**A Death Coincidence.**  
Two people of the same name, and same age, died on the same day in Toronto, Monday. This is a peculiar circumstance. Both were women, and had they married men with dif-

ferent names the story might have been altogether different. They both married men named Fassmore, and when Sarah Ann, aged 79, wife of Christopher A. passed away at 46 Kippendale avenue at 11 a.m., Monday, another followed, and this accounts for the death of Mary Elliot, widow of the late William Fassmore, at Grace Hospital at the same day. She was also 79 years old.

**Brave Belleville Captain.**

While covering a party of engineers who were making a sap at a point almost without the German lines, Capt. Harper was severely wounded. In fact, his little force was almost completely wiped out, all suffering casualties, while he was left for dead and was the last brought in. With seventeen fractures in his body, he recovered after 15 months in French hospitals and much treatment in England.

**LADY NINETY YEARS OLD**  
MRS. MARTHA HAMILTON OF INVERARY BORN IN 1830

She Came From England In 1833—The Marvellous Progress of Affairs She Has Witnessed.

One of the oldest and most highly respected residents of Frontenac county, in the person of Martha Ann Hamilton, widow of the late Robert Hamilton, recently celebrated the ninety-ninth anniversary of her birthday at the home of her daughter, Mrs. Daniel Walker, Inverary. Mrs. Hamilton was born at Brighton, Sussex, England in the year 1830, and came to Canada with her parents in 1833 on a sailing ship that took twenty-one weeks to make the journey. The family settled in Bath where Mrs. Hamilton grew up and married Robert Hamilton of United Empireoyalists stock. About thirty years ago Robert

Hamilton was drowned by accident near Verona. There were nine children born, three boys and six girls, most of whom are still living. Mrs. Hamilton had the joy last year of welcoming back home three of her grandsons who fought in the Canadian Expeditionary Force in the late war. Few Canadians have lived to see such wonderful advancement in science, in social and industrial life as Mrs. Hamilton. While she was born in England, she grew up with Canada and saw it advance from the status of a colony in world affairs, and the social life of the people raised to the highest plane yet attained in the civilized world. Only one who has lived through such changes, as Mrs. Hamilton has, can fully appreciate the blessings enjoyed by those in every other walk of life. Mrs. Hamilton is a devout member of the Anglican church and is interested in the "Forward Movement" that is now engaging the attention of all zealous

church members everywhere. Among the astonishing things that have had their birth in Mrs. Hamilton's time are the steamships that have taken the place of the sailing vessel; the telegraph, telephones, bicycle, automobile, airplane, phonograph, binder, seeder, tractor plough, gasoline engine, cheese factory, and creamery, steam and electric railways that have taken the place of the horse and mule. But these are not all by any means. It would not be to leave out the modern varieties of breakfast foods that have a hard fight to displace the old-fashioned oatmeal and buckwheat porridge that the past two generations grew up on and will cling to till they die. She has seen the larder once well stocked with dried beef hams, home cured pork hams and bacon, and soured fish, change to be supplied daily with fresh meats of every kind. But she has also seen a great change in the mode of life and enjoyment of the people. The theatre is now patronized daily and there one is not entertained with the mere representation of life by actors, but by the moving pictures of actual life itself. Mrs. Hamilton is a distinguished Canadian inasmuch as she has been spared to witness greater progress than many now living may ever see.
