

COMING TO THE OLD HOME

GEORGE A. SUTHERLAND MAKES GOOD IN OIL CITY, PENN.

An Interesting Sketch of Former Kingstonian Who Has Climbed The Ladder of Fame.

Extravagant—George bought \$400 watch, 23-jewelled Howard, 18-k. made to order; cases the finest in this land. Now the diamond in the case is worth \$800. Likewise he bought three half-carat brilliant white Jaeger diamonds which today will bring four times more than what he paid. Schopperle, the Spring street jeweler, can point to hundreds of similar cases. Lots of fine looking stores carry medium line of goods.

The above newspaper clipping has reference to George A. Sutherland, a former well-known Kingstonian, now living at 24 Home Avenue, in Oil City, Penn. He is leaving on August 25th, to visit Kingston and expects to reach here on the 26th or 27th.

Mr. Sutherland was born in Kingston, in 1859, and his grandfather and grandmother, Patrick and Alice Fowler, came to Kingston from Kinkenny, Ireland, in the early part of the 80's, and settled at the foot of Queen street. His grandfather was a baker, and continued business here until 1820, when he purchased two hundred acres of land in Grand Burney, and moved there the same year. Mr. Sutherland's mother, Ellen Fowler, was born in Grand Burney, in 1836, and was a sister of Mrs. Matthew Jice, of Jiceville, Mrs. W. Patterson of Mount Chesney, Mrs. Mary Connors of Kingston, and Mrs. Felix Keenan of Grand Burney, and was married to Mr. Sutherland in Kingston, in 1855, and his grandmother made her home with them until the death of her son, Patrick, who was killed at Prescott, in 1869, and then she went to the country and made her home until her death. Mr. Sutherland's grandfather, Patrick Fowler, died a very young man, and left one hundred acres of land to Michael and Daniel Fowler, forty acres of land to William Fowler of Mount Chesney, and one hundred acres of land to Martin Fowler of Grand Burney, and one hundred to Patrick Fowler. Mr. Sutherland's grandfather, Sutherland, came to Kingston, in the early part of the 80's, from Glasgow, Scotland, and settled on Montreal street. He was a stone mason and cutter and had charge of the mason work of the Grand Trunk piers,

which were built at Kingston Mills, and he also had charge of the mason work as far West as Mathias. The latter part of 1830 he built himself two stone houses on Montreal street, and he also owns some frame houses. He died at a very young age, leaving three boys and two girls, John, W. J., and George Sutherland, and Mary and Easter Sutherland. At his demise, he left one stone house to John and W. J. Sutherland, and a frame house between the two stone houses to George Sutherland, the other stone house was left to Mary and Easter Sutherland. Grandmother Sutherland, on the death of her husband, was married to a man whose name was Alban, leaving to mourn her at her death, two girls, Elizabeth and Catharine, and all that is left of the Sutherland family is W. J. Sutherland of Oil City, Pennsylvania, who is in his 80th year, Mrs. A. S. Salem, West Virginia, and Mrs. Thomas O'Donnell of Ontario, Canada. Mr. Sutherland's mother died in 1871, and he made his home with his uncle, Daniel Fowler, until 1875 when he went to work on the Canal, Edgewood under Captain Fleming of Foster's Locks, and in 1876, he cooked on a barge towed by the Water Lily under Captain Connors of Kingston. In 1877 he cooked in the Water Lily under Captain Dan McIntyre, and in 1878, he was cook on a barge towed by the Gungnaut, under Captain Connors, of Kingston, and in 1879, he had charge of a barge towed by the Elenore, under the command of Captain Scott. When they were laid up in the fall of 1879, he made his home with Mr. and Mrs. George Darrow, of Kingston, and during the winter months, he made his home with his uncle Daniel Fowler, and he spent his last Christmas in Kingston with Mr. and Mrs. Darrow. He came to Oil City in January 1880, and started to work in the Pennsylvania Railroad Shops as a machinist, then in the year of 1881 he went to work on the railroad as a fireman, and on July 18th, 1884, he was promoted to an engineer. That same year on June 11th, he was married to Miss Mary Bannion of Oil City, and took out citizenship papers, and has been a voter and tax payer ever since. In 1884 he built himself a home, and in 1890 he built another house, and secured his father from Toronto, Canada, to Oil City, his home with his uncle, Daniel placed him in the new house. His father died in Oil City, the 20th day of April in the year 1892, and he and the remains to Kingston, and were placed in St. Mary's cemetery. His brother died in 1894 in Oil City, and he took them also to Kingston,

