# DREAD PYORRHEA **BEGINS WITH BLEEDING GUMS**

Pyorrhea's infecting germscause many ills. Medical science has proven this. Diseased conditions, which not long ago doctors were unable : trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism,

anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty begins with tender people over forty, begins with tender and bleeding gums; then the gums re-cede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

CAUSED BY HEAT Conductor to Carry Him to Montreal When Home Was Brockville.

Brockville Times-Recorder Temporarily deprived of his memory as a result of exposure to the hot suns of Arizona, Uriah Beeman, aged 67, 268 Bartholomew street, a lifelong resident of this locality and a citizen of the town for the last few years, refused to be convinced that Brockville was his home when he arrived here yesterday afternoon and only when he recognized familiar faces at his residence admitted his

identity. Mr. Beeman, who was born in the first at Burritt's Rapids and later, for a long period, at Algonquin, left in January last for Temple. Arizona, to visit his daughter, Mrs. Amanda Dobson. When he left Temple a few days since on his return he was apparently in full retention of his nemory and successfully negotiated a number of transfers from one train to another en route. When, however, the conductor of Grand Trunk train No. 14, the Chicago flier, informed him yesterday afternoon that Breckville was where he left the train, he remonstrated, declaring that he did not know where Brockille was and asking to be carried

on to Montreal. He even offered

to pay his additional fare to Mont-Noticing the predicament of the elderly man, Grand Trunk detective Burritt's Rapids. William Haslem, who was on duty at the Union Station at the time, investigated and with the assistance of Depot Ticket Agent A. E. Parker, discovered his identity from papers in his possession. They finally persuaded Mr. Beeman that he resided in Brockville and that there was no object in him continuing his journey After first questioning them as to whether or not he was back in Canada and expressing joy at being answered in the affirmative, Mr. Beeman undertook to show Detective Haslam where he resided. He first took him to an address on William street where he had once lived and later guided the detective to the Bank of Montreal, where his son had been employed. Finally, after a circuitous journey, the Bartholomew street house was reached and then. with the sight of familiar faces and surroundings came an awakening.

Mr. Beeman's relatives were unap-

prised of his impending return and

were much pleased with the efforts put forth in his behalf by the rail-

way officials. Mr. Beeman himself

was at loss to account for his tem-

porary lapse of memory and can only attribute it to the warm climate through which he passed pursuing he Southern Pacific route homeward

## Orphans' Home School

The pupils of the O.H. school held their usual Empire Day celebration on Friday afternoon. This was not attended as well as usual, but those present expressed their appreciation of the programme of songs and recitations prepared by the children, and also listened with interest and at-

tention to the very able address given by the Rev. Mr. Kidd, of St. George's Cathedral, and to that by W. A. Sawyer, member of the Board of Education, who acted as chairman on this occasion, and spoke to the children in a few words, expressing his interest in their work, etc. The programme closed in the usual manner by the singing of God Save the King.

### **DEPOT SCHOOL.**

The pupils of the Depot School, celebrated Empire day, with patriotic songs, recitations and drills, in the presence of a number of visitors. When Mr. Best, chairman of the school, came to conduct the Empire day exercises, he brought a baseball, bat and glove for the boys, and two a little more tightly as you shape it bats and a ball for the girls. The pupils appreciate these gifts.

## THE OFFICE BOY'S CORNER

Izn't it funny how many fellers gets the idea that the boss is only a big boob and a grouch. Tother day one of our fresh guy cub reporters got a calling down for fakin' a story instead of gettin' the straite goods, and he sure was a sore boy when the boss was done with him. Being only an offis boy, I was tickled to see someone else getting it in the neck, specially as this feller was always trying to get me to run around for him. But he turned round when the boss went out, and he made the air look blue with the things he sed.

Now I ain't trying to stick up for the boss or nuthin, but it don't seem hardly fair to me. Of course, the boss has many failings. Still, we should give him credit for trying to do his best. Isn't he the feller that hires you. You may know it all, and be runnin' the whole show, akkording to your own idea, but he is the guy that has to cough up the greenbacks on pay day. And besides, he's the only guy that can raise your pay. One of our nifty little stenogs was all tickled t'other week when the boss boosted her pay envelop two bucks a week. That's what the boss can do when a feller keeps on the job an' does his

work square. I know my boss is a good guy when you gets to know him, bekause only last Christmas he slipped me a fivespot, even although I had got a bunch of copy all mixed up after the proof reading queen had given it the O.K .. and the result was that weddings and murders and deaths and motor kars got all mixed up in the paper. So you see, it pays to keep in right with the boss, and to feel kind of friendly towards him. So keep on licking stamps and quit knocking bekause your boss gets mad once in a while. Maybe he has a sore tooth or a corn or sumthing, or maybe his wife has beat it with the movie writer. You never can tell.

The beauty of the C. C. M. is more than surface deep. There are three coats of brilliant, waterproof enamel over a coat of anti-rust. That means an enamel that will stand wear and weather.

The smooth, highly-polished nickelling is over rust-proof copper. That's why C. C. M. nickelling retains its bright appearance and wears so long.

You don't always spin along smooth pavements. Sometimes you have to bump over ruts and cobble stones. So the C. C. M. frame has the long, strong "Fishmouth" reinforcement at the joints. This makes a powerful frame with a large margin of safety.
