There were no children. After the outbreak of the Indian mutiny, Mr. Quinn thought this land worthless, but now, it is stated, valuable minerals have been found on the land, and it is estimated to be worth over \$19,000,000, and heirs are being sought. Edward Quinn, Westport, and John Quigley, Perth, and several other relatives in this vicinity, besides Quinns in Chicago, Kansas, Idaho, Colorado, Ireland and far off Australia, are claiming the millions. J. P. Foy, Perth, has charge of the interests of the local claimants, and Horan and Flannigan, Chicago, the interests of the American relatives.

**"FLU" IS INFECTIOUS**

A Disease Easily Spread Through Close Association

It passes in the form of minute germs from the coughs or sneezes of people who in the first stages mingle with others.

Therefore avoid exposure, — this may be difficult, almost impossible. But we can all keep our blood full of vitality and enable it to resist the attacks of disease germs, by taking Hood's Sarsaparilla, the pre-eminent blood-purifier and health builder. This good medicine promotes assimilation so as to secure for the body the greatest possible value of food. It aids digestion and "makes food taste good."

After influenza or any other blood-poisoning, prostrating disease, it is remarkable how it promotes convalescence and brings perfect restoration to health. A good cathartic like Hood's Pills helps greatly by keeping the bowels regular.

**TAKE SALTS TO FLUSH KIDNEYS**

Eat Less Meat If You Feel Backache or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eating of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush of the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink, which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.
