YEAR 86: No. 277. KINGSTON, ONTARIO, SATURDAY, NOVEMBER 20, 1919. LAST EDITION.

BATTLE GROUND HAS SHIFTED

From Washington to the Various U.S. Coal Fields.

OPERATORS OF THE MINES ARE GUARANTEED PROTECTION OF THE TROOPS

If Violence is Offered to Miners Wishing to Return to Work—Output of Coal Must be Increased.

(Canadian Press Despatch.) Washington, Nov. 20.—The battleground of the conflict over the new wage scale in the bituminous coal industry, which has centred here during two weeks of fruitless negotiations, to-day shifted to various fields in all sections of the country. Operators returning there to attempt to re-open their mines and ready to pay the fourteen per cent. wage advance suggested by Fuel Administrator Garfield, received the assurance of the Government that troops were ready to protect from violence any miners wishing to return to work. Federal district attorneys have been instructed relative to proceeding against other operators of mines restricting the output of coal. The Department of Justice simply awaits developments.

ONTARIO SCHOLARSHIPS

Canadian Commissioner in Paris Makes Proposal to Premier.

Toronto, Nov. 20.—Hon. Philippe Roy, Canadian commissioner-general in Paris, called upon Premier Drury and Hon. R. H. Grant, minister of education at parliament buildings with the request that the Ontario government provide scholarships for post-graduates for a war memorial home which has been erected in Paris. Each province in Canada, Mr. Roy said, would be able to nominate the number of students according to the amount subscribed. The subjects to be studied would be in accordance with the inclination of the students selected or with the requirements of the province, the scheme being, as Mr. Roy explained, of an elastic character. The commissioner-general said he had been promised support from other provinces in Canada and emphasized the importance of the opportunity afforded young Canadian scholars for taking a course of study in France. It would be possible to study mining, forestry, engineering or practically any useful subject. Mr. Drury said that both himself and Mr. Grant regarded Mr. Roy's request in a favorable light and that it would be taken up at an early session of the cabinet with a view to being put into effect.

GUELPH RESTRICTED IN POWER SUPPLY

Same Methods as in War to be Adopted, or Current Cut Off.

Guelph, Nov. 20.—A special meeting of the Board of Light and Heat Commissioners was held yesterday afternoon for the purpose of considering the Hydro-Electric Power Commission of Ontario, limiting Guelph's power load to 3,200 horsepower from 7 a.m. to 6 p.m., and 2,600 horsepower from 6 p.m. to 6 a.m., under penalty of a total interruption. The secretary was instructed to see that no other lights or appliances be installed that would increase the load limit in restricted hours until the limit is raised. The secretary was further instructed to take steps necessary to reduce the load of the present power and light users in peak hours by adopting the same methods that were in force during the war on power and lighting restrictions, under a penalty of being disconnected entirely.

WHISKEY FROM CANADA

Britain Looks Unkindly On New World Article.

London, Nov. 20.—Despite the recent contention of a British whiskey firm that it was shipping more whiskey to Canada since prohibition than before the converse is true, that large supplies of Canadian whiskey are being imported by Britain. At a meeting of the Scottish branch of the Whiskey Association at Edinburgh, a resolution was passed "with reference to the supplies of Canadian whiskeys imported to this country in recent months the committee recognizes that such whiskeys may fill a gap which cannot be supplied by the home article. They appeal however, to the patriotism of the trade to see that such whiskey is sold under its proper designation, and not mixed and sold to the public as Scotch or Irish whiskey. Members of the public should also protect themselves." Britain evidently looks unkindly on the new world whiskey and temperance alike.

WINNIPEG ELECTS LAW AND ORDER COUNCIL

(Canadian Press Despatch.) Winnipeg, Nov. 20.—Mayor Gray was re-elected, with four out of seven of the citizens party as new members of council, giving the law and order forces control of the council.

TO ENFORCE DEMAND FOR HIS RELEASE

(Canadian Press Despatch.) Washington, Nov. 20.—Although a denial comes from Mexico city of reported fighting there between followers of President Carranza and Gen. Alvaro Obregon, presidential candidate, served to ease the tensions of the relations between Mexico and the United States, the State Department had not altered its determination to enforce the demand for the prompt release of American Consul Agent Jenkins, imprisoned on the charge of conniving with his bandit captors.

