FIVE CLUBS WANT READING SLUGGER

Brower, the "Babe" Ruth of the International, is in Demand.

Five major clubs, attracted by the home run hitting of Frank Brower, the big first baseman of the Reading Marines, are bidding for his services. Brower has pounded out twenty homers to date and appears well on the way to establish a record that will take a world of beating. He is the "Babe" Ruth of the International League, but, unlike the Killy star, he has made most of his circuit smashes on the local grounds. It is not known what the local club would accept for the player that attracts the Reading fans to the games, but it is expected that it is considerable. With Brower gone, much of the interest in the none too powerful Marines would go with him.

EXPECT TO COMPLETE THE QUEEN'S STADIUM BEFORE OCTOBER

Although those in charge of construction of the George Richardson memorial stadium on Union street have had to contend with a great deal of wet weather, they are making wonderful progress. About a week ago the work of seeding the playing field was completed and now the authorities are anxiously waiting for the grass to show through. Those in charge of the work realize that they are a little behind schedule but nevertheless with good weather, the campus should be finished by the time the students arrive back at the university. The matter of seeding was no small job so it was arranged to get an old-time farmer, named Hyland, to sow the seed.

On Tuesday, when a Whig representative visited the grounds, he found the men busy making ready for the cinder track which will be placed around the outside of the playing field. Prof. Lindsay Malcolm and Walter Ellis were laying out the lines for the new track. Men were busy putting in the piers for the grand stand, which will have a seating capacity of from 1,500 to 2,000 persons. It is not expected that it will take very long to get the stand erected as a great quantity of the stone which will be used has already been broken.

The electric flat car owned by the street railroad company was being used on Tuesday for drawing some filling-in material which is to be placed at the south end of the campus. This filling-in has to be completed before the work of erecting the concrete fence can be commenced.

U.S. Golfers Desire International Match

As a direct outcome of the exchange of American and British golfers which so far has made this year the greatest ever from an international point of view, a proposal has just been made from this country that an annual and permanent team match be inaugurated with England. The Professional Golfers' Association of America has requested the P.G.A. of Great Britain, to nominate and send over this summer a team of professional golfers to play against a team of Americans.

It was requested that Vardon and Ray be included for they have already prepared to come here and will sail next Wednesday. George Duncan, the new British open champion, is also invited. The matches would be for a perpetual trophy, such as the Davis Cup in tennis or the America's Cup in yachting, and would be played in which ever country holds the trophy.

To Train Shamrock Crew In Smart Canvas Work

Sir Thomas Lipton's Shamrock IV will sail on nine trial races with the 23 metre Shamrock. Instead, her crew will be drilled in handling her under the rig finally adopted for the cup races—smartness in handling canvas, especially balloon canvas in both heavy and light weather, has won many a race for the slower boat. That's the way Norman Gooderham and a Toronto R.C.Y.C. crew won the Yacht Racing Union Cup at Chicago, with Patricia. They handled canvass so fast and accurately that they had the Michigan crew in a tangle every time they tried to follow their manoeuvres. The defender, Resulta, has a well-drilled crew, so the Shamrock IV skipper has decided to spend the rest of the time smartening up his crew, stretching racing canvas and testing rigging.

France Shows the Way.
It now appears that France will have the largest representation at the Olympic Games. The French team will comprise 350 persons. The United States will be a close second with 326. The number of entrants from Sweden has not been completed, but it is believed they will be in the neighborhood of 300.

NEW YORK MYSTIFIED BY THE TRADING OF KAUFF TO TORONTO

One of the biggest surprises sprung in baseball, and at the same time one of the most mysterious deals ever made, was the trading of Benny Kauff, not to a major league club, but to Toronto of the International League. The team secures Vernon Spencer, a promising outfielder, for the renowned old Federal League star.

It is odd that all of the big league clubs should grant waivers on this big star, as there are any number of clubs who badly need the services of a player of his ability. Why he is let out is the biggest kind of a baseball mystery. Recently Benny became involved in an automobile case that reached the courts and the scandal growing out of this is the only possible solution of his being traded.

Weak, Nervous Children Quickly Gain Strength Under Following Plan

Nervousness, just like weakness, is a family predisposition. We inherit tendencies to disease just as we inherit physical resemblances. The strain of study, social duties, work at home—these all tend to make nervous troubles among children. No wonder that St. Vitus Dance, Epilepsy, and constant headaches have become alarmingly common. Pale, nervous, listless young people are met everywhere.

It is nothing short of criminal for parents to neglect signs of weakness in their children. By ignoring the slightest symptom of nervous or mental strain, you may condemn your child to life-long invalidism. If any member of your family complains of headaches, fear of going to dark places, give them that wonderful tonic, "Ferrozone." Strength of body and mind, hardy nerves, ability to study with comfort, all the attributes of health quickly follow the use of Ferrozone. It establishes strength, color, endurance, vim—does this by filling the whole system with nourishment and tissue-forming material.

It's because we know the enormous good that Ferrozone will do, because we are sure every child and even grown folks, will be permanently benefited, that we urge you to give it a trial. All dealers sell Ferrozone in 50c. boxes, six for \$2.50.
