POSTS DEFEAT INSURANCE 22 TO 2 IN FOUR INNINGS. The Ogdensburg game last Wednesday had nothing at all on the game between Insurance and Posties Friday evening, when the mail-men summed up twenty-two runs in four innings. If the game had progressed at that rate for the full innings the score would probably have looked like some of the rugby tallies of last fall.

Insurance seemed to have trouble finding a pitcher. Driver tried his hand at it but concluded it was no use. Walker walked into the box to save the day but did not save it. Then a little fellow by the name of Ryan started in with no better luck than the other two. In the fourth inning the insurance crowd became disgusted and threw the game. The line-up:

Insurance—Morris, s.s.; Ryan, p.; Hyland, 2b.; E. Ryan, 1b.; S. Driver, 1b.; Woods, c.; Walker, 3b.; Powers, c.f.; Mullen, r.f.

Posties—Kehoe, 2b.; Nicholson, s.s.; Mallory, c.; Daly, 1b.; Morris, 3b.; Hiscock, c.f.; Morrison, 1b.; Hubbard, r.f.; Gilchrist, p.

WHO'S WHO AT TRADE CONGRESS

Right Hon. Lord Desborough, K.C.V.O.

The Right Hon. Lord Desborough, K.C.V.O., empire builder and sportsman, who will preside at the ninth congress of the Chambers of Commerce of the Empire, Toronto, has played a part in many varied fields.

During the war he was responsible for the protection of the water supply of London, and was also made responsible for the release of trained mechanics from the fighting lines for service in munitions. As an athlete he holds many records. He was president of the British Imperial Athletic and presented three aeroplanes to Canada. He was on the treasury committee which started war savings certificates. In the great police inquiry in London he distinguished himself by asking 10,000 questions.

Who Will Pay the Debt. (Edmonton Bulletin) The national debt of Canada is six times greater than it was before the war. The annual interest on it is greater than the total national revenue before the war. How is the increased burden of taxation to be carried without ruin to the country? There is only one answer: By increasing production. How can production be most largely and most rapidly increased? With less than 20 per cent. of available prairie land as yet under cultivation it is obvious that by no other means can production in Canada be increased so largely or so rapidly as by increasing the cultivated area of the west.

A Laugh. A laugh is just like sunshine, it freshens all the day; It tips the peaks of life with light, and drives the clouds away. The soul grows glad that hears it, and feels its courage strong— A laugh is just like sunshine, for cheering folks along.

STAND BY YOUR TOWN. If you think your town's the best, Tell 'em so. If you'd have her lead the rest, Help her grow. When there's anything to do Let the fellows count on you, You'll feel fully when it's through, Don't you know.

If you want to make a hit, Get a name, If the other fellow's it Who's to blame? Spend you money in your town, That's keep your prices down, Give the mail concern a trow— That's the game!

If you're used to giving knocks, Change your style; Throw bouquets instead of rocks, For a while; Let the other fellow roast, Shun him as you would a ghost, Meet his hammer with a boast And a smile.

When a stranger from afar Comes along, Tell him who and what you are— Make it strong, Needn't flatter, never bluff, Tell the truth, for that's enough; Join the boosters—that's the stuff. We belong.

BLOODED-STOCK

If you were buying a horse and he was just a horse you would have to take for granted the things the owner said, and then wait for experience to show if he had spoken the truth.

But if you bought a horse of blooded stock that had a pedigree, you would not need to take the man's word for it. The pedigree would show his ancestry and race and give you an idea of the animal's capacity for speed and endurance.

It's the same in buying advertising space. Some publications sell "just a horse" and you have to take their circulation statement with a pinch of salt.

The British Whig is blooded stock. An A. B. C. statement is the pedigree that tells you what to expect in the way of speed and endurance.