CLEMENCEAU URGED TO VISIT AMERICA

French Editor Says He Could Do Better Than Anyone Else in U.S. at Present.

Paris, Nov. 20.—The suggestion that Premier Clemenceau go to Washington and appeal to America in the interest of Europe, was put forward yesterday by the editor of the Midi. His article, appearing in the Presse de Paris, says: "There are not only French people in America as well, who would be glad to see Clemenceau take a steamship and go over there on a mission in the interest of our alliance. He is to-day the only European statesman whom American places on a par with the great victors of the world. His name commands respect. The habit he has formed of throwing himself upon the enemy, domestic or foreign, is one which appeals to the American people. Speaking English, he can appeal to the greatest audiences across the sea. Let him go to Washington and let him speak there in the name of Europe as well as in the name of France. It will not be necessary for him to make a wearing tour of speechmaking, like that which almost killed President Wilson. A few words spoken in the right tone will suffice, probably to produce the desired effect. For the Republicans love France as well as do the Democrats, and before such an envoy would not wait until the end of his speech to take off their hats. "M. Clemenceau ought to pack his grip."

POLICE ARE COMBING 20 CITIES FOR BOMBS

Chemicals and High Explosives of Most Deadly Nature Distributed.

New York, Nov. 20.—Police departments of about twenty cities, including Boston, Philadelphia, Chicago, Pittsburg and Cleveland, are searching for chemicals and explosives believed to be in the possession of members of the Union of Russian Workers. Information leading to this country-wide search was obtained in the New York raids, where enough acids and high power explosives have been seized to make a hundred bombs. Inspector Eagan, of the bureau of combustibles, describes the ingredients used by the New York police as "the most deadly and most dangerous assortment of explosives and bomb ingredients I have seen in many a year." Valuable clues have been discovered which will aid the police in running down the perpetrators of the bomb explosion at Judge Nott's home last June, the infernal machines sent through the mails to prominent persons under Gimbel Brothers' label and other outrages. The three large boxes, of the ledger type, which were seized in the raid, contained the names and addresses of five hundred men and women of extreme radical sympathies. City and federal investigators have joined forces in search for these persons.

MRS. McMARTIN'S GIFT

Nazareth Orphanage at Cornwall is Consecrated.

Cornwall, Nov. 20.—The blessing of the new Nazareth Orphanage here this morning was an impressive ceremony. The orphanage is the gift of Mrs. John McMartin, of Cornwall, now of 121, Crescent, Montreal, in memory of her late husband, John McMartin, who died shortly after his return at the last general election as M.P. for Glengarry and Stormont. The gift will be a magnificent memorial to him, being the finest home in Cornwall, and one of the best in eastern Ontario, which Mrs. McMartin has generously given to the Sisters of the Hotel Dieu, and which will be much appreciated, as the present orphanage is entirely inadequate for the purpose. In addition to the free gift of the house and grounds, it is understood that Mrs. McMartin and her children undertake to heat the building and keep it in repair.

BRITISH COLUMBIA'S NEXT GOVERNOR

Hon. E. G. Prior, Former Canadian Minister of War, May Get Position.

Ottawa, Nov. 20.—A Lieutenant-Governor has to be appointed shortly for British Columbia, where Hon. E. S. Barnard's term is about to expire. Hon. A. C. Flumerfelt, Hon. E. G. Prior, ex-M.P.P., and Walter Nichol, of Vancouver, a newspaper proprietor, have all been mentioned. There is a tendency to believe that Col. Prior will be selected by the Government. He was Minister of Militia and Defence in the Government of Sir Charles Tupper.

DOLLAR'S VALUE DWINDLING YET

The High Cost of Living Continues to Move Upwards.

LIVING COSTS INCREASE MORE THAN SIXTY PER CENT. SINCE 1914.

There is Still No Promise of a Downward Trend—Costs an Average Family \$22.08 to Live.

Ottawa, Nov. 20.—The purchasing power of the dollar has not increased since the armistice was declared. So far as the general cost of living is concerned, it has, in fact decreased. In October of 1918 the cost of a weekly budget of food, fuel and rent for an average family of five was \$21.48. In October last it had risen to \$22.93. This budget it is to be noted, doesn't include shoes, clothing, furniture, utensils, etc., most of which have increased considerably in price. Before the war the weekly budget of food, fuel and rent cost \$14.47. There has, therefore, been an increase since then of about 60 per cent., while shoes, clothing, etc., have registered a far greater percentage of increase than that.

