SHORT OF BREATH Could Hardly Walk Without Resting

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"
Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation; dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.
On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.
Mr. Stephen Crouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."
