A woman is the patentee of a bath tub so formed that one end serves as a head rest when a bather reclines or as a seat when a foot bath is taken.

Associated with the magnesite deposits of Manchooria have been discovered deposits of talc containing favorably with the high grade French material.

A New York building engineer has demonstrated that large structures can be safely built at seashore towns by laying concrete foundations directly on the sand without sinking piling.

HELPLESS WITH RHEUMATISM

Unit No. 100 "Fruit & Herbs" The Fruit Medicine

R. R. McLaughlin, Can. "For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried 'Fruit & Herbs'. Before I had used half a box I was improved; the pain was under control. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light housework with ease." **W. L. McLaughlin, Can.**

One box, 6 for \$2.00, trial size 30c. All druggists or sent postpaid by Fruit & Herbs Co., Montreal.

Skin Troubles Soothed With Cuticura

Small Outlets: Toronto, 10c. each. Sold everywhere. Can. Depot: London, Ontario, St. Paul St., Montreal.

FAIRY AND HAIRY

Spring and Summer Headgear is Abloom With Flora.

Straw Hats Soon Cast Aside and Taffeta, Tulle, Ribbon or Satin Win Favor.

Time was when we used to fondly believe the hat of straw denoted spring and summer! Surely no one could make such a sad mistake nowadays. To be sure a few straw hats do begin to appear atop chic heads when snow drifts start to melt beneath the urge of spring. By the time the first pussy willows purr and robins twitter straw hats have been cast aside, however, and confections of taffeta, tulle, ribbon or satin crown the coiffures of the spring and summer maids and matrons.

The hats of hair so frail and airy of weave, abloom with gorgeous flora, are the most appropriate and seasonable summery hats on view, but the majority of the close little turbans of satin, taffeta and ribbon suggest fall and winter quite as much as spring. Feather trimmings, straggly glycerine, ostrich, egrettes and paradisies adorn the spring chapeaux irrespective of the seasons. Flowers do ornament models, but raffia, beads, tassels and ribbons give them a close run for popularity.

Ribbons especially have come into a glorified success, as a hat adornment this season. Entire turbans and brimmed hats are made of narrow ribbons woven together like those paper mats of kindergarten days. Wide brimmed horse hair hats have immense sashes of wider pastel-tinted

Hat of Milan Straw.

satin ribbon tied around their crowns and dropping soft wide ends and loops almost to the waist line. Frayed ribbons offer a novel trimming that promises many smart effects.

Tassels long, heavy and gay bob from almost every form of head covering, but seem most at home from little close, round Chinese hats of straw, silk faced in contrasting tint. Beads of gayly colored wood in shapes quaint and bizarre girdle crowns of tulle amidst a fluff of tulle, for brim and swaying strands of varicolored beads anchored to opposite sides of fan brimmed Cleopatraesque head dresses hang in festive festoons beneath the chin or chins of ladies addicted to the oriental modes.

CHINESE NOTE IN FEW SUITS

Extreme Oriental influence is evidenced in some of the Tailored Garments.

The extreme Chinese influence is evidenced in a few tailored suits. These have trousers of the suit fabric, extending a few inches below the hem of the straight, rather narrow, skirt. In one of these the pony coat had the snug neck, narrow shoulders and tight sleeves featuring so many of the ultra models. The suit was of blue serge and the vestee and the skirts of the coat were ornamented in hand embroidery done in raffia in Bulgarian tones. The dress was repeated at intervals on the bottom of the skirt, directly in the front, at either side and again in the back. Another trouser suit was of tricotine. The skirt was embroidered all over in a deeper shade of blue and in a heavy scroll design. The coat was in Eton effect with plaits in the back and the scroll embroidery repeated on the jacket fronts with jet and jade buttons as a further ornamentation.

SHOULD RINSE CLOTHES WELL

Neglect in Laundering Causes Delicate White Fabrics to Acquire Yellowish Tinge.

If clothes are not rinsed carefully after washing, white fabrics soon will acquire a faint yellowish tinge. This yellow cast is brought out when heat is applied in the form of an iron. The discolor is much like a scorch in appearance, but not in habit. A slight scorch is easily removed, but clothes yellowed by soap never regain snowy whiteness.

The mission of laundry soap is to remove dirt by a process of disintegration. When the dirt is dissolved the action continues on the threads of the material. The life of cotton or linen is shortened by allowing soap to stay in the meshes of cloth.

Vastly Feathery Season. Ostrich feathers are strewn over the new modes in clothes and in hats and now it's the small arm-bag made with short peacock feathers on a kid foundation, and with a gold chain set with sparkling gems two inches apart.

According to an English scientist's theory, if the radium in the interior of the earth equals in quantity that which is in surface rocks, the world will grow hotter in time, instead of colder.

A lava sprinkler with four automatically operated valves throws water in four different directions in turn.

