CLAYTON PLANNING A LOCAL BASEBALL NINE

College Men, Composing Old Team, Secure Other Positions.

Most of the players on the Clayton, N.Y. baseball team have returned to Syracuse, many of the men being In the university. It is expected that the team will be reorganized. In the meantime, exhibition games will be played by outside teams at Clayton park. Every effort is being made to speedily reorganize a village nine.

To-day only two members of the old team are left in Clayton and they are already making plans to leave. According to reports, all of the men have already accepted positions on other teams, some going to Deferiet and some in to Canada. Many of them were college students playing under assumed names.

According to the story told by some of the players, various factors were responsible for the breakup. The weather played a prominent part, as was evidenced by the severe storm of last Sunday. It is further said that new men sent the old-play- rence brought in an excursion party ers to the bench with disastrous re- from Kingston yesterday afternoon, sults. HAY CROP NOT FAILURE

It is Only Twenty-five Per Cent. Less Than Last Year. Fredericton N.B., July 22.-New Brunswick's hay crop, which some time ago was expected to be almost a complete failure, will be only twenty-five per cent. less than last year, acording to the latest official forecast by the provincial department of agriculture.

Before the end of this week haying operations will be under way throughout New Brunswick generally, the recent rains having thickened the grass so that there will be a particularly heavy yield in interval and some other sections. The report issued to-day also indicates satisfactory grain crops, but losses of from twenty-five to sixty per cent. of the prospective potato yield in certain sections of Carleton and Victoria counties the big producing district of the province. The first unfavorable report on the fruit crop was also issued to-day and indicates that in some orchards there will be "a very
