Rude Stamping Contrivance.
The first stamping contrivance used by the late Finley McEwen, postmaster of Carleton Place, fifty years ago, was a little instrument having Carleton Place in rigid letters round the inside of the rim. Every evil and wasteful habit draws upon our strength and resources without making and proper return. On the other hand, every task faithfully done, every responsibility manfully borne in the path of duty, steadies us, like well-bestowed ballast. There are loads that help as well as loads that hinder. These we should cheerfully take up, and those resolutely cast off.

Friendship rings truest in adversity.
