# **NEW RECORD IS**

Nearly 75,000 Bottles Sold In Toronto Alone-Hundreds Testify to Merits.

Remarkable though it may seem, of Tanlac have been sold and distributed in Toronto in less than three years, and the wonderful demand continues unabated. And what is true of Toronto is likewise true of the entire province of Ontario.

In one day alone recently in Toronto, two hundred and eighty well-known people, by actual count, called at Tamblyn's drug store to obtain the medicine and to tell of the benefits they have derived from its use. Among the number was John McElroy, of 39 Jarvis street,

Toronto. In relating his experience with the medicine Mr. McElroy said:
"For several years I suffered with indigestion and a disordered liver, as a result of which I had frequent bilious attacks and headaches. When these attacks came on, my eyes would get red and swollen and my tongue all white. I would have a dull, heavy feeling and lacked all ambition to do things. My sleep at night was spoiled by restlessness and I always got up in the mornings feeling tired out.

"It wasn't until I tried Tanlac that I found anything to help me. I had tried many other medicines but they never semed to suit my case. But Tanlac put me into good shape in a very short while. He appetite picked up so fast that I am hungry nearly all the time. I found the tablets of great benefit in regulating my liver,... and I never have biliousness or headache now. I sleep well at night and have got twice the life and energy that I used to have. I have found Tanlac to be a splendid medicine and I'm satisfied that it's the very best thing for troubles like I had."

Tanlac is sold in Kingston by A.

P. Chown and by the leading drug-

dista in every town. -Advt.

FRANCIS ROLT-WHEELER It takes a high-power boy, without any streak of yellow in him, to tackle the job of bird's nest photography. Of course, the old business of collecting nests and birds' eggs is out of date, no

fic purposes. There are quite a lot of birds who have been photographed on their nests, but these are generally ground-dwelling or bush-dwelling

Take a compartively easy one, first, such as a crow's nest. Have you ever figured what a job it would be to find one so situated that you could build a permanent blind on a tree near by,

with a camera focussed and fixed so as to bear on the nest? Then, to have a long piece of fish-line running all the way down the tree to a blind on the ground, so that you could make the exposure at exactly the same minute, every day, for a month? Then, to climb the tree, after dark, when the crows were asleep, to change the plate or roll to a fresh film? That's a whole Spring's work. But if you did it, the record would be valuable to science, and, incidentally, worth a pot of

yurs trooly,

Nobody's Dog. Have you feasted to-day, old fellow? Had a sniff of some meat or a bone? Were you generously fed upon gravy and bread. By some one who called you his own?

Your ribs, sir! How plainly they're Your legs seem uncertain and weak! Have you searched every street for a morsel to eat? Are you just a town dog, sir? Come,

Has any one patted your head, sir, Or noted your great, sunken eye? Have your unkempt ears heard any kind, gentleword From some human friend passing by. Or have folks just kicked you aside,

Have they struck you so much that you quake at my touch And cower at sight of my hands?

It's the way of the world, poor old Just a struggle for bread or a bone. And some of us know how you feel when you go To your bed in the alley, alone!

"Well, look here, Gordon, I really can design. Father's birthday's only a month away. Do you suppose, if I designed a real pergola, with hanging baskets for those drooping creepers of his, you could make it? I believe you could, now I've seen how beautifully you've done this."
