## STORY FALSE, SAYS

## Mrs. H. Wallace Wins Suit From G.T.R. for Death of Son Clifford.

Belleville, May 5 .- The case of Mrs. Harvey Wallace, of Gilead, vs. G.T.R. for damages for the loss of the life of her son, Clifford Wallace, at the Corbyville crossing of the G.T.R. on Dec. 20th, 1919, was tried Tuesday, and went to the assize jury at noon. The jury brought in a verdict in favor of the plaintiff awarding \$2,500 damages. Mrs. Wallace sued as administratrix of the estate of the deceased under a will made while on active service.

It will be remembered that Clifford Wallace and a brother were driving in a covered vehicle to Belleville when they were struck by train southbound. Clifford died of a fracture of the skull in the hospital but the brother rapidly recovered from his injuries.

necessary to enable the Empire steel trade to compete with the U.S.

Biggest in World. Mr. Bristol went on to say that experts had reported that the company could not compete with the United States steel without an outlay of 25 millions, and this was now to be pro-

the world. "Business is like war; you have to have combinations to fight big com-

vided. The projected industry

would be the biggest of the kind in

binations." Dr. Clark entered into an argument to show that the creation of this or TUL other mergers was possible only "by the operation of the protective tariff."

He went on to say that the United States Steel Corporation made millionaires, while its employees worked twelve hours a day. He added: "We are increasing the cost of iron and steel to Canadians, for the benefit of British connections. If you make steel dearer, you increase the difficulty of building railways; producing agricultural machinery, and generally you restrict its population and wealth. The only way to handle it is

to get rid of protection.' E. W. Nesbitt argued in favor of mergers, but urged that the Gov- International Time Bureau is being ernment should see there is no formed in Brussels, which intends to

The Duchess is a great favorite of King Alfonso, but in case he fails to secure the coveted permission she intends to go to Lisbon personally and plead with the Republican regime.

## HAS LOST EFFICIENCY

The Submarine Menace is Sure To Be

Overcome. London, May 5 .- Submarines have lost two-thirds of their efficiency since 1914, according to Lieutenan W. S. King-Hall, R. N., in a recen address at the Royal United Service Institute on "The Submarine And Future Naval Warfare.'

The speaker maintained that the advantage previously possessed by the submarine was steadily on the wane. Whereas, at the beginning of the war in 1914 it was as 9 to 1 against the surface ship, it was only 7 to 3 in 1919 and was likely to be only 6 to 7 in 1930. He was of the opinion that within the next few Austria as ambassador to the United recourse would then be had to exist- capitalist also described the merger years there would be a great deve- the owner from the labor of gatherparatus which would give large and impulse is so predominant that I important ships a certain measure of have refrained from planting anyprotection against tactical attack by thing for the past twenty years. Railway and Sea Catastrophies May Be Averted. During War Eiffel Tower Sent Out Daily Signals to

DISTRIBUTE EXPENSES.

Whole World. Paris, May 5 .- Wireless telegraphy may yet prove to be the means of preventing many railway and sea catastrophes. To this end, in fact, an develop . methods . of transmitting

throughout the world time signals of The bureau is in charge of M. Bigourdin, member of the French Academy of Sciences, who for many years has been attached to the Paris obser-IN LISBON VAULT vatory. Discussing the aims of this new organization, Mr. Bigourdin has called attention to the fact that all through the war the Eiffel tower sent

daily signals that were picked up in the remost quarters of the globe. "It is essential that navigators cise knowledge of the time, the sun's centuries-old vaults of the Bragan- location and the consequent geographical position ships will more easily

avoid dangerous areas." M. Bigourdin is confident that many sea accidents have been due to the impossiblity of ships picking up accurate time signals. He points out also the necessity for the most reliable records for despatching trains in all countries. Further experiments will be conducted with intermittent Hertian waves, approximately 2,600 metres long, to replace

those of shorter length now used. M. Bigourdin, whose investigations are receiving support in all Allied countries, hopes to create a system whereby the expenses will be distributed among all nations, for it is obvious that once the signals begin to work there is nothing to prevent any mariner from taking advantage of an organization in which French scientists are taking an important part in

putting into operation. Has a Cemetery to Fill. Washington, May 5 .- In returning his agricultural statistics schedule to the U.S. Census Bureau, a Pennsylvania farmer made no mention of crops. When the bureau inquired, he gave

this explanation: "The population near and about my farm has a tendency to relieve just now turning about forty acres

Not Good Eating. Paris, May 5 .- A music hall favorite ate roast lion for her luncheon here recently at a social gathering at Marguerry. The dish was introduced between frogs and snalls but, according to an epicure who attended. Hon filet will never become popular. The animal, a young lioness, known as mascot in a local menagerie, was accidentally killed by her trainer. The meat was said to be "tasteless and stringy."
