## Which Is The Better Buy?

**C**OOPERED or metal household utensils for every day use that will gradually become water soaked and fall apart or grow rusty, leaky and insanitary until eventually they find their final resting place in the rubbish heap. Or—

### EDDY'S Indurated Fibreware

which combine with the lightness and resiliency of wood a degree of durability that causes them to outwear four or five old-fashioned containers of a different material.

Washtubs, Wash Boards, Pails, Butter Tubs, etc., made of Eddy's Indurated Fibreware are made without a single joint or seam and therefore cannot splinter or fall apart. The hard glazed surface of the fibreware is impenetrable to liquids and is absolutely impervious to taints or odors.

Next time you want a washtub, a milk pail, a household pail or a butter tub, ask for EDDY'S. Your dealer sells them.

### EDDY'S Silent Five Matches

Made from the choicest and best seasoned pine blocks.

Quick, sure silent strikers. Non poisonous and self-extinguishing. Never a fire menace because no dangerous after-glow.

See that the name EDDY'S is on every box of matches you buy. There are 50 to 40 different brands of EDDY'S—comprising an output of 70,000,000 matches a day. A Match for every person.
