

Got a Cold?

Peps will give you relief! Simply dissolve a Peps tablet in your mouth. Your breath carries the medicinal Pine vapor, which is released, to all parts of the throat, nasal and air passages, where a liquid medicine could not possibly reach. This vapor destroys all germs with which it comes in contact, soothes and heals the inflamed membranes and fortifies you against coughs, colds, sore throat, bronchitis and grippe. Peps contains absolutely no harmful drugs and are therefore the safest remedy for children.

BOLSHEVIK SCHOOL. Pupils Choose Teachers and Dismiss Them at Will.

The Bolsheviks have done many cruel things and many foolish things: perhaps the foolish things they have done are more clearly indicative of their state of mind than the cruelties. In the North American Review, Riley Allen tells the story of Osa, which he calls "the martyred city" because it was held by the Bolshevik forces and its population reduced by wholesale butchery—some in every five killed. But perhaps the most striking part of his ghastly recital is when he tells of the efforts of the Reds to run the schools, in a Bolshevik way. On this Bolshevik had here what they called "free labor schools." In practice it was a farce—and a tragedy. First there were many school teachers, good ones, killed. Then the Reds installed their own, or the pupils chose them. The Bolsheviks gave to the pupils, even of the grade schools, the right to form students' councils and choose their own teachers. The result was hopeless inefficiency and confusion. The pupils did as they pleased, and if the teacher protested, they dismissed him. They broke up desks and tables, tore down black-boards, and burned school books in frequent outbreaks of hoodlumism, unchecked by the so-called committee of education. Few in any school studied, the rest played. The teacher would either give up in despair and go home in the morning for the rest of the day, or get drunk.

To illustrate the Bolshevik theory of education: Here is one instance: Their teachers were told to give astronomy lessons from the Socialistic point of view. Every astronomical fact, every comet and constellation, must have a meaning in the progress and ultimate success of Socialism and communism all over the world. And as the heads of the educational system here were ignoramuses their instruction was absolutely ridiculous. Many teachers could not write their own names.

The Middle Class. Class is being raised against class as a consequence of the attitude of the manual laborers in Britain. While monopolist capital has always been able to fight for its rights and maintain its power, it is the unfortunate middle class that is the toad beneath the harrow—absorbed in the spikes of taxation and capitalism beneath the stony indifference of labor to any other interest than its own. Yet the middle classes form the majority of the educated classes and probably give less trouble to government than any other equal body of men.—Singapore Free Press.

Russian Thistle Is Useful. In regions where the Russian thistle has been considered a pest, it has been used both in the silo and cut for hay. When cut for hay the mower is started just as the spines commence to harden or even earlier.

Depreciation of Machinery. Did you ever think of the relation of the farmer's bank account to the tool shed? Machinery depreciates faster in the weather than it does in use. The time saved by having a rust-free implement will soon pay for the shed.

HAD ECZEMA

For Over 28 Years

Eczema or Salt Rheum manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust is formed and the intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat is almost unbearable.

The success which Burdock Blood Bitters has met with in skin diseases of such severity is due to its wonderful blood cleansing and purifying properties, and we know of no other remedy that has done or can do, so much for those who are almost driven to distraction with the terrible torture.

Mr. James Walker, 152 Niagara St., Hamilton, Ont., writes:—"I have been using Burdock Blood Bitters for some months past, and find it an excellent remedy for skin eruptions. I have suffered with eczema for over 28 years, and have tried almost everything you could think of. I was recommended to use Burdock Blood Bitters, and I am now clear of my skin trouble. It is certainly a good remedy and I shall recommend it to all my friends."

Grip, Influenza

Hammil's Wizard Oil a Reliable, Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and snuff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat Which Clogs Kidneys, Then the Back Hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness, and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent litmus-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

ATTRACTED TO CANADA.

Higher Wages and Cheaper Food Draw Carpet Weavers.

London, Jan. 23.—Passengers on board the "Scandinavian," leaving Liverpool, included carpet weavers, from Halifax and Kidderminster, said to be attracted towards Canada by higher wages. Representatives of Canadian manufacturers state that, in addition to earning higher wages, the prospects for the weavers were brighter in Canada, because food was cheaper than in England.

There also appears a letter from Bishop Perrin, of Wilkesbarre, and formerly of British Columbia, who writes, on behalf of the Church emigration society appealing for help for clergy who wish to settle in the British dominions: "An overseas appointment," adds the Bishop, "though it may not mean much in increased pay, frequently provides better openings for children. It is hard that the clergy should miss this chance for lack of a comparatively small sum."

ENGLISH LIVING COSTS.

General Retail Level 125 Per Cent. Above Pre-War.

London, Jan. 23.—Never was the cost of living in this country so high as it was at the end of last year. In the current number the Labor Gazette shows that the general level of retail prices, including rent, clothing, fuel, light, etc., as well as food, was 125 per cent. above those of July, 1914, compared with 120 per cent. at the beginning of the year. Taken by itself, food on January 1st, 1920, stood at 136 per cent. above the pre-war retail prices. In January, 1919, it reached 130 per cent., and dropped during the year to 124 per cent.
