QUEEN'S JUNIORS WINNERS

DEFEAT THE VARSITY TEAM BY 7 GOALS TO 5.

In the first of the Intercollegiate Finals—The Return Game Will be Played in Toronto.

In the first game of the finals of the Junior Intercollegiate hockey series played at the covered rink on Wednesday evening, Queen's won from Varsity by a score of 7 to 5. The first period stood 2 to 2 and the second 5 to 3 for Queen's. The return game will be played in Toronto. Queen's team played their best game of the season, both on defense and attack. Swartman and Smith starred for the winners, while Armstrong played wonderful hockey for Varsity. Armstrong showed himself to be real game. Although knocked out a couple of times while working his way in around Queen's nets, he continued to stay with the play. Smith, the right defence of the Queen's team, is certainly a "comer." His rushes were sensational, and he showed ability to get through the Varsity defence.

With a little more care in shooting, on the part of Queen's, the score would have been greater. Swartman was always on the job and was ready to take the passes. Richardson, Hamill and Gibson played a steady game. McNeil in goal made many sensational stops.

The Varsity team, although beaten last night, are not yet out. During the last period they scored a couple of hard-earned goals.

In the first period Gibson scored from a neat shot and Richardson registered after a pass from Hamill. Gray and Walters counted for Varsity. The second period showed Queen's having the better of the play. Bracken and Swartman both registered after a pass from Smith. Smith made the fifth score after a full length rush. Armstrong made the third score for Varsity.

The third period had hardly opened when Smith came down twice at a terrific rate and made the net ring. Smith and Swartman rushed, and Swartman made the seventh and last score for Queen's. The Queen's players started to ease up with the result that Varsity made two more goals, Gray and Walters doing the stunts.

The teams were:

Queen's	Varsity
McNeil	Goal
Hamill	Defence
Richardson	Centre
Swartman	R. Wing
Gibson	L. Wing
Simpson	Spare
Bracken	Referee—Ruby Millan.

Carpentier to Marry.
Georges Carpentier, Europe's heavyweight champion, will be married on March 13th. It is announced. The prospective bride is a seventeen-year-old blonde beauty, whose identity, however, is kept a profound secret. It is said she is not a society girl, but hails from the country.

Immediately after the marriage the couple will sail for America in their honeymoon. There is an unconfirmed report that Carpatier has decided to give up the ring forever owing to the positive aversion of his bride-to-be to his taking part in professional bouts. He is said to intend going into the "movies" on a large scale.

Golfer Lyon Better.
Golfing friends throughout the Dominion will be delighted to hear that George S. Lyon has almost completely recovered from the fracture he sustained in his right arm last autumn. He has lately been curling again with the greatest vim and was on the Toronto rink recently which completely outplayed Guelph Royal City and lifted the Carey Cup, which had been successfully defended by Guelph in the last five games. The indications now are that the champion of the Seniors will not feel any ill effects from his accident when he steps on the tee again in a few weeks now.

At Dillon, Col., Anders Haugen broke the world's skiing record, made by himself, jumping 214 feet. His previous record was 213 feet. Henry Hall, of Denver, was second in the tournament, jumping 201 feet.

DEMPSEY EXPECTS A HARD CONTEST

London Tit Bits contains an article penned by no less a person than Jack Dempsey, the heavyweight champion, in which he discusses his chances with Carpentier. This is what Dempsey writes:

"I am looking forward to my meeting with Carpentier. So much has been written and said of him that he must be a very remarkable young fellow."

"We are about the same age and come from much the same kind of people. Look for the Frenchman to give me a tough fight. I shall see to it that I am ready to the minute, for I believe that no man in the world can reach my chin with sufficient force to knock me out, and I am just as confident that I can plant my blows just where I please."

"Carpentier uses his head and takes advantage of the first opening several other countries are expected to compete when the contest is held in this country next summer."

NOW FOUR NATIONS IN BALLOON RACES

Challenges for the international balloon trophy, now held by the Aero Club of America, were received in New York from the Aero Club of France, which enters three teams, and the Royal Aero Club of England, which has one entry. Three teams will be entered by the United States. Belgium has entered one team, and several other countries are expected to compete when the contest is held in this country next summer.

The trophy has not been contested for since 1913, when it was won by the Aero Club of America. The trophy, donated by the late James Gordon Bennett, must be won three times in succession to become the permanent property of a club.

BELLEVILLE COMPANY PLANS NEW RINK

Belleville is assured of a new up-to-date skating rink, says Ernest P. Frederick. The plan is to have a rink as the home of a real hockey team. The proposed rink is to be 125 by 200 feet. Already \$10,000 has been subscribed. The purpose is to provide accommodation for from three thousand to four thousand people. Mr. Frederick favors the installation of an artificial ice plant.