INDIANS' FISHERY ARE THEY SOLELY WITHIN DOMINION JURISDICTION OR PROVINCIAL, TOO?

Belleville, Nov. 20.—An important case was heard yesterday in the Non-jury Sittings of the Supreme Court here, before Chief Justice Sir Glenholme Falconbridge. Eliza Sero, an Indian woman, residing on the Indian Reservation in Tyndinaga, has brought an action against Provincial Game and Fishery Inspector Gault and Overseer Flemming, to recover some nets seized by Gault under instructions of Fleming. The case is the result of Indians fishing in the Bay of Quinte off the Reservation with seine nets.

CONTROL OF LIQUOR TO BE EXPERIMENTAL

British Government Will Replace Present Board by a Number of Commissions.

London, Nov. 20.—Premier Lloyd George in his reply to a temperance deputation did not give details of the intended changes in connection with the control of liquor but indicates that it would be entirely experimental. The intention of the proposed bill seems to be to replace the existing liquor control board by a number of commissions, whose functions will be to perpetuate the powers of the control board to investigate, and advise parliament with regard to further legislation, as well as establish a scientific branch to watch the experiments proceeding not only in Britain, but in other countries.

VILLA DETERMINED TO AVENGE ANGELES

Everyone Connected With the Trial and Execution Are Marked for Reprisal.

El Paso, Tex., Nov. 20.—Persistent rumors of the hatching of a plot by Villa elements in the state of Chihuahua, following the execution of General Felipe Angeles, noted rebel leader, at Chihuahua city yesterday, reached the border town of El Paso. Every one connected with the trial of the Villa chieftain has been marked for vengeance, according to the reports. Francisco Villa, the ally of Angeles, plans to start immediately upon his campaign of reprisal, Chihuahua city being his objective point it is said. Reports of disorders in Chihuahua city have reached here, but Andres G. Garcia, Mexican consul-general here, said he had heard nothing of any outbreaks at the capital. Meanwhile, preparations were being made at thearrison in Juarez, Mexico, to prevent any disorders on the border.

NOT A PROPER PERSON

To be Allowed to Enter Legal Profession.

London, Nov. 20.—In granting a divorce to Major Thomas S. Hetherington, formerly of the Canadian military reserve, on account of his wife's misconduct with Lieutenant Berkeley Maxse Benson, of the Princess Patricia's Regiment, the president of the Divorce Court said respondent was one of many Canadian officers received by Major Hetherington into his home in fulfillment of the public duty incumbent upon him to do what he could to help fellow-Canadians and fellow-officers. The president said he need not comment on the way Benson rewarded this act, and any person of sober judgment could form an opinion of the conduct that any man guilty of such conduct deserved. There was an indication that Benson had an idea of entering the learned profession of the law, and he hoped the facts now disclosed would be considered by those whose duty it was to decide whether he was a fit and proper person to enter that profession.

HUSBAND IS ACCUSED

Men Say They Were Hired to Kill Wife.

Rochester, N.Y., Nov. 20.—Paul Logan, of Buffalo, confessed in detail to District Attorney Love and the police how he seized Mrs. John Pletcher from behind in her home here Tuesday last, clapping his hand over her mouth and cutting her throat. He added that when she fell, he backed her throat to make sure of her death. Logandiel, Charles Lipani of Buffalo and the woman's husband are under arrest here for the crime. The Buffalo men say Pletcher hired them to kill Logan when he found letters to her from other men.

ENCOURAGE BIGGER FRENCH FAMILIES

Professor Pinard Will Devote Political Career to Urging Change in Laws.

Paris, Nov. 20.—Professor Pinard, a leading authority on the country, who has just been elected from Paris to the new Chamber of Deputies, announces that he will devote his political career to working for larger French families. He contends that bad laws constitute a factor in the regrettable smallness of French families and he will seek to correct them, agitating also for laws encouraging bigger families. He sees this as an essential to the rejuvenation of France.

AIM TO WIN IN MANITOBA

Farm Rank and File Determined to Capture Provincial Power.