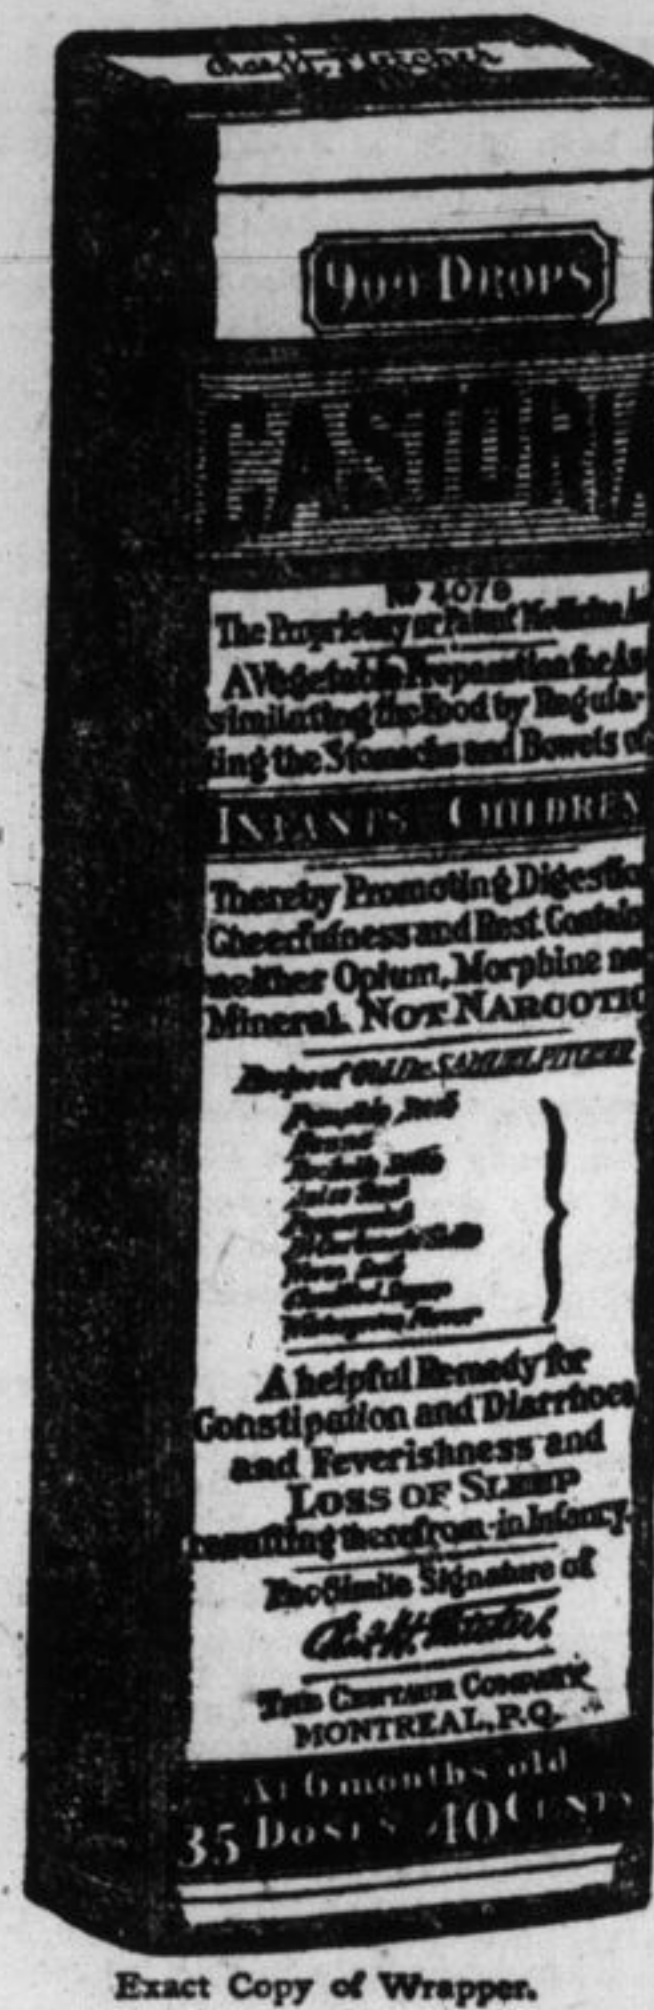

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Children Cry For Fletcher's

CASTORIA

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against popular beliefs: fights against prejudice: even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment's call, be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice, even though it might not be a case of sickness. He is not just a doctor. He is a student to his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the slightest babe, and that it is a good thing to keep in the house. He knows.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA.

MONTERRAT Fruit Saline

keeps the liver active—the stomach sweet and the whole system right.

"I ended corns forever in this scientific way"

Millions have said that about Blue-jay. Others tried it and told others the same story. So the use has spread, until corn troubles have largely disappeared.

If you have a corn you can settle it tonight. And find the way to end every corn. Apply liquid Blue-jay or a Blue-jay plaster. The pain will stop.

Soon the whole corn will loosen and come out.

Think what folly it is to keep corns, to

pare or pad them, or to use the old harsh treatments.

Here is the new-day way, gentle, sure and scientific. It was created by a noted chemist in this world-famed laboratory.

It is ending millions of corns by a touch. The relief is quick, and it ends them completely.

Try it tonight. Corns are utterly needless, and this is the time to prove it.

Buy Blue-jay from your druggist.

Like any other good machine a Watch deserves some care

A WALTHAM Watch is a wonderful piece of mechanism. Everyone of its many tiny screws, plates, wheels, pinions, jewels and springs is fashioned with marvellous accuracy.

This is accomplished very largely by the use of special automatic machinery developed by Waltham experts and used exclusively in the Waltham factories.

And then there is the assembling of all the parts into the perfectly adjusted movement.

These machines do their work with a precision and speed that no human hands could equal.

The result is a piece of mechanism that measures time with unfailing accuracy. And this wonderful little machine deserves your care. To assure the maintenance of its quality have your Waltham overhauled, cleaned and oiled at least every second year by a competent watchmaker.

Waltham Grandfather Clocks, Mantel and Leather (all colors) Desk Clocks for homes of refinement. Ask your jeweler.