Canada, placing their remains in St. Mary's cemetery, paying all funeral expenses while they were in Oil City, and Kingston. In the year 1909, he built himself two houses on Home Avenue, in Oil City, one costing \$6,000 and the other \$4,000, each having electric lights, natural finish all the way through, excellent laundries, electric washers and automatic water heaters. In 1909 he purchased a \$3,500 cottage in South Oil City, and had it completed in the same manner as the other houses. The next year, 1910, he had a monument erected in St. Mary's cemetery, in Kingston, in remembrance of his parents. In 1912 he took a trip to Canada and went West to Edmonton and Alberta, and while his stay in Kingston, he visited Mrs. Patrick Fowler and family, at Mount Chesney. In 1914, he purchased a five-passenger Overland car, and taking his son-in-law, daughter and three grandchildren, drove from Oil City to Kingston. They stayed while visiting here, with Mrs. Richard Daper of Grand Burney. When the war broke out in 1915, the Pennsylvania Railroad Company bought bonds and sold them to the employees, and Mr. Sutherland took two hundred dollars worth, paying cash for one hundred and the other one hundred to be taken in payments from his wages. When the second and third loans came out he took two hundred dollars worth, paying for them in the same manner as he did the first. At the issue of fourth loan he bought in cash \$2,000 worth, and \$400 to be taken in payments from his wages. When the fifth came out he took \$600 worth of bonds in cash, and \$400 to be taken in payments from his wages. Mr. Sutherland did not lose any time during the war until 1919, when he took a leave of absence, and went south visiting his aunt, Mrs. E. S. Morrow of Salem, West Virginia, and he also went to River Dale, Florida, which is forty-three miles from Jacksonville, on the St. John's River. He returned home and went to work on the 10th day of March, 1919, and has been working steady ever since that time. He intends to take a trip to Kingston from Oil City, and down the St. Lawrence River as far as St. Anne and on his return trip he will go to Toronto and visit the fair. He will go from there to Buffalo, and take the Pennsylvania railroad, go to Long Island, New York, where he has three large buildings, and it is in that city that Mr. Sutherland is contemplating building a residence when he is pensioned off the railroad. He is second oldest man on the road, and will be pensioned and put on the honor list in a few years. He will draw a good pension for long years and steady employment. His place of doing the real estate business is the Oil City Trust Company bank, and he carries a savings and check account at the Oil City National bank, where he has been doing business for over forty years, and is one of the oldest business men in the bank there. He owns property in the First, Sixth and Seventh Wards of Oil City, and has his place of abode in the Seventh Ward.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is of like Sterling on silver. It positively identifies the only genuine Aspirin. The Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoclonal and other drugs. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

For Those Hard-of-Hearing

is the Acousticon—an electrical instrument that benefits the hearing to the extent of making it practically normal. When it is adjusted and in use it can scarcely be detected.

ACOUSTICON SECTION T. EATON CO.

"Trifles Make Perfection," said Michelangelo. The twenty-five years of care given to the most minute details have brought the

Fine Lettering rendered by The McCallum Granite Co., Ltd., KINGSTON

within measurable distance of that "Perfection Which Is No Trifle."

Let us illustrate.

THE MAN ON WATCH

Rather than allow a landlord to put it over them, many a tenant would rather pay the difference to a lawyer.

There are still a large number of people who declare themselves as hoping that those escaped convicts will get free.

And there are others who still hold to the belief that the escape is a frame-up, but that could hardly be, unless some movie concern wanted to secure pictures of the chase.

If tomatoes are to sell at fifty cents a bushel and potatoes at \$1.50 a bag, the Lampan certainly thinks that the farmers are due for some sympathy, for no list in can make money selling those products at such prices.