Winnipeg, Nov. 20.—With a provincial election bound to come off within the next few months, the entrance of the farmers' party into provincial politics becomes doubly significant in Manitoba. Some of the leading grain growers would prefer to see the farmers' party concentrate on Dominion politics. But the rank and file seem determined to capture the provincial governments of all three prairie provinces. Judging from recent events they would have little difficulty in carrying Saskatchewan and Alberta, but the elections in those provinces will not occur before 1921. Hence the farmers are obliged to tackle the hardest job first by an endeavor to carry the coming elections in Manitoba.

PREMIER NORRIS A FARMER AND HAS A LARGE FOLLOWING IN THE PROVINCE

The Farmers Want to Try Their Strength Before the Dominion Elections Come On.

It is also said that the farmers are not as united as they appear to be in their demand for free trade. They all want tariff reduction and freer agricultural implements, but they are not all prepared for the radical free trade revolution promised in the national platform of the Canadian Council of Agriculture, Even J. A. Maharg, M.P., for Maple Creek and the leaders of the farmers of Saskatchewan, has warned his followers that they cannot go into a federal campaign pledged to abolish the tariff unless they first evolve and agree upon some alternative plan of taxation.

WHISKEY FROM AMERICA

Irish Distillers Alarmed at Heavy Importations.

Dublin, Nov. 20.—The importation of many thousands of gallons of whiskey from America, as a result of prohibition there, has caused alarm in the Irish distilling trade. War restrictions have greatly hampered the Irish trade. The distillers were prevented in the 1914-17 season from making the usual quantity of whiskey. Next year they were closed down altogether, and permitted to make a reduced supply. The prices, of course, went up, and distillery shares advanced in the stock exchanges.

TO BE HEAVY IMPOSTS ON THE WEALTHY

New Revenue Measure Brought into Force in Italy.

London, Nov. 20.—As a revenue measure a royal decree has been issued by the Italian Government providing for an extraordinary levy on inheritances, an income tax contribution from profits, a tax on luxury goods and a new national loan at 5 per cent. The Daily Telegraph correspondent in Milan says all the newspapers publish the decree and generally approve it. The measure amounts to a radical reform, and is tantamount almost to a fiscal revolution, for it satisfies to a large extent the popular and Socialist demands for heavy imposts on the wealthy classes.

PROHIBIT ALL IMPORTS

Astonishing Contention of British Attorney-General.

London, Nov. 20.—The Attorney-General in a case before the King's Bench yesterday concerning the shipment of pyrogallic acid by a Canadian chemical firm to Brown and Forth of London, contended that the British Government can prohibit the importation of any articles whatever merely by an order-in-council. The suit is for the condemnation of a shipment because it was imported on August 17, this year, contrary to the import restrictions of June 25. The defendants claim the acid was ordered from Canada before the restrictions were imposed.

PROHIBITION ON LINERS

Shipping Board Legal Department To Decide.

Washington, Nov. 20.—Whether constitutional prohibition will operate to make American passenger liners "dry" has been referred to the legal department of the Shipping Board for a decision. Meanwhile bar fixtures are being installed on the elegant liner Leviathan, which is to be operated between New York and England. Shipping Board officials explained today that it would be nearly a year before this great craft would be ready for operation. Within a few months, however, former German liners are to be placed in the South American passenger trade and a decision on the question is expected before that time.

GARETAKERS ROBE ALGONQUIN HOTEL

The Cornwall Police Recover Part of \$1,500 Worth of Booty Stolen.

Cornwall, Nov. 20.—The police of Cornwall and St. Hyacinthe are "looking for a man named Joseph Bergeron, of Point Levis, Que., who a few weeks ago, together with his wife, was engaged as caretaker of the Algonquin Hotel at Stanley Island for the winter by J. R. Duquette, proprietor. Knowing that Mr. Duquette and his family had gone to New York and Atlantic City, the pair proceeded to do up the Algonquin, and packed all linen, silverware, rugs etc., valued at about \$1,500, and shipped their booty from Lancaster to St. Hyacinthe, addressed to J. H. Cota. The goods were shipped partly by freight and partly by express. Ross Annand, clerk at the King George Hotel here, which Mr. Duquette also owns, was notified of the occurrence and wired Mr. Duquette to return from New York, which he did, in a hurry. He placed the matter in the hands of Chief of Police Fyvie and Mr. Duquette and the chief went to Montreal and St. Hyacinthe, in both of which places they located portions of the booty. While in St. Hyacinthe Bergeron entered the express office and presented an address card to a clerk, and spying Mr. Duquette, whose back was turned, made off and has not yet been located. The rooms occupied by the pair in St. Hyacinthe were searched and some of Mr. Duquette's property was also found there. The police of Cornwall have their nets out for Bergeron and his wife.

