OPENING OF COUNTY COURT
GRAND JURY FINDS "TRUE BILL" IN THREE CASES.
 Judge Madden presiding at sittings, which opened on Tuesday afternoon—Kingston Township Neighbor Farmers Go to Law Over a Bull.
 Judge Madden is presiding at the sittings of the county court, which opened at two o'clock on Tuesday afternoon. In addition to three criminal cases, there is one jury and five non-jury cases on the docket. Judge Madden addressed the members of the grand jury briefly, after the opening of the court, and asked for a report on the three cases to be given during the afternoon, if possible, so that the crown could proceed with the criminal cases on Wednesday morning.

UNION WITH CANADA.
 West Indies Grow Anxious for Closer Relations.
 The visit of Mr. Frank H. Keefer, the Parliamentary Secretary for External Affairs of the Canadian Government, has necessarily given some impetus to the consideration of our eventual relations with the Dominion, says the Daily Argosy of Georgetown, Demerara. Mr. Keefer was only in British Guiana for a few days and, although his visit was an unofficial one, he made it quite clear that he was entirely in favor of a commercial union between this country and Canada. The impression he made was a singularly good one and his utterance on the subject were so logical and so well supported by facts that he confirmed to a considerable degree the conviction already extensively held that such a union would be of mutual advantage. This is one of the questions which he will hear discussed at the conference of the Associated Chambers of Commerce and Industry, which will be held in Kingston on the 15th and 16th inst. The conference will pass on the project which will be sufficiently unanimous to give an unmistakable mandate to both Government and people to formulate a scheme for its consummation. The deliberations of the conference in this respect will be watched with the greatest sympathy by the people of the West Indies who are daily burdened by severe economic disabilities. So far as British Guiana is concerned, it is fairly obvious that our geographical position and local circumstances make some form of union advisable. Our exports are few and special, our imports are varied and comprise practically all the necessities of life. It is vital to our interests that we should secure a safe market for our exports to maintain the colony's trade. One of the best methods of securing this is by a system of Imperial preference and it is heartening to notice that is the opinion of Lieut-Col. Amery, the Under-Secretary of State for the Colonies, that the British Government will not readily forsake this principle. But preference naturally involves mutual obligations and if we are to sell in a British market we must buy in a British market. If British ships are to carry our products to British ports, the same ships must come back to us loaded with commodities of British origin. That is the gospel of Empire and the gospel to which we have all subscribed. It has special force as between British Guiana, Canada, and the United States. The latter has a southern zone and a tropical zone and can thus supply almost completely its own wants, especially since its acquisition of Porto Rico. Canada produces only northern products, British Guiana only tropical products. Our exports are in fact dissimilar, but complementary and, being both of the Empire, it would seem the natural consequence that we should be close customers. But what are the actual facts? For every dollar's worth of goods the United States purchases from British Guiana, Guiana exports to the United States to the value of \$7.27. For every dollar's worth Canada purchases from British Guiana, Guiana purchases from Canada to the value of \$1.00. Our credit, Canadian credit, and British credit in New York is depreciated and in the case of this colony, to the enormous extent of forty per cent. So long as we are obliged to purchase from America, we are committing in leveling up the cost of living and delaying our own restoration of a normal condition of trade. America protects herself and her markets by a high tariff wall. Why should not we secure our interests and reduce the cost of living by a mutual preference? There is little doubt that the opinion of the people of the West Indies is overwhelmingly in favor of a commercial alliance, and we trust that the two Governments, in conjunction with the Colonial Office, will proceed at once to give effect to our wishes. The question of political union has not, perhaps, been so thoroughly considered, but it is one which must be kept in mind. Situated as we are, there is always the circumstantial possibility of American political aggression, and however strenuous may be the disclaimers from Washington, there is sufficient prima facie evidence to keep us on our guard. In Jamaica, for instance, there has been a very conspicuous wave of pro-American enthusiasm and this is, we must presume, the result of propaganda rather than of any spontaneous conviction of an hitherto loyal people. While we welcome American trade and enterprise in the West Indies where such is of advantage to us, we must say in all candor that we do so in an absolutely selfish spirit and with the reservation that such trade shall not prejudice the political or commercial interests of the Empire. As a result of our participation in the war and America's participation in the war—the terms being relative—the United States now occupies a dominant financial position and she is exploiting that position to the last cent. We are paying the piper and we must strive to adjust the level of credits. America is, in fact, a dangerous rival of British interests in the West Indies and we have to marshal our forces to meet her. Canada can be of assistance both commercially and politically. She is an established power on this side of the Atlantic and she can afford us protection against any manoeuvring of American capitalists which may be inspired by ulterior political motives. Canada can, and is prepared to, give a closer supervision to our affairs than ever the Colonial Office, by reason of its heterogeneous composition of its heterogeneous population has been able to do. The principle of devotion within the Empire has received the support of various colonial authorities and, in the event of any subdivision of Imperial administration, the community of commercial and political interests immediately points to the Dominion as our ideal protector. Public opinion has not been developed very extensively on this point, but we are convinced that, if the issue be and attention focussed on it, the feeling of the West Indies will favor a general union with Canada.

You can play the heart songs of yesteryear or modern melodies in your home today. The Old Master.

