

MARY PICKFORD AND HER BEAUTIFUL CALIFORNIA HOME.

Mary Pickford, the Toronto-born movie queen, is expected to pay a visit to England in the spring to act for one of the British film companies. She is reputed to be earning at present about \$1,000,000 a year, and is the fortunate possessor of Hollywood, the beautiful house depicted above, which is situated in lovely Los Angeles, California. That she will receive a great welcome in England goes without saying, as she will receive the testimony of the position she holds in the cinema world as "first favorite."

BEWARE OF TENDER GUMS

Unhealthy soil kills the best of wheat. Unhealthy gums kill the best of teeth. To keep the teeth sound keep the gums well. Watch for tender and bleeding gums. This is a symptom of Pyorrhea, which afflicts four out of five people over forty. Pyorrhea menaces the body as well as the teeth. Not only do the gums recede and cause the teeth to decay, loosen and fall out, but the infecting Pyorrhea germs lower the body's vitality and cause many serious ills. To avoid Pyorrhea, visit your dentist frequently for tooth and gum inspection. And use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions, and consult a dentist immediately for special treatment. See and 50c tubes in Canada and U.S. If your druggist cannot supply you, send to us direct and we will mail tube postpaid. FORHAN'S, LTD., Montreal

BOARD OF HEALTH MEETING

REPORT OF MILK INSPECTOR ON TESTS MADE.

More Houses to be Closed Owing to Their Being Unfit for Habitation—Other Matters Before the Board. The Board of Health met on Thursday afternoon and a number of important matters were dealt with. E. Cain, chairman, presided.

The monthly report of Dr. G. W. Bell, milk inspector, who was absent through illness, was read. He told of his inspection of cows and of finding, with few exceptions, that all were in a healthy condition. No milk was being sent to the city for sale from diseased cows. Pure milk required periodically by a qualified veterinary inspector. This examination, in his opinion, should be made at least twice a year. The butter fat tests were as follows: A'Hearn, 3.05 per cent., Gordon, 3.06, P. Vallentine, 3.03, Barker, Brock, 5.00, T. Uller, 3.05, Bauder, 3.03, Babcock, 3.06, Knight, 4.02, W. G. Sears, 4.00, Kingston General Hospital's milk, 4.02, Hotel Dieu, 3.08. Several others were reported by number, but all showed over three per cent. butter fat.

Licenses to sell milk were issued to the following stores: J. Cullen, Mr. Nash, Mr. Gilchrist, Mr. Shields, J. Kelly, W. V. Webster; to street vendors, William Stewart, W. G. Spears; keepers of cows, T. C. Henderson, one cow, George W. Hyland, one cow. The inspector's report was adopted and it was moved that the inspector be asked if those who sell cream to the ice cream parlors have licenses, also those who sell milk and cream to the Kingston Dairy School.

A claim from R. C. Babcock through his solicitor, A. B. Cunningham, for damages amounting to \$85, for clothing destroyed when he was suffering from smallpox, was referred to the city solicitor. Mr. Dine filed a complaint for injury to his cellar by water draining from an adjacent quarry. This was referred to the city engineer. I. Cohen asked for the placing of a sewer on Montreal street where he is building thirty-two houses. This was also referred to the city engineer. Another complaint was received about a dwelling house, No. 70 Wellington street, which was declared to be unsanitary.

The city clerk produced by-laws from a number of other cities governing the sale of milk and the price at which it is sold. At Sault Ste. Marie the price is 15 cents a quart. Hamilton, 15 cents. St. Catharines uses a score card containing one hundred questions, 75 per cent. of which have to be answered satisfactorily before a license is granted. At Woodstock milk is sold at 14 cents a quart or eight quarts for \$1.00 and it is all bottled at a pasteurizing plant erected by the vendors themselves. The whole city, which has a population of 14,000, is supplied from this one plant.

There was much discussion over the report from Woodstock. Mrs. John MacGillivray thought it the best system, and steps should be taken to ascertain whether the Kingston vendors could do the same. Woodstock is the only city that has such a system in operation. Peterboro has no by-laws and London has no by-laws. In Peterboro the price is 13 and 14 cents a quart and in London 14 cents.

All the reports were referred to the medical health officer, and the license inspector, asking them to make a report, and any recommendations for the benefit of Kingston. Mrs. MacGillivray moved that the secretary write to Woodstock and ascertain how they worked out their system. She thought that the card score system might be adopted here. Referring to articles of food such as fresh fruit, confectionery and cakes exposed for sale, she suggested that they ought to be covered as a protection from dust, also that all bread should be wrapped.

Sanitary Inspector W. Carson reported placarding houses for infectious diseases. One house was ordered locked up as being unfit for habitation until properly repaired. He also reported on a row of houses on Wellington street, near Princess street, that were being closed.

The members present were E. Cain, Mayor Nichol, Mrs. MacGillivray and Dr. A. R. B. Williamson.

Paradoxical though it may seem, it's the idle tongue that works overtime. A parson is always the best man at a wedding. He gets the coin.

Seven Sentence Sermon.

It is better to wear out than to rust out.—Bishop Cumberland.

Talk that does not end in any kind of action is better suppressed altogether.—Carlyle.

