NO. 21

Inflammatory Rheumatism Cured by B.B.B.

Rheumatism is a constitutional disease, caused by the uric acid in the blood. It manifests itself by pain and lameness attacking the muscles and joints of the body, which often swell and become hot and inflamed.

Anyone who has suffered month after month, and perhaps year after year, with rheumatism, and who has tried remedy after remedy in the hope of relief, and without success, should not give up hope.

Burdock Blood Bitters by investigating the digestive organs and eliminating the uric acid from the system, will give prompt and permanent relief.

Mrs. D. Barry, Purlbrook, Ont., writes:—"I feel it my duty to let you know of the great benefit my husband derived from using your Burdock Blood Bitters. He had been suffering for the past two years with inflammatory rheumatism. He tried many medicines but got no better. A friend advised him to take B. B. B. He did so, and after taking five bottles he felt like a new man, and was able to go to work the same as ever."

Burdock Blood Bitters has been on the market for over 40 years. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1/4 pint of hot water and a little granular sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

DIED AT ODESSA

The Late Mrs. Asseltine Aged Eighty-four Years. Odessa, Dec. 9.—Mrs. Asseltine, who has long been a resident of the village, passed away at the home of her daughter, Mrs. Charles Emmons, Monday night, after a long illness, having reached her eighty-fourth year. The funeral is to be held on Wednesday afternoon at the house, and the remains will be taken to Wilson cemetery for interment.

Mr. and Mrs. Justice Asseltine and little son are with Mr. and Mrs. Charles Emmons, Mr. and Mrs. David Arbuckle, Ottawa, who have been spending a short time with Mr. and Mrs. Fred Burt, returned to their home last week. Miss Lennie Snider is visiting friends in Kingston. Miss Zita Kenyon has returned from spending the week-end in Kingston. The many friends of Fred Burt will be pleased to know that he has returned from the Kingston general hospital and is able to resume his former duties. W. O. Hagerman moved in his new residence recently purchased in Colborne street, Kingston.

The death occurred on Saturday of a well-known resident of Elizabeth town in Thomas William Horton. He had been ill for five days of pneumonia. He was sixty-seven years of age. Miss Sarah Whyte, aged sixty-nine years, and her brother, William Whyte, aged eighty-two years, died within a few days of each other in Smith's Falls.

It's natural for the tea or coffee drinker to relish

POSTUM

—for this table beverage has a most satisfying coffee-like flavor, though it leaves none of the harmful after-effects that so often attend tea and coffee drinking.

Economical, too.

Young Citizens' Adventures

Hunting Eye Attends Council

Hunting Eye wondered what the big stone building with the tower was for. He entered a door which stood open. Ahead of it, was another door with light showing through the crack at the bottom of it. When he opened it, he saw a number of men seated listening to one of their number who was speaking. The little Indian Boy slipped into a seat and sat quietly until the meeting was over. One of the men approached him and said kindly: "Well,

you-butted into politics this time, sonny?" "What is this meeting?" asked Hunting Eye. "It is a meeting of the Council."

"But the council is always held out under the open sky," said the boy from the North Woods. "True, among your people, the chiefs and medicine men, seated about the council fire, make laws for the village. We also have a council which makes laws for the city. In some cities, it is called the city council, in others, the board of aldermen, and in still others, the city commission. Its members are councilmen, aldermen, or commissioners. The laws which the council makes are called ordinances."

"Usually the city is divided into sections called wards. Generally, one or two aldermen are elected from each ward by the people of that ward. Sometimes, however, the aldermen are elected at large which means that they are elected by the people of the whole city instead of just one ward. The aldermen are elected for a definite term of office (usually two or four years) which varies from city to city. The Council or Board of Aldermen is different from the Commission. The main difference is that the council can only make laws and can not enforce them. The city which has a council has also a mayor to enforce the ordinances. A commission, however, does the work of both the mayor and council. It makes the laws and enforces them. In some cities, the commission is elected merely to choose a city manager. He makes the ordinances and enforces them. He is the whole government in himself."

"What ward do you live in?" "I live in the ward of the city council." "How many aldermen are there in your council?" "How many elected from your ward?" (Next week: "Hunting Eye Goes to School.") Boys' and Girls' Newspaper Service Copyright, 1919, by J. H. Miller

AMHERST ISLAND DEATHS. The Late Mrs. William Fleming and Mrs. Robert Kilpatrick. Stella, Dec. 8.—The death occurred here on Monday morning, Dec. 8, of an aged lady resident of Amherst Island, in the person of Mrs. Fleming, widow of the late William Fleming, aged seventy-four years. The late Mrs. Fleming was well known and respected throughout the township. She had been in failing

Macdonald School.

The Silk Worm.

