

Children's Coughs Quickly Cured

It is very hard to keep the children from taking cold. They will run out of doors not properly wrapped—play too hard and become overheated—get their feet wet—kick the bed clothes off at night.

HANA SHIMOZUMI as "Yum-Yum" in "The Mikado" at The Grand, Friday, Dec. 12th.

You can doubtless mention a number of persons who talk too much—including yourself. When a man is hungry words of sympathy are not calculated to fill an empty void.

Why Not This Christmas

To Our Policyholders: Never has the Canada Life faced the future with more assurance of success, or looked back upon the past with greater cause for satisfaction. Early in January a full account of a most successful year will be published in the newspapers. Wishing you the Compliments of the Season. Herbert C. Cox, President.

A true story of a Canada Life Policy issued over forty years ago.

At age 30 he secured his \$5,000 Twenty Pay Life Policy.

At age 35 he received his first Dividend which was added to the Policy.

At age 50 he received notice that his Policy, with 20 years Dividends, was fully paid for.

At age 70 he withdrew the Cash Value for his own personal use. He received a Canada Life cheque for \$6140 in return for his \$2880 paid in premiums. For many years his home had been protected by insurance of \$5,000 and Dividends.

Why Not This Christmas

Increase Your Life Insurance? A policy on your life may do much that you intend to do—if you live. It may pay off the mortgage, supply food and clothing for your family, keep the children at school and prevent a forced sale of your other property. It may be all that is left of your life work—to keep you in comfort in your old age. But—your Policy must be large enough.

The Twenty Payment Life

- Our new up-to-date policy provides— 1. That premiums will cease in 20 years. 2. That dividends will be paid during the 20 years, and afterwards. 3. That if you should be totally and permanently disabled before age 60, all premiums will be cancelled, and a monthly income paid to you. 4. That such monthly payments will not be deducted from the policy at your death. 5. That after 3 years or more you may take a paid for policy not requiring further premiums. 6. That the policy cannot lapse while a cash value exists; that the policy is indisputable after one year; that you may reside or travel in any part of the world or engage in any occupation without affecting your insurance. (There are many other valuable privileges.)

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, \$10,000 or more. These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met. Twenty years is a convenient period and premiums spread over that length of time are moderate and easy to handle. Do not delay this important matter. Ask for particulars today.