Now that bandits are reported in the city park, the night bench-wormers had better take warning and escape blackmail.

Traffic on the Barriefield highway is not only slow owing to the bad road, but it is said to be made still more trying for automobilists by one who lies his cow to the rear of his car and moves slowly along, hogging the centre of the road and compelling other drivers to take to the stony part.

Next time there is an escape from the Portsmouth prison, the bus of Michael Kennedy should be called in to action. This old and reliable

vehicle would not throw a tire as the fast auto did.

They do say that Canadian wool is coarse because the sheep are sheared only once a year, and yet the oftener a man shears his whiskers the coarser they become.

Probably Rideau ward will now want a \$6,000 building erected in Victoria park, but it would be well advised to let well-enough alone and permit Sydenham ward alone to boast of its park addition.

What does the Bell Telephone company think anyway? That a city council would be so foolish as to vote for an increase in rates? The butchers would have as much chance of getting the councilmen to vote for higher prices for meat.

Hats off to Father Kelly of Smith's Falls, who puts the Sinn Feiners in their right place. The reverend father should be invited to come to Kingston and put some of the wild Irish brethren right on the Irish question.

Our old friend John Geale, who used to write deeds and mortgages in Kingston, is now one of Renfrew's legal lights. He is reported to have acquitted himself with distinction in presiding over a case in which a brother assaulted his sister by throw-

"DANDERINE" Stops Hair Coming Out? Doubles Its Beauty

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

Many think it is mere 'trade talk.' Nothing could be farther from the truth. The shortage is serious. Thousands of dealers are unable to meet the ordinary demands. The Wholesale Fur Markets are practically depleted. Alaskan and Canadian trappers are bringing down fewer pelts with discouraging reports of prospects for next year. Prices have ceased to be a question. Shipments go to the highest bidder. Unheard of prices are paid for pelts that were a drug on the market a few years ago. It is no mere chance that we have such an unusual variety of Fur Garments to offer at— To the economical buyer who appreciates both style and quality this opportunity is doubly significant. Discriminating shoppers will find much to please them in the liberal assortment of choice garments and pieces that are shown here this month." "20% off Regular Cash Prices on all our Manufactured Furs." "John McKay, Limited 149-157 BROCK STREET Phone 603. KINGSTON, Ont."

Advertisement for Purina feeds. Text: "Why hens go on a strike!" "The feed elements that make whites of eggs are entirely different from those that make yolks. When hens aren't fed both the white and yolk making elements, they can't lay." "Missouri Experiment Station tests prove that 100 lbs. of wheat, corn, oats, barley and kafir corn make (above bodily maintenance) an average of 224 yolks to 154 whites. Based on data from the same experiments, Purina formulas produce, (above bodily maintenance), as follows: Purina Scratch Feed - 247.49 yolks 142.11 whites; Purina Chicken Chowder - 182.05 yolks 287.45 whites; Combined Ration - 429.54 yolks 7,966 whites." "These Purina feeds not only make a practically equal number of whites and yolks but more of both than ordinary feeds." "Note that Purina Chicken Chowder contains the necessary white-forming elements to balance up the yolk-making grain ration. That's why it makes hens lay so heavily. Instead of the yolks being absorbed by the hen's system, Purina Chicken Chowder makes the whites to complete the eggs and they are laid. Thus we can absolutely guarantee more eggs or money back on Purina Chicken Chowder if fed with Purina Scratch Feed as directed. You take no risk." "Wholesale and Retail Distributors. W. P. PETERS Wholesale Foot of Princess Street Retail 117 Brock Street at Ottawa. Mrs. Smith, Collin's Bay, after a pleasant sojourn of a few weeks with her daughter, Mrs. J. S. Whitty, returned home today. By the time you have thoroughly learned to dance to the devil's music you may find yourself a cripple." "The Christian woman in society is quite likely to neglect one or the other, church or society. Chalk it down thoroughly on the page of memory that you are either a reputation maker or breaker. Salted whale meat is a Japanese delicacy."
