When You Travel, Even in Canada

carry your funds in Travellers' Cheques, issued by The Merchants Bank. Personal cheques are often refused. Money may be lost or stolen. Travellers' Cheques, on the other hand, are cashed by banks, hotels, transportation companies and stores at their face value, and enable you to raise ready money wherever you happen to be. If lost, they are of no value to the finder; if stolen or destroyed, they will be replaced without extra charge. Use them for your next journey.

THE SAWYER SHOE STORE

We regret that our misfortune, in having such a disastrous fire, has caused some inconvenience to our customers. The work of reconstruction is being pushed, however, and we expect to have our repair shop back to its old state of efficiency in a very few days. Our battery department has been taken over by a most reliable man, so that we now feel that we can give you any line of service which is second to none.

The Family Smoke

OLD CHUM is a family friend. Grandfathers, Fathers and Sons have been smoking it for years and years.

During this half century, "OLD CHUM" has grown steadily in popularity and favour.

Every pipe smoker appreciates "OLD CHUM" quality—the choice Virginia Flake Cut tobacco—chosen by experts—stored away until the perfect tobacco taste and mellow flavour are fully developed.

It is this dependable, constant quality, maintained for years, which has made "OLD CHUM" the chum of all pipe smokers in Canada.

OLD CHUM

Canada's favorite Pipe Tobacco.

The Rise of Maxwell is Due To Its Metals

Fine soil makes fine wheat; fine feathers make a fine bird; and fine metals have made the Maxwell. They have given it:

1—A life of 100,000 miles. 2—Thriftiness.

For its metals are light in weight. Therein comes thriftiness.

But these metals are of extra strength. Therein comes long life.

Metallurgists—those who have made the study of metals a science—will tell you that such metals are costly, but they guarantee quality in a car and their generous employment in a Maxwell is by far the best evidence anyone may need to determine its quality.

They are almost alone responsible for the rapid rise of Maxwell, for the fact that nearly 400,000 now have been built, for that ever-growing friendliness to Maxwell the world over.
