Who Says the Judicial Spirit is Dead? For sheer loyalty, at once to truth and to home industries, the palm belongs, I believe, to an "oldest inhabitant" in a small Illinois town, where the noon hour found me waiting for a train. I stopped him to inquire as to where I could obtain a meal. "There be two rest-rants," he said, "down 'round the corner, one on this side the street and th' other across from it. . . . And," he added, with a twinkle in his eye, "if y' go to one you'll wish y'd gone 't' th' other!"—Cartoons Magazine.

## LIKE BOLT FROM HEAVEN'S BLUE

A happy discovery of Cincinnati chemist interests women here

Your high heels have put corns on your toes and calluses on your feet, but why care now?

A genius in Cincinnati discovered a magic ether compound and named it freezeone. A quarter ounce of this freezeone can now be had at any drug store for a few cents. Apply a few drops on your tender, aching corn or callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with your fingers. Just think! You can get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses for a few cents and without suffering one particle, without the slightest irritation of the surrounding skin. Just a touch of this marvelous freezeone on a sore, troublesome corn gives instant relief.