Unheard, because our ears are dull. Unseen, because our eyes are dim. He walks our earth, the Wonderful, And all good deeds are done to Him. —Whittier.

There is no life so humble that, if it be true and genuinely human and obedient to God, it may not hope to shed some of his light. — Phillips Brooks.

Bear ye one another's burdens, and so fulfil the law of Christ.—Gal. 6:2.

If our love were but more simple. We should take Him at His word. And our lives would be all sunshine in the sweetness of our Lord. —F. W. Faber.

Forgiveness is not a sudden sob of mercy in the propitiated heart of God, it is the perpetual state of the divine heart, a divine hospitality open to all.—G. Johnston Ross.

Mammoth Hoisting Engine. An electrically driven hoisting engine has been installed in an English coal mine that can lift 150 tons an hour from a vertical depth of 900 feet.

Fountain for Home Use. A soda water fountain for home use has been invented, pulling a lever releasing the correct amount of flavoring syrup and charged water together.

Clogged Nostrils Open Breathing Made Easy, Catarrh Cured!

New Method Very Successful.

It is a new method of treatment, that of medicated air, and cannot fail to be beneficial. It goes wherever air can go, thus reaching all the affected parts. It purifies as by fire. Simply burning up the disease germs. Catarrh is a non-poisonous and harmless agent; it therefore acts upon the mucous tissues of the throat, nasal passages, and bronchial tubes, destroying all microbe life, and at the same time heals up all the inflamed parts.

As a cure for Catarrh, Bronchitis, Asthma, La Grippe; as a strengthening for the throat, Catarrh is not to be equaled.

It is a guaranteed cure, and is highly endorsed by prominent physicians who use Catarrh in their practice.

Catarrh is a guaranteed cure, consisting of a beautifully polished hard rubber inhaler and sufficient Catarrh for two months' use, price \$1.00, smaller size 50c, at all dealers.

NO PROFITEERING WITH ZAM-BUK

Before the war, Zam-Buk was 90c a box. All during the war, when the cost of production was rapidly advancing, the price of Zam-Buk to the consumer remained the same. Now, with the war over, while some prices continue to soar, Zam-Buk is still 90c a box! Not only so, but the same high standard of quality has been maintained throughout.

There has been no profiteering in regard to Zam-Buk. For every box you have bought, you have been asked to pay fair value only.

Is this method of doing business not worthy of recognition? Answer this question by continuing to recommend, to appreciate, and to use Zam-Buk—the greatest household healer of modern times.

Use it for all skin troubles, eczema, ringworm, abscesses, ulcers, boils, pimples, piles, blood-poisoning, chapped hands, cold sores, cuts, bruises, burns, scalds, etc. All Dealers, Etc. Box.

STEAMER TO BE ANCHORED

THE COLUMBIA TO BE SOLD AT OGDENSBURG, N.Y.

It Ran Out of Kingston For Some Years—Latterly Traded Between Lake Ports and Montreal.

Steamer Columbia, which is owned by Ogdensburg, N.Y., people, will be sold at a mortgage foreclosure sale at the St. Lawrence Trust company's bank in that city March 1st. The mortgage is held by the bank. The steamer has had a long and spectacular career. It was built in 1881 by George Presley of Cleveland and is 235 feet long, 38 1/2 feet beam, and 20 feet molded depth. It is of wooden construction and was operated on the Great Lakes for a number of years by various owners.

In 1912, at which time she was owned by R. Williamson of Buffalo, she was burned opposite this city while en route from Montreal to Chicago and was beached opposite the Continental building. The fore part of the ship was entirely burned off. For four years she laid where she had been beached. In 1916 she was purchased by the Ogdensburg Steamship company. She was pumped out and taken to the Rutland railroad docks, where about \$40,000 was expended in rebuilding her. She went into commission late that fall and had since traded between Lake Ontario points, Ogdensburg, Prescott and Montreal.

ACTRESS' UNIQUE CLAIM

Appeared Out of Style After Delay in Transit.

Kansas City, Mo., Feb. 20.—The value of some flimsy lingerie, several pairs of silk hose, two fur coats, four silk gowns, and several other articles of woman's wearing apparel which belonged to Miss Gertrude Lane, a moving picture actress is to be determined by a jury in the Circuit Court in a suit on trial here. Miss Lane, who is twenty years old, and an attractive brunette, sued the American Railway Express Company for \$1,700, the value of wearing apparel which she testified was contained in a trunk.

The trunk was shipped from Kansas City, June 24th, 1918, to New York, was lost in transit, and found eighteen months later in New York city. The express company, she testified, wanted her to accept the trunk when it was found, but she refused, declaring the gowns, the hats, and the fur coats were decidedly out of style by that time.

WOULD ABOLISH GOVERNOR

Platform of New South Wales Labor Party.

Sydney, Australia, Feb. 20.—The Labor candidate, Mr. Storey, in an electoral speech, in which he outlined the policy of the New South Wales Labor party if the party was elected, declared it would abolish the "useless paraphernalia of state government and legislative council." He said it was proposed to impose a larger share of the public burden on unproductive capital, speculative investments and absenteeism from the country, while the producers share in the burden would be lightened.