The rink will be an all-year-round structure, for use for assemblies, musical festivals and other gatherings, when the hockey season is over. It is proposed to have as many citizens as possible take an interest in the project. A company is to be formed, known as the Belleville Amusement Company, Ltd., to carry on the scheme.

WILLARD WAS FOULED SAY ENGLISHMEN

If the Jess Willard-Jack Dempsey bout had been held in England, Dempsey would have been disqualified for fouling, according to English boxing critics after viewing the films of the Toledo battle. One prominent English sports writer declares that Willard was fouled, not once but several times, and that an English referee would have disqualified Dempsey long before the battle had proceeded as far as it did.

Where Dempsey offended, according to English eyes, was in striking Willard before he had fully regained his feet after being knocked down. Three times in the first round Dempsey struck Willard before he had a leg at right angles, according to the English critics.

AMERICAN GOLF PROS. NOT PROFICIENT SAY, SCOTTISH BRETHREN

Sport Notes.
England has denied the request of the United States for a change in the Olympic tennis dates. The Americans may not compete.

Weston Golf and Country Club have bought 300 acres adjoining their present property, and will have a new course and clubhouse.

The Pacific Coast League wants the Stanley Cup games played in the west. The N.H.L. may decide to adhere to the original arrangement, with the probable result that the series will be abandoned this year.

BRITAIN'S PART IN THE OLYMPIC GAMES

An interesting statement as to the views and aims of the newly-formed British Olympic Council, particularly with regard to the forthcoming Olympic Games at Antwerp, was given by Lord Downham, chairman of the council, to a representative of the "Daily Chronicle" on Saturday.

"What is so much wanted in this country," he said, "is to develop the opportunities of every man and woman for taking part in sport on really sound lines. We hope the efforts to be put forth in connection with the August games will be only the beginning of a movement for enormously increasing the facilities for games for everybody."

"But it is necessary to get some large central body animated by a sound sense of the importance of games, and this is what we hope the Olympic Council will be. It should, however, be clearly understood that the council will not interfere in any way with the existing governing body of any sport."

"The complaint that our aim is to turn our athletes into paid gladiators is not true. No man taking part in the games can be a professional, but it is essential that men should not be debilitated from the necessary training by lack of means. The assistance we give will be limited to grants enabling promising men to travel to centres where they can obtain the best conditions and expert advice."

Questioned as to his view of the British chances at the games, Lord Downham replied that it was very difficult to make a forecast. "The cream of our national athletes were killed in the war," he said, "and we have little time in which to make good their loss. Nevertheless it is for us to do our best."

BREAKING RECORDS THIS GIRL'S HOBBY

Miss Ethelda Bleibtrey, of the Women's Swimming Association, established a new A.A.U. record for the 150-yard backstroke swim at the meet at the People's Palace in Jersey City. She covered the distance in 2:10 1-5, clipping 7 1-5 seconds from the mark set by Miss Ruth Smith when she won the championship at Pittsburgh last year.

The 150-yard backstroke swim was not on the programme of events, and this record was established by Miss Bleibtrey after she had won the 100 yards backstroke. Having made a good start and finished the 100 yards in 1:26 1-5, she continued for another 50 yards alone, with the object of lowering the mark.

Olympic Ice Hockey Rules.

James G. Merrick has received the rules and regulations governing ice hockey at the Olympic games at Antwerp, Belgium, this spring. Canada has decided to send its Allan Cup winner intact to represent this country. The rules of play are adapted from the O.H.A. rules in vogue here, except that the teams are seven men and no substitutes are allowed, and the game is of two twenty-minute halves.

When Appetite Fails And Health Declines Follow This Suggestion

REQUIRES ONLY A COUPLE OF SMALL TABLETS AFTER MEALS TO FIX YOU UP AGAIN

A New Blood-Food Called Ferrozone Sure to Restore You Quickly.

Every day comes the good news of wonderful cures with Ferrozone. In Petersburg it worked marvels for Louis Meehan—put him right on his feet—made him entirely well.

"About three years ago," says Mr. Meehan, "I had the Grippe which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things and had a craving for acid. I gave up treating with the doctors because they did not help me and on the advice of a friend used Ferrozone. It not only cured me of Dyspepsia and Biliousness, but has built up my strength to what it was before I had the Grippe. I can recommend Ferrozone as an ideal restorative."

Ferozzone gives you force, energy, vim. It strengthens the stomach, cures indigestion, prevents headaches—guarantees good health.

Thousands use Ferrozone—they all feel better; try it yourself—sold in 50c boxes, six for \$2.50, at all dealers.
