> A Reindeer Reserve. None too soon, the Canadian Government has decided to preserve some of the remaining herds of caribou, the barren-ground reindeer of the Arctic. Baffinland has been chosen for the reservation, where the

caribou will be able to roam unrestricted and to multiply. Less than 30 years ago there were vast numbers of caribou in Northern Alaska, but by the cupidity of the trader and the ignorance of the Eskimo they were destroyed, as the buffalo was destroyed in the Western States of America. There is scarcely anything manufactured which can equal caribou skin as an article of Belleville, 57c to 60c; Kitchener, clothing, and the meat is still more valuable, being very rich in fat in

## Is Your Firm Protected?

If any active member of your firm should die, it might embarrass you seriously.

It might mean loss of executive brains, withdrawal of capital, impaired credit.

A Manufacturers Life Sinking-Fund Bond will safeguard your business against this risk.

The face of the Bond is payable in cash on the death of any partner, or at maturity. It improves your credit. It saves you drawing on invested capital in times of depression or crisis. It is a sinking fund shown on your books and an ever-increasing asset. It is a security.

Talk it over with your bank. Then write us. We will submit specimen policies without any obligation on your part.

CCHOOL days are rough days for school furniture; there is hardly any varnished article that has to stand what desks and chairs in the school go through.

Their salvation is surface protection. Ordinary wear and tear leave their surfaces uninjured. It is a hard test but varnish is equal to it!

Interest to you lies in what it teaches. It teaches that in your own home you can have the same protection.

you accept it as a necessary evil or do you realize that by keeping every surface intact under a tough, enduring protective coating you will save your property save replacing furniture save repairing, indoors and out?

The surface is the danger point. The surface is the point attacked. Whether property be wood, metal, stucco or concrete the surface is the place where deterioration tries to get a foothold. It has no chance if there is always a protective coating in the way.

Look at all your property from this extremely important angle. Save the surface and you save all.
