

Men's Wear

A FAIR EXPLANATION OF CLOTHING MERCHANDISING

When will Clothing prices come down? Why should Clothes cost so much money? One hears these questions every day. Yes, even the newspapers devote much space to these subjects. Various real and fancied explanations are offered, but so far, prices have continued to soar in the face of rumors of large fines, immense stocks, and so called reduction sales in different parts of the country.

Now, a word of present and future clothing costs! Men's Suits placed in stock since January 1st, 1920 cost Roney's \$19.00 to \$47.00 (straight invoice price). We charge up such items as freight, alterations, packing cases, etc., under the head of running expenses. These Suits we sell from \$22.50 to \$55.00. Now with such small percentage of profit, how could a merchant reduce selling prices and continue to make a living? (With over six hundred Men's Suits in stock this firm did not have to change their prices to conform with the ruling of the Board of Commerce!) Sufficient for present day prices, our books are open

to our customers. We wish to state that for the next few months the clothing prices show no signs of decreasing. Men's Garments, Suits, Overcoats, etc., cost 10% to 20% more money for next fall delivery from any factory in Canada! English Suitings cost up to \$13.50 per yard! Canadian Woollens are quoted 20 to 25% higher than this Spring! We have bought our stock of Men's Clothes at \$22.00 to \$55.00 per Suit! Factory costs for making a Suit range from \$15.00 to \$25.00, when we supply the goods! Copies of all our Fall orders are open to any of our customers.

Now in conclusion, we believe Kingston prices are very fair and away below most other cities. This has been a very trying situation, which no individual of single group can combat. Prices will unfortunately remain above pre-war levels for many years to come, and even at present-day quotations the Canadian can buy more with his dollar than any man in the world to-day.

REBUILDING YORK ROAD

FROM CITY LIMITS FOR DISTANCE OF EIGHT MILES.

McGinnis and O'Connor, Contractors, Rushing the Work Along—Traffic Diverted to the Bath Road.

McGinnis and O'Connor, who have the contract to lay the new macadam highway on the York road from the junction of Bath road and Princess streets for a distance of eight miles, are rushing the work along.

On Wednesday when a Whig reporter made a visit to where the work was under way he found that the York road from the junction of the Bath road to the foot of Michael's Hill, or a distance of about two miles, had been closed to traffic while the work of digging up the road was under way. People are compelled to take the cross road at the foot of the hill and go over to the Bath road. It is rather inconvenient, but they do not mind it when they realize that in the course of a couple of months this piece of road, which has been so filled with holes, will be a part of the great highway between Toronto and Kingston.

The suggestion has been made that some of the holes in the cross road should be filled with gravel. The new highway will have a travelling road of twenty feet made of macadam.

The company realized that the only way to draw the gravel was to get motor trucks, and for that reason they brought a number of Packard trucks from Toronto, and these are now in use on the construction. It is the intention of the company to get more trucks. The gravel, which is being placed on the road, is taken from the quarry about three-quarters of a mile from Westbrooke.

It is very likely that as soon as the contractors finish their work the government will have an asphalt finishing surface placed on top of the macadam base.

SEEDING IS WELL DONE.
Farmers Waiting For Rain—Hard to Get Help.

Farmers throughout the district report that they have been able to get nearly all their seed in the ground. On Wednesday when a Whig representative visited certain sections he found the farmers busy finishing putting in seed grain and in some cases putting in potatoes.

NEW MEMBERS RECEIVED

At a Meeting of the Girl Guide Corps Held on Wednesday.

The Girl Guide Corps of the Collegiate Institute held a meeting on Wednesday afternoon for the purpose of receiving new members and having them sworn in. Upwards of thirty new members were enrolled. Two new captains were appointed, Misses Doris McClelland and Bertha Bassam. After the oaths had been taken, Mrs. Siler addressed the girls. Inspector Rogers, who was to have addressed the members, was called away, but expressed his regrets at being unable to be present, and expressed great pleasure over the organizing of a corps at the collegiate.

Rev. J. W. Stephen gave the girls a most helpful talk, and Miss Charlotte Dick rendered an excellent solo.

FRONTENAC CHEESE BOARD.

Sales Made at the Meeting Held Thursday Afternoon.

Cheese sold at 28 1/2 cents at the meeting of the Frontenac Cheese Board on Thursday. At this price J. R. Forster almost cleared the board. The entire offering amounted to 534 boxes, and at the price mentioned Mr. Forster secured 494 boxes, the offering of all the factories boarded with the exception of Glenvale. The Glenvale salesman refused to sell, stating that he believed he could get a higher price on the board at Napanee.

The following factories boarded:
White—Howe Island, 60.
Ariagan, 25; Glenburnie, 35; Keenan's, 30; Latimer, 30; Model, 60; Ontario, 42; St. Lawrence, 50; Silver Springs, 32; Wolfe Island, 35; Sunbury, 35; Glenvale, 40; Cold Springs, 60.

Shortage of Soft Coal.
There is a shortage of soft coal in the city, so much so that a steamer which arrived in port on Wednesday could not clear for Oswego until Thursday.

Eggs Up in Price.
On Thursday morning the price of eggs on the market was higher than usual. The prevailing price was from 55 to 60 cents. There were a large number of Islanders on the market.

HAD ECZEMA For Over 28 Years

Ecema or Salt Rheum manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust is formed and the intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat is almost unbearable.

The success which Burdock Blood Bitters has met with in skin diseases of such severity is due to its wonderful blood cleansing and purifying properties, and we know of no other remedy that has done or can do so much for those who are almost driven to distraction with the terrible torture.

Mr. James Walker, 165 Niagara St., Hamilton, Ont., writes:—"I have been using Burdock Blood Bitters for some months past, and find it an excellent remedy for skin eruptions. I have suffered with eczema for over 28 years, and have tried almost everything you could think of. I was recommended to use Burdock Blood Bitters, and I am now clear of my skin trouble. It is certainly a good remedy and I shall recommend it to all my friends."
