PREDICTS WAR IN FAR EAST

IF CHINA IS NOT EVANGELIZED IN FORTY YEARS

"We Have the Opportunity Today of Evangelizing China," Says Rev. L. L. Young, of Korea—Service at Convocation Hall Sunday.

"We will have a war in the far east if China is not evangelized in the next forty years. We have the opportunity today of evangelizing China. The way is open, and her people are ready to hear everything the west has to teach them. Militarism is the enemy of Christianity. The only cure is the gospel of Christ Jesus Christ. And God forbid that we have a fight in the far east.

The above statement was made by Rev. L. L. Young, who for thirteen years, has been engaged in missionary work in Korea, addressing a meeting of Queen's students in Convocation Hall, on Sunday afternoon. The service was held to mark the anniversary of prayer for students. Rev. M. N. Omond also delivered an address at this meeting.

Mr. Young stated that the call for missionary work in the far east is most urgent. The doors were open at the present time for the missionaries, but they might not always be open. Militarism was striving hard to keep down Christianity.

"If we want to get on the spring line now is the time," added the speaker. "The call from the far east today is ringing. There was a time when perhaps prejudice was the greatest barrier. But the great barrier has crumbled down. There was a time when Korea looked upon the foreigner as a barbarian. But this is all now passed away, and even in the mountains, the heathen, as well as the Christian people rush to hear what the missionaries have to say. In the old days they would throw mud at the missionaries. But the people are awake now. But to be awake does not mean to be a Christian. These people are looking to the white man for guidance. And you will ask: 'what has brought about this awakening?' This credit goes to the missionaries, doctors and traders.

The speaker said that the greatest force in China and Korea in recent years was the military machine. The people wanted to be saved from this military machine, and it would take a great shock to awaken a nation. In Japan there was a great military machine. There they believed that might is right. The military machine ruled Japan. Some missionaries say that the Christian church lost her chance in Japan forty years ago. Japan is very proud of all she has accomplished. China has either to be evangelized in the next forty years or become a military heathen power like Japan.

Rev. Mr. Omond spoke on the subject of "Life Investment," dealing with the question of what the students had to invest in life. To many students, all they had to invest was their own life and to the students of today there were many opportunities for presenting themselves for service. And it was most essential that they should have prayer in facing their life work, having in view the possibilities for rendering real service for humanity. The call believed to students to place their lives under the leadership of the Master and under his guidance they would be led to the right decision.

TENDERED RESIGNATIONS

TEACHERS OF PUBLIC SCHOOLS NOT SATISFIED WITH INCREASES

Granted to Them by the Board of Education—Matter Will Be Considered at Board Meeting To-night.

Fifty-one women teachers of the public schools of the city have addressed a letter to the secretary of the school board tendering their resignation, to take effect on April 1st next, if the full increase of \$300 asked for is not granted.

Their action has grown out of an application for an increase in salaries of \$300 all round, and making the maximum salary \$1,300. The board did increase the salaries by about twenty-five per cent. The maximum was fixed at \$1,250 and the minimum at \$800, while it was previously \$650. The announcement of the increase was not received with entire satisfaction and a letter was addressed to the board asking for reconsideration not later than Feb. 25th. As nothing was done by that date showing that the board was inclined to receive the representations of the teachers and reconsider its action on the matter of increases, the teachers have given notice of their resignations.

When interviewed to-day, the secretary of the Board of Education stated that a meeting has been called for this evening when the whole matter will be taken up.

MADE POWERFUL APPEAL

FOR EFFECTIVE APPLICATION OF CHRIST'S TEACHINGS.

Bishop Bidwell Says This is the Spiritual Objective of the Forward Movement of the Church.

Bishop Bidwell was the preacher at St. George's Cathedral on Sunday evening and his sermon was a powerful appeal for the most effective application of Christ's teachings in the practical affairs of the daily life of the Christian. He declared that this was the spiritual objective in the Forward Movement of the church. Speaking from St. Luke xii, 23, "He that is not with me is against me, and he that gathereth not with me scattereth," he showed that Christ demanded a full and complete surrender of those who professed to be his followers, and in the early church it was so. In the history of Christianity we find it growing side by side with civilization. The world accepted it up to a certain point, but discipleship has never been understood as it should be. The moment it was divorced from the world, worldly affairs as being evil, in which self-preservation was the strongest motive, making Christ's teaching paradoxical. We have kept our religion and our daily life apart. Religion should supply the vital nucleus of life, and in the opportunity to apply it by approaching all the difficulties of life first and foremost as Christians.

Referring to criticisms of the financial part of the Forward Movement, of advertisement and propaganda, he said: "What are we doing, not the same charge directed against our Lord? We have done them to show what we believe the world to be. Too long have we thought there was a gulf between the material and spiritual. But there is not such a gulf. We cannot separate the two things. It follows a man wherever he is, into his office, or workshop. Christ's appeal in the text was directed to the individual. We must become better disciples if we are going to convince the world at large. But what of Kingston? What are we doing, not to bring Kingston to Christ? How much of the spirit of Christ are we showing in our lives? This was the question presented to the church—it was the whole matter, and there was no place for narrow-mindedness or hesitating uncertainty. We must not wait for the dim and distant future, but by consecrated effort endeavor now to bring all the activities of life under His sway.

Winter Hangs On.

There has been thirteen weeks of straight winter. Or the "straightest" ever known to any resident in these parts; not a rainfall, not a thaw, and nine weeks of a snow-covered earth; also zero as the prevailing record of the thermometer; and still going strong. When the thaw comes the city streets may be full of holes and ruts in the frozen snow.

Spring is not dated in the calendar until March 21st, three weeks away. But winter set in three weeks ahead of the almanac. What is it to be from now on? Like the high cost of living, is it too, to hold on?

On Feb. 23rd, Elizabeth Plews, wife of the late Thomas Hurlburt, died at her residence, Picton, after a short illness. The deceased, seventy-six years of age, was a native of North Marysburgh.

At Edmonton, one of the pioneer missionaries of the west, Rev. Julien Moulin, O.M.I., is dead. Remember "The Rose Maiden," by Queen's Choral Society, this evening.

Thirteen million meals

OR to be exact, 12,806,943 meals were supplied by the 282 Social Institutions of a single organization in a year.

MOST of them were paid for—Sometimes only the few cents the applicant could afford—but a very great number—millions in fact—were free to men and women in actual want.

YOU may not know what it is to be hungry—perhaps you never will. But if you, or anybody belonging to you, were ever "up against it" you will appreciate to the full this side-light on the Social Service Work of the Salvation Army.
