**200 Windsorites Seek Divorce.**

Windsor, May 19.—At least two hundred applicants are on lists of local barristers awaiting action on the bill now pending before Parliament which will give Ontario the right to grant divorces in her own courts, as well as cut the cost from \$1,000 to \$100. One lawyer during the past two weeks has had twenty applications.

Already divorce proceedings for seven unhappy Windsor pairs have been started in Parliament, notwithstanding the almost prohibitive cost. Three-fourths of the actions are being brought by men, the majority of them war veterans.

Belleville Organist Declines Offer.

Belleville, May 19.—The position of Director of Music and Lecturer in Harmony at New College, an affiliated College of Cambridge University, coupled with that of Organist and Choirmaster of the largest Baptist Church in the city, has been offered to Prof. Ernest Wheatley, organist of St. Thomas' Church, Belleville. Prof. Wheatley will, however, remain here.

Guests of a day never know how a husband and wife really get along together.

True friends are those we feel like kicking because they point out our faults.

**Passed Rich on \$40 a Year.**

Everybody has heard of Goldsmith's country parson who was passing rich on \$40 a year; it is cheering to find that the race of such men, "to all the country dear," has not died out. A Nonconformist minister of Bristol, England, has refused an extra \$50 a year which his congregation wished to thrust upon him. He holds that money does not make happiness, that enough is happiness, and more is a curse. All he requires is to be able to live simply, educate his children, be able to have a very little leisure, and to enjoy very simple pleasures. His income is \$250 a year, and with that he is content. As \$40 a year was to a country parson in the time of Goldsmith, so is \$250 in the twentieth century.

The Label.

As the man and the maid strolled through the picture gallery the woman stopped before an exhibit. "Oh, how green!" she breathed. "Wonder what it means?" questioned the young fellow, as he eyed the pictured pair who clung together in an attitude of love and longing. "Oh, Charlie, don't you see?" the girl chided tenderly. "He has just asked her to marry him and she has consented. It's lovely! What does the artist call the picture?" The young man leaned nearer and eyed a little label on the frame. "I see!" he cried. "It's printed on this card here—'Sold!'"

Killed When Caught by Train.

Odgersburg, N.Y., May 19.—Raymond Burdick, aged forty, was killed Monday when he was caught in the revolving chain which is used in conjunction with the crane of the dredge deepening the local harbor. He was dragged some distance and many bones in his body were broken and his body was badly mangled. He was dead when reached by fellow workers.

### GOSSIP FROM AUSTRALIA.

**Labor Man Has Become Governor of Queensland.**

One by one the great builders of Australia are passing through death into history. Parks, Deakin, Kingston, Barton, each with their work well done are gathered to their well earned rest. There were giants in those days, and the men of to-day recognise the pre-eminent men and moral standards of the bygone leaders. Sir Edmund Barton, who died occurred early in March, has been termed "Australia's Noblest Son." He was a great statesman, one of the founders of the Commonwealth, and latterly a great judge. At his funeral which took place in Sydney, and which was attended by all the most prominent citizens of Australia, there was one pathetic little touch which more than all else seemed to express him place which the dear statesman held in the hearts of the people. Amidst the mass of elaborate floral tributes was one small bunch of violets. It was inscribed "To a Great Man" and was signed "A Citizen."

A sensation has been caused by the appointment of one Lennon, a former Labor Minister and later Speaker of the Queensland Legislative Assembly, to the position of Lieutenant-Governor of the State. Each state in Australia has its own state governor, in addition to the Governor-General. The present Governor of Queensland, Sir H. G. H. Adams, is nearing the end of his term of office, and pending the appointment of a successor a Lieutenant-Governor has to be appointed to carry on. In the past the invariably practice in such cases has been to appoint the Chief Justice, who may be expected to be judicially impartial, to the office. It has remained for Mr. Theodore, the Labor Premier of Queensland, to change the practice and to appoint his late Ministerial colleague, Lennon, to the position. Intense indignation has been caused, not only because Mr. Lennon is essentially a political partisan, pledged to the Labor platform, but because it is alleged that the appointment was endorsed the disloyal utterances of a fellow Minister, Mr. Fihely, who declared that England was the "home of cant, hypocrisy and humbug." It is quite clear that the Colonial Office has been hoodwinked in recommending His Majesty to agree to the appointment the true facts of the case having been withheld. Numerous protests have already been lodged, and it is more than likely that Mr. Lennon's appointment will be rescinded. The Queensland Government is notoriously "Bolshevik" in its tendencies, and the appointment of a man pledged to support its platform as the impartial representative of the King in the state is a standing scandal.

In connection with the coming visit of the Prince of Wales, a prominent prohibition leader has stated his intention of asking the prince to have no alcoholic liquors served at any dinner or reception extended him in Australia. If the prohibitionist has the bad taste to carry out his threat he is likely to get badly snubbed for his pains. If Governors and Governors-General have, from the very nature of the positions they hold, to be careful to avoid the slightest appearance of taking sides on a matter on which there is such a division of opinion, how much more must this be the case with the Prince of Wales? It would be execrable taste to place the young prince in such a position, and the party guilty of the suggestion would not be likely to strengthen its hold over the community.

The actors of Australia are moving heaven and earth to organize a Federation on the lines of similar bodies in America and England with a view to protecting the interests of members of the profession. So far they have met with a great deal of opposition from the Theatrical Managers' Association, in spite of the fact that that body is registered under the Arbitration Court. Two attempts have been made by the Federation to secure registration, but on both occasions it has failed owing to the fact that all grades of the profession, from stage hands upwards, are included in the membership. An interesting phase of the position is that many of the leading artists at present in the country, including many visiting stars from England and America, are supporting the Federation in its efforts to improve the lot of the small men. Theatrical conditions in the Commonwealth are admittedly good, but they are not so good that they might not be better. A strike of theatrical artists is one of the possibilities of the near future unless the managers adopt a more conciliatory attitude.

**Why the Chandler Holds Its Leadership**

THE Chandler car has attained and held its place of leadership among all sixes, by steadfast pursuance of worthy policies.

There is but one Chandler car, one Chandler chassis. To that chassis, for seven years, have been devoted the ambitions and the engineering ability and the sincere purposes of its builders.

Featuring this sturdy chassis is the famous Chandler motor, brought to a plane approximating perfection through these years of refinement and development.

Nearly eighty thousand Chandler owners know the excellence of this motor. They know its power, and the flexibility of its power. They know its endurance. They know its economy. They know it affords all the speed that any responsible driver would ever wish or dare to use. They know that on mountain roads it leads the way up.

On this one chassis are mounted six handsome and comfortable types of body, built by America's best body-builders and splendidly finished and cushioned.

**You Will Be Delighted With a Chandler.**

SIX SPLENDID BODY TYPES

Seven-Passenger Touring Car, \$3,500	Four-Passenger Roadster \$2,500

**Either way ends every corn**

Use Blue-jay as you like best. Apply liquid Blue-jay from a bottle, or use the Blue-jay plaster.

The effects on the corn are identical. The pain stops. And the entire corn quickly loosens and comes out.

Blue-jay now is ending some two million corns a month.

It has so reduced corn troubles that most folks never have them.

It will end them all when all folks know about it.

The Blue-jay method is easy, gentle, sure.

It is scientific—the creation of a world-famed laboratory.

For your own sake, stop paring corns. Cease the old, harsh, inefficient methods.

Learn what millions know—that corns are folly, the pain is needless. Anybody can be kept forever free from corns with Blue-jay.

Prove this tonight. Buy Blue-jay from your druggist.
