, Willie, ye're awfu' wastefu' wi' women!"

REDUCTION IN GAS AND WATER RATES. The Utilities Commission, which meets this afternoon, will likely deal with the question of reduction in water and gas rates. The expectation is that the commission will strike off the water and closet charges of the department. Just what the gas rate reduction will be is not known. If the commission can give a \$1.25 rate instead of the present one of \$1.50, it will do so. If not, it may give a ten per cent. reduction.

RE-ORGANIZE THE 15TH

Gen. Williams Appoints Lieut.-Col. Vanderwater to Command. Major-General V. A. S. Williams, G.O.C., D.D. No. 3, visited Belleville on Saturday, where he met the officers of the 15th Regiment, Argyll Light Infantry, in the armouries. In the evening he attended a meeting of the G.W.V.A. and gave an address.

On Sunday he went to Trenton and attended a memorial service in Wesley Methodist church and unveiled a tablet to fourteen Trenton soldiers who fell in France.

Major-General Williams took up the question of reorganization of the 15th Regiment while in Belleville, and as a result the announcement is made that Major Vanderwater, D.S.O., late second in command of the 2nd Battalion, C.E.F., has been appointed to command the regiment. Major Vanderwater had a splendid record in France. He is promoted to the rank of lieutenant-colonel, and his appointment is a very popular one in the district.