The silk worm is a name applied to the species of caterpillar that feeds on the mulberry tree. They lay eggs to the amount of three hundred. On hatching, they go through several moults and then attain a length of from three to three and one-half inches. Soon afterward they begin the formation of the cocoon. The cocoons are the source of the silk. They are usually one inch long and one-half inch broad. In making a cocoon a continuous thread is formed and is about four fifths of a mile long. The thread is kept together by a gummy substance. If the moth emerges the thread is severed. To prevent this they drop the cocoon into hot water. The thread is then united with that of four or five other cocoons and is then unreeling. The process takes about four days.—Wilbur Brokenhill.

What I Saw at Price's Pasteurized Milk Dairy. The farmers delivered and emptied the milk into a vat on the scales. Here it was weighed and the impurities into the clarifier where all impurities were taken out. The milk then went into the pasteurizer where it was boiled and cooled. It was then passed into the bottling machine and there made ready for the bottles. The bottles were then put in cases and placed under the bottling machine when they were filled with the milk which was then ready to be delivered to the public.—Earl R. Watorman, 83 Upper Union street, aged 11 years.

Two Miracles. Water in its various forms and shapes is a great miracle of nature. Mothers try to cultivate their children's fancy by telling them tales of a prince who had a cap of darkness and by putting on this cap he became invisible to the human eye. This miracle is no greater than the disappearance of water. We try to cloak this wonder by saying water evaporates. This is true, but think of the journey of a drop of water. It may be a drop clogged in a towel when hung out to dry, but as soon as it gets into the dry air, this drop vanishes on its cap of darkness and disappears into the atmosphere. The cap of darkness means this drop of water is condensed into vapor. The next time we see this drop of water is as part of the great mass of moving cloud floating overhead. Here with hundreds of other drops it stays until changed into another form.—Sarah Gollon.

Snow Crystals. Snow crystals are generally in the shape of a star. These flakes are formed with six rays with an angle of sixty degrees. Sometimes they have three rays with an angle of one hundred and twenty degrees. If one side is ornamented the rest is always the same. Snow crystals are more beautiful in the upper air because

health for some time. Deceased was a Presbyterian in religion, and a member of St. Paul's church. She is survived by six daughters and one son, namely, Mrs. John Glen, Mrs. Herbert Brown, Mrs. W. J. Glenn, Mrs. D. H. Wilson, Mrs. W. A. Scott and Mrs. William Cochran, all residing here, and Edward Fleming on the homestead. The largely attended funeral was held on Tuesday afternoon from her home to St. Paul's church, where the funeral service was conducted by Rev. James Cumberland. The pall bearers were the six sons-in-law of deceased, John Glen, W. J. Glenn, D. H. Wilson, W. A. Scott, H. Brown and W. Cochran. Interment took place in Glenwood cemetery.

Another aged resident of the island on Friday in the person of Mrs. Robert Kilpatrick, has passed to rest. Deceased suffered a stroke of paralysis some weeks ago. She was sixty-six years of age and a member of St. Paul's Presbyterian church. She is survived by her husband, five daughters and four sons, Mrs. John Fleming, Buffalo, N.Y., Mrs. J. A. Tugwell, Mrs. H. S. Patterson, Mrs. H. J. Beaubien, and Miss Reita Kilpatrick at home, and James Arthur, Edward, and John, all of the island. The largely attended funeral was held on Saturday afternoon from her late residence at St. Paul's church, where the service was conducted by the Rev. James Cumberland. Interment took place in Glenwood cemetery. The pall bearers were, John Glenn, William Fleming, Samuel Fleming, W. A. Scott, William Cochran, and Edward Fleming.

The steamer Brockville, owing to the high wind on Saturday, was unable to make her trip to the city. She was able to get out on Monday and make the trip. There was a large number of passengers and a heavy freight. It was her last trip of the season. J. A. Tugwell, took a carload of cattle to Toronto on Monday. S. R. Tugwell is on the sick list

Woodcraft For Boy and Girl Scouts

Nature's Christmas Tree

Suppose you put aside all the tinsel glass balls, glass fruit, and other artificial trimmings for your Christmas tree and this year use only honest-to-goodness decoration-things made by Nature, not manufactured in a factory. There are many to be found in the woods, the fields, the garden, and—yes the barn. Some grow wild, others are cultivated, but they all grow.

If you can go to the woods and bring home the tree yourselves, that will be a trip which will send the Christmas feeling down to the tips of your toes. Choose a Balsam-fir if you have a choice, its spicy, aromatic breath makes the air redolent of the Christmas season and its slender, symmetrical, cone shape makes the young tree especially well adapted to the purpose. Here are materials for your decorations. Clusters of red berries of any kind tied to the branches with narrow red or bright green ribbon. Berries of the hollyhock, ash, holly, spruce, the dangling, four-lobed berries of the SPINDLE TREE, or BURNING-BUSH, and the pendulous coral drops of the BARRY BUSH.