NO CRIMINAL TYPE, PHYSICIAN PROVES

Lombroso's Theories of the Discovery of Enemies of Society Shattered.

London, Nov. 20.—Writers of crime stories are seriously perturbed at the discovery that there is no such thing as the "criminal type" of gentle and pleasant nature, but of a development and heavy, owl-like ugly features, described by Lombroso. Conversely, persons innocently afflicted with these peculiarities may breathe again, since they may not necessarily be criminals.

NAPANEE PERSONALS

F. G. G. Cottle, Banker, is Moved to Toronto.

Napanee, Nov. 20.—Miss Keitha Chatterton, of Toronto, is visiting her parents, Mr. and Mrs. J. Chatterton.

Mrs. R. J. Tolmes has returned home after spending a couple of weeks with her daughter, Mrs. Sheppard in Montreal. Mrs. Sheppard accompanied her home, and will spend a few weeks here.

Lieut. and Mrs. J. B. G. Gemmett left on Saturday for Cobalt, where they will spend the week-end.

Mr. and Mrs. W. A. Daly are spending the week-end in Toronto.

Mrs. James Fitzpatrick was taken to St. Vincent de Paul Hospital, Brockville, yesterday, for treatment. Her son, Dr. Charles Fitzpatrick, accompanied her.

Mrs. W. M. Miller spent the week-end with her parents, Dr. and Mrs. J. P. Vrooman.

Miss Diana Miller is visiting Mrs. G. B. Curran in Toronto.

F. G. G. Cottle, of the Dominion Bank, left on Tuesday for Toronto, where he has taken the management of a branch of the Dominion Bank. Before leaving, his friends presented him with a beautiful gold-headed cane as a token of their esteem. Mrs. Cottle and daughter, Edith, will remain here for some time.

Mrs. Edwin Miller is visiting her sister, Mrs. W. W. Treleven, in Toronto.

Miss Frances Leonard spent a couple of days in Belleville this week.

Mrs. W. H. Milsap is spending a couple of weeks with her parents in Stirling.

TO DEAL OUT EMERGENCY COAL

Which Will Begin to Come into Canada Within Two Days.

PREFERENCE TO HOSPITALS

Then Food Factories Will be Considered.

Must Apply Through the Provincial Controller—Board Offices Swamped by Applications From Industries.

Ottawa, Nov. 20.—Arrangements have been perfected by the fuel section of the Canadian Trade Commission for handling the emergency supply of coal released to Canada by the United States Administration, and it is expected that the coal will begin crossing at border points within the next two days. Officials of the fuel control office this morning emphasized the fact that no industries will secure coal at present until public utilities such as hospitals have been taken care of. Then industries which are actually manufacturing foods will have the preference. The board offices have been literally swamped with applications for coal from different industries who wanted to place themselves in the "essential" class, but it was pointed out that these applications must go to the provincial administrators. Those firms who seek to go over the heads of the provincial administrators by applying directly to Mr. McGrath will be among the disappointed. It was stated, for the provincial officials must pass on their claims for preference before the Dominion fuel controller will take any action.

THEATRICAL PEOPLE AFFECTED

Detroit, Mich., Nov. 20.—Americans who cross into Canada are, upon their return to the United States, required to submit to vaccination. In case they decline to do so, they are liable to enter the country, but their names are sent by telegraph to the health authorities in their home city stating that they have been exposed to smallpox. Americans going into Canada are subject to no vaccination on the Canadian side.

Theatrical people, or anybody else, coming to the country from Canada must either produce a certificate of vaccination or else submit to the work being done here. It is performed by officials of the public health service without cost to the patient.

NEWS IN BULLETIN

The U. S. Government serves notice on operators and miners that soft coal mining must be proceeded with at once.

Waterway experts have completed their report on the proposition to remove the St. Lawrence river obstacles to permit ocean vessels to reach the great lake ports.

H. H. Dewar leader of the Ontario Liberals, says his party will oppose Drury candidate in the bye-elections.

Many Toronto industries may have to close down on account of the coal strike.

British soldiers now have to accompany the Dublin police on their beats to save them from murder.
