**FOOLISH TO TRY TO REMOVE FRECKLES.**  
Freckles can be removed, but, as the Journal of the American Medical Association says, "the effect is only temporary at best, and usually not worth the irritation and effort that it costs."  
The method is to apply solutions of mercuric chloride in a strength of from 0.5 to 1 per cent, strictly under medical supervision, for if one tries to do it oneself he is likely to make a nasty mess of her face. These solutions produce an inflammation of the skin which ends in the outer skin peeling off, bringing the freckles with it.  
The Journal of the American Medical Association says that the prescription written by Hebra, and recommended particularly for the removal of freckles, will not do the trick.  
"We women let their freckles alone."  
Infection Flying in Air.  
Dr. J. Tenet, of Paris, who studied the epidemics of influenza in Russia in 1890 and in France in 1918, asserts that some special conditions suddenly increased the virulence of an ordinary germ and thus opened the doors to secondary infections.  
A quiet wedding took place at Galt, on April 28th, when Miss Marjorie B. Rutan, daughter of Mrs. J. Rutan, Napawa, became the bride of Lawrence W. Massel, son of Joseph Massel, Preston.

**He Knew His People.**  
An old dandy minister announced that he had invented an automatic collection basket, which would be passed around by the deacons of his church. "It is so arranged, my brethren," said he, "that if you drop a quatr or half-dollar it falls noiselessly on a red plush cushion; if you drop in a nickel it will ring a bell that can distinctly be heard by the church congregation; but if you let fall a button, my brethren, it will dash off a pistol."  
At the Brockville General hospital on Friday occurred the death of Mrs. Alexander Morey, resident of Brockville for many years. She had been in ill health for over two years.