Bunches of clean, yellow heads of BARLEY and other bearded grain from the barn, with their spray of stiff hairs standing out like rays of light. Strings of shelled, golden peas, also from the barn, and from the woods, clean, dry cones, large

Regarding the Y.M.C.A. I think the pupils of the schools should be told a little more about the Y.M.C.A. I was talking about it the other day to a friend of mine, and persuaded him to join. Every boy in Kingston should belong to it. It is very interesting and enjoyable, as games of all kinds are provided. It only costs a boy three dollars a year to join the Y.M.C.A. It is a splendid place for both men and boys. Join the Y.M.C.A. and get the benefits of the fine gymnasium—Willis Wood, aged 10 years.

Triumph. He—But I asked you dearest to keep our engagement a secret for the present. She—I couldn't help it. That hateful Miss Oldun said the reason I wasn't married was because no fool had proposed to me, so I up and told her you had.

Victoria School. The boys and girls intend making a rink on either side of the school ground if permission can be obtained from the property committee. Santa Claus made his first visit to the kindergarten one day last week. A number of books were left for the tiny tots. The pupils of Senior Fourth made their surface patterns one day last week. The next day a number of very pretty candy boxes were made. Senior III, and Second Class got their new pictures one day last week. The classes are quite proud that they were able to win the Strathcona prizes from the other classes. Courses in physical culture and refresher courses are being conducted two nights a week in our school. The instructor is Lieut.-Col. Gilbert. We are very sorry that Viscount Jellicoe didn't pay Kingston a visit. We would have been delighted to sing "Britannia Rules the Waves" in a roped arena.

ACROSS, balls of the SWANSONE TREE, the spiky balls of the SWEET GUM TREE, and many other dry seed vessels that are decorative. Gild the cones and balls to make them shine and hang them to the branches by yellow string several inches long. Add the time honored festoons of white popcorn and red cranberries; then let the tree bear real fruit; apples, oranges, clusters of grapes, nuts and raisins, and it will be a real, not a make-believe Christmas tree. (Next week: "Trailing.") Boys' and Girls' Newspaper Service Copyright, 1919, by J. H. Miller

David Scivyer last Saturday before leaving for their new home in Picton, Mr. and Mrs. Scivyer have lived at Salmon Point in the one home for thirty-three years. They were presented with a beautiful mantle clock. The marriage took place at Sidney on Nov. 22nd, of Eva Pearl Howard, Frankford, to Percy George Tucker, Hillier township. The ordination to the priesthood of Rev. Manuel Belleville, Clayton, N.Y., will take place at Ogdensburg, on Dec. 10th.

BARGE CONDOR FLOATED

Raised From Bottom of Cornwall Canal. Cornwall, Dec. 10.—The barge Condor, of the Sincennes McNaughton Co. on her way to Montreal laden with 800 tons of blacksmith coal, was raised from the bottom of the Cornwall canal near lock 21 at the head of the canal and is now moored out of the reach of navigation in the Berghin Lake. The Condor's lines parted and she swung lengthwise in the canal and went down. The Reid Wrecking Co., of Duluth, unloaded a portion of the cargo and pumped the boat out, when she was floated. As soon as the cargo can be reloaded the Condor will be able to proceed on her way to Montreal.

Farmers to Co-operate.

Ottawa, Dec. 10.—Hon. T. A. Crean passed through here yesterday for New Brunswick where he proposes completing a co-operative trade arrangement between the United Farmers of that province and the farmers' organizations on the prairie.

Three robbers walked into the diamond shop of Morris Klein, 122 West Madison street, Chicago in the afternoon, and stole \$100,000 worth of jewels. They escaped in a red taxi-cab. The police believe the robbers were "amateurs." Occasionally a man rises from nothing to something worse.

IT CURES CATARRH BRONCHITIS You don't have to wait for relief when you use Catarrhose. This wonderful inhaler treatment is guaranteed to cure any case of Catarrh, no matter how chronic. You breathe through this inhaler and in so doing you send instantly all through the breathing organs a powerful vapor that is full of soothing, healing, germ-destroying properties. In this way the seeds of Catarrh are destroyed. Sore nostrils and weak throat are cured. Coughing, hard breathing, and sneezing all stop. For lasting cure use only Catarrhose. No substitute. Two months treatment, (including the inhaler), price \$1.00. Small size 50c at all dealers.

Sore Throat, Colds Quickly Relieved By Hamlin's Wizard Oil

Hamlin's Wizard Oil is a simple and effective treatment for sore throat and chest colds. Used as a gargle for sore throat it brings quick relief. Rubbed on the chest it will often loosen up a hard, deep seated cold in one night. How often sprains, bruises, cuts and burns occur in every family, as well as little troubles like earache, toothache, cold sores, canker sores, stiff neck, and tired aching feet. Soothing, healing Wizard Oil will always bring quick relief. Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back. Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 25 cents. Guaranteed.