MAXWELL
 EXTRA FINE IN METALS
 EXTRA FINE IN MILEAGE
 A Maxwell car weighs 2,130 pounds. It is made of the finest materials that may be obtained.
 You cannot find in any car a better crankshaft, better bearings, better axles or better gears.
 Neither science nor money can produce them better.
 Do you know why such fine materials are used in a car like Maxwell?
 We had to.
 Keeping its weight down and yet maintaining strength mean the use of only those extra fine steels and metals.
 For a metal that is light in weight and yet strong, as any user of metal knows, is a high priced metal.
 The use of these fine grades of steel has been the foundation of the business. Maxwell has grown in numbers and friends. The latter countless; the former well on the road to 400,000.
 We invite you to make your critical test of the Maxwell to-day.

BOYCOTT COLORED TROOPS.
 Berlin, June 9.—Members of the railwaymen's union have decided to refuse to work on trains carrying French colored troops across Germany to Poland, according to the Tagliche Rundschau, which states a demand to this effect has been presented to the German government by France.

How Sickly Women May Get Health
 If they could only be made to see that half their ills are caused by impure blood, it wouldn't take long to cure them with Dr. Hamilton's Pills. Truly a wonderful medicine that invigorates, strengthens, renews. Every tired, worn out, woman that tries Dr. Hamilton's Pills will improve rapidly, will have better color, increased appetite and better digestion.
 No better rebuilding tonic can be found than Dr. Hamilton's Pills which are safe, mild and health giving. For forty years Dr. Hamilton's Pills have been America's most valued family medicine, 25c per box at all dealers.

Have a Musical Evening Often
 Plan to have a Musical At-Home as often as you possibly can. The new Edison provides the opportunity. It will render a high-class Concert Program or a joyful rag-time musical evening of Comedy or for an impromptu dance. These happy evenings keep the family at home and cheerful.
 Nothing extra for "luxury tax." The Edison prices were slightly increased, but the amount was absorbed by factory, jobber and dealer, and price to buyer remains the same and terms easy.

Liquid or Plaster
They end corns now in this scientific way
 People who know—millions of them—now end all corns in this way.
 They apply Blue-jay, either in liquid or in plaster form. It means but a touch and takes but a jiffy.
 The corn pain stops. Then the blue-jay gently undermines the corn so it loosens and comes out.
 The modern way.
 Blue-jay was invented by a chemist who studied corns.
 It is made by a laboratory of world-wide repute.
 Old-time treatments were harsh and inefficient. Blue-jay is gentle, quick and sure.
 Now all corns are needless. All these pains can be avoided. To let corns remain while you are pad them is folly.
 You can stop a corn at the moment it appears. You can end a corn completely before it can develop.
 Blue-jay has proved these facts to millions. It will prove them to you—and tonight—if you let it.
 Quit the old methods of dealing with corns and see what this new way means. Your druggist sells Blue-jay.

What You Will Be Tomorrow Depends Upon What You Do For Your Health Today—
 You Must Keep Your Blood Filled With Iron To Stand the Strain of Modern Day Life Says Physician—Explains How
Nuxated Iron Helps Build Red Blood
 Strength and Endurance
 Have you ever stopped to look yourself squarely in the face? Are you getting anywhere?—or just drifting—a little weaker, a little more nervous, a little more run-down every day? Nothing slips away so easily as HEALTH. Unless YOU hold fast to HEALTH by your own efforts—by keeping your blood pure, red and rich in iron—the day may come when all you can do is WISH you had acted sooner. Physicians explain below how to help make rich, red blood and increase strength, power and endurance, through the health-giving, strength-building power of organic iron—Nuxated Iron—which is now being used by over three million people annually.
 "Success is in the blood," says Dr. John Van Horne, formerly Medical Inspector and Clinical Physicist on the Board of Health of the City of New York. "There are men whose fate can never hang down. They triumph over difficulties and ill-fortunes because they have within them the power—pure, red blood, rich in stamina-building iron. Where others hesitate and
 stumble, these men march forward with a firm step and take the best prizes of life. Their brains are keenly alive, their bodies are fortified with the strength and energy that enables them to take head to head with the best of the world as they live. Many a man and woman regrets to keep their blood filled with strength-building iron and as a result they had nervous breakdowns at a time when they should be enjoying their best years. In my opinion, physicians cannot emphasize too strongly the necessity of keeping the blood pure and red with plenty of iron, and I believe they should at every opportunity prescribe organic iron—Nuxated Iron—for in my experience it is one of the best, best and most blood-builders known to medical science."
 Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital, formerly County Hospital, and the Westchester County Hospital, in commenting upon the foregoing statement, says: "Every keen, active, successful man and woman of today recognizes that a sound, strong body is the basis of all real achievement and they have long sought unobtrusively to safeguard their health. Lack of iron in the blood not only
 makes a man a physical and mental weakling, but it utterly robs him of the force that stamina and strength of will which are so necessary to success and power in every walk of life. I strongly advise every man who is engaged out by worry, work and other stressors to build up his strength, energy and endurance by taking some form of organic iron—Nuxated Iron—for I consider it one of the foremost blood-builders, the best to which I have ever had recourse."
 MANUFACTURERS NOTE: Nuxated Iron, which is pure iron, is not a secret remedy but is made from the purest iron ore and is completely safe and does not injure the stomach, or cause constipation. It is made from the purest iron ore and is completely safe and does not injure the stomach, or cause constipation. It is made from the purest iron ore and is completely safe and does not injure the stomach, or cause constipation.
