GLASSES GRIND ON THE PREMISES

AT THE HOCKEY MATCH

"Just look at Mr. Hybrow Jones," remarked Professor Wiseman Goodnight, to Miss Mary, as they surveyed the crowd before the game began. "That field glass case is just for effect, thinks it 'gives him a sporty appearance.' 'You really do not need field glasses if you have correct spectacles, do you, professor?' inquired Miss Mary.

"Not much," Jonesey should interview:

AN EASY WIN FOR QUEEN'S
DEFEAT COLLEGIATE TEAM BY 6 GOALS TO 0

In The Junior, Intercollegiate Hockey Series—The K.C.I. Team Composed of Youths.

In the first game of the finals of the local group of the junior inter-collegiate hockey series, played at the covered rink on Friday evening Queen's won from Collegiate Institute by a score of 6 to 0. Although the K.C.I. were badly beaten, they certainly were a game bunch of boys. It is safe to say that the Queen's team would average about thirty pounds heavier than the Collegiate boys. The K.C.I. was very light and for that reason they were unable to stop the Collegians.

During the first period both teams were unable to score, but after about ten minutes of play in the second period the Queen's players got through the K.C.I. defence and Swartman scored soon to be followed by Smith. Queen's added four more in the third period. The good work of Morris of K. C. I. kept the score from being higher.

The return game will be played on Monday evening. The winner will meet the winner of the Toronto and Montreal group.

The teams were:—
Queen's—Goal, McNeil; defence, Hamill and Smith; centre, Swartman; wings, Gibson and Finkle; spares, Bracken and Simpson.
K.C.I.—Goal, B. Morris; defence, Emery and Rooney; centre, R. Carr-Harris; wings, B. Carr-Harris and V. Johnston; spares, Sugel and Neilson. Referee—"Jimmie" Stewart.

LETTERS TO THE EDITOR

Favors Daylight Saving.
Kingston, Feb. 20. (To the Editor)—When it is in the interest and for the benefit of every man, woman and child in this city why should not council pass unanimously the daylight saving by-law? The countries of Europe all recognize the benefit to be derived from this extension of daylight for the people generally. This opposition of the rural community is only commensurate with their desire to run the country to suit their every whim. To say that the interferes with their work when the clock is moved an hour ahead is to raise a man of snow to have it melted by the warm rays of the summer sun. All the chores of the farm have to be done before any work in the field can be undertaken, and by the time the hens are fed and the stock watered, the dew is off the grass and the work for which the hired man is paid can be undertaken without interruption and no one is the least hurt by the moving of the clock.

In Montreal at a meeting of the Trades and Labor Council a motion in favor of daylight saving was almost unanimously carried, and it is the intention when the whole issue are given the chance to vote on the question to go before parliament with their petition in favor of the commonsense passing a law for the whole Dominion.

I am glad to notice that the matter is to come before the city council at the next meeting and if the city fathers are looking for the good of the citizens then there should not be a single voice raised against it. The working man gets a chance to use part of the day thus afforded to enjoy football, boating, baseball or any other outdoor sport after his day's work is done and not have to grope around in the dark to finish any game he may have started during daylight.

Trusting that the city fathers may see this thing in the same light that I do, believe me,

Yours truly,
—J. GALLOWAY.

Farmer's Interests Are His.
Bath Road, Feb. 20. (To the Editor)—Having read the letter in your paper regarding myself and the success of our Agricultural Exhibition, I really must thank the writer. The success of the exhibition was all right; my part with the help of the committee was very good, and let me say my helpers were willing and wholehearted. I desire to thank them. The mention of my desire to help the farmer needs no words of mine to prove that their interests and successes are also mine.

But for another point, the swelling of exhibits for the present year. We have a county rich in minerals and I will promise a prominent place to exhibit the same. Send in samples of mica, feldspar, iron, lead, gypsum, granite, etc., where found, and other particulars. Let us have samples from each township of grain, fish, birds, fur-bearing animals, all mentioned above. Could some one bring in a yoke of oxen fully rigged for work or anything of quaint origin. An exhibit of this kind would not alone delight the children but older people, and be an object lesson of how farming was done in days gone by.

Let us have a threshing of the wheat from the old mill and winnowing of the same to the new modern methods. Let us build up a history of Frontenac county from its beginning to the present time. I am sure the people of the city will go heart and hand with us to put up such an exhibit as many in the city have relics of bygone days that would help us along. These are only suggestions I am at present throwing out (as time goes on I will offer more) and I trust they will not fall on deaf ears. I am only a median through which energy passes. You, the people of Frontenac county and city are the energy. Will you give us some? I think you will. Unity of thought and action is required.

Thanking you in anticipation:
I remain, respectfully yours,
ROBERT J. BUSHNELL
Sec. Treas. and Manager, 1920.

INSPECTOR TO REPORT ON THE CONDITIONS

The Board of Health is Active on the Housing Conditions.

The Board of Health is having the sanitary inspector report on housing conditions in four cases reported to the Board. It is claimed that the sanitary conditions are far from what they should be. The matter was before the Board, at its last meeting, and it was decided to have the sanitary inspector submit a report on the conditions in the cases mentioned.

After a lengthy illness, Mrs. Harold Head passed away at her home in Greenbush, on Feb. 17th, aged thirty years. The deceased was the daughter of Mr. and Mrs. William A. Anderson, and leaves her husband and three children, two girls and one boy.

Mrs. Catherine Bradley Cornwall, died on Wednesday, after a week's illness. Mrs. Fournier, Kingston, is a daughter.

Yes, Stanley, it takes a lot of ice cream and candy to decorate love's young dream properly.
