WANTED TO SOAK FARMERS

FROM \$8 TO \$10 TO HELP TAKE OFF CROP

A Fine Oat Field on Wolfe Island—Island Wharf and Waiting Room a Credit to the People.

On Tuesday when a Whig representative was at Wolfe Island he talked to a couple of farmers who stated that three men who had come over to the island for the purpose of assisting in taking off the crop had asked the farmers to pay them from \$8 to \$10 a day for their services. When they were advised that they could not get so much money they picked up their tools and left.

Several farmers stated that on account of the small crop of hay they would not need much help. Any farmers who did need extra help were willing to pay from \$3.50 to \$5 a day and keep.

Those who have had occasion to see some of the crops of grain on Wolfe Island figure that George Rogers, who resides on the outskirts of the village, has a record crop of oats. The oats are at least five feet in height.

Farmers, who have lived on the island all their lives, state that they never saw such a heavy crop of grain as there is this season.

The crop of vegetables is simply wonderful and it is thought that potatoes will be cheap in the fall.

The township council and the people of Wolfe Island are deserving of great credit for building such an up-to-date wharf on which there is a waiting room equal to any in the province. This room has an excellent hard wood floor and a good fire place.

A considerable part of the work of the building of the wharf was done by the islanders. Dr. William Spankie, Treas., arranged for two stone which was used in making the wharf permanent. It is stated that about one hundred and twenty-five farmers turned out on each occasion. Marine captains state that the wharf is one of the best on the lakes.

ANOTHER QUICK POLICE JOB

WOLFE ISLAND FARM HAND ARRESTED IN RECORD TIME

Admitted Stealing \$56 From Alexander Grant—Man Nabbed Coming off Steamer Wolfe Islander.

The citizens of Kingston must take off their hats to the Kingston police force for their quick work in nabbing offenders.

Following the good work of Sergeant Marshall Armstrong, who rounded up two men wanted at Toronto, Delta, Picton and Athens, another piece of quick work was pulled off on Wednesday morning, which resulted in the round-up of a man wanted for theft at Wolfe Island.

Not only did the Kingston police capture the man wanted, but also the booty which had been reported stolen.

Just as the steamer Wolfe Islander was whistling for the ferry wharf, at the foot of Brock street, on Wednesday morning, Sergeant Armstrong received a telephone message from Alexander Grant, of the island, who stated that his hired man, "Jack" Whiffle, was missing and that the sum of \$56 had disappeared at the same time. It was believed that he had made off for Kingston.

Sergeant Armstrong hurried Police Constable James Cotter out on the case. The officer made a bee line for the ferry wharf, and on his way he spotted Whiffle from the description given of him, and took him to the police station, where he confessed to the theft, it is alleged, and the money was recovered.

The case would have come before Magistrate Farrell, on Wednesday morning, but Mr. Grant could not come to the city till the afternoon. The case will probably come before the court on Thursday.

Whiffle had only been working for Mr. Grant two days, and little is known about him.

RIVER FISHING PLAYS INTO HANDS OF YOUNGSTERS

New York Boy Lands 24-inch Pickerel at Hart Island Dock.

At Alexandria Bay, N.Y., fishing has played into the hands of the youngsters. Master John Nelson, Brooklyn, who is with his mother at the Thousand Island House, caught ten perch within an hour, fishing from the dock of Hart Island, and Junior R. T. French, the young son of Mr. and Mrs. Rufus T. French, New York, who fishes from the dock at the Thousand Island House, was the envy of all of the youngsters here recently when he landed a twenty-four inch pickerel and several rock bass.

EXCURSION.

To Picton and the Lake-on-the-Mountain.

The steamer St. Lawrence will repeat this popular trip on Friday, July 23rd, leaving ferry dock at 10 a.m. Ample time to see Picton and the Lake-on-the-Mountain and home early. Fare round trip \$1.

Dr. W. K. Ross, of Rockwood, To Move to Brockville

The announcement is made at Toronto of the appointment of Dr. W. K. Ross, assistant superintendent of that institution. No appointment of a successor to Dr. Ross at the local institution has been made yet.

Will Remove Cargo.

Captain Donnelly, of the Donnelly Wrecking Company, will undertake the removal of the cargo from the steamer Maplegrove, which came to grief in the Welland canal. It is understood that the plunge she took resulted in breaking her back so that she is practically a total loss. She had aboard 1,400 tons of soft coal. She was originally known as the Cherokee.

An aeroplane was an added attraction at the World at Home Shows, on Tuesday night. The aeroplane flew round over the show grounds for quite a time and put on some daring "stunts."

BREWER'S MILLS LADY TERRIBLY INJURED

Sustained Broken Leg and Cuts—Was Thrown From a Hay Rake.

Mrs. Victor Fisher, Brewer's Mills, daughter of John Helferty of the same place, was the victim of a most distressing accident on Saturday while driving a hay rake to help in the work. The team of horses ran away and threw her off. She fell between the horses and the rake and was terribly injured when rescued. A doctor was called from Gananoque and upon examination found that Mrs. Fisher had sustained a broken leg and was badly cut and bruised.
