The Allen Theatre Enterprise

Across an Atlantic of Adversity to a New World of Pictures

Canada moves on toward great things, while just beyond to-morrow lie even greater opportunities to be achieved.

If any intangible thing may be named in connection with the progress of the Dominion it might be called the giving of things Canadian a distinct and recognized identity. Canada has commenced to put her trade-mark on the things which are hers by right of discovery and development.

In the evolution and upbuilding of the motion picture as a factor in our national life, the institution known as the Allen Theatre Enterprises has played a vital and outstanding part.

From the days of the first little Allen Nickleodeon, when the pictures shown might be properly described as "shakin' pictures," until the present time, when the Allen Theatres extend from coast to coast in Canada to the number of more than sixty, when Allen Theatres become factors in the entertainment of the people of Great Britain and the United States—there has been the aspiration and the determination to sail a clearly-laid course to the ultimate in Allen achievement, with a Canadian craft and a Canadian crew.

It has been a voyage of discovery, a constant facing and mastering of the problems of storm and calm, a period of oft-changing fortunes—always with the compass of public opinion pointing true, challenging the vision and good judgment of those at the helm—

But always with the greatly gratifying knowledge that a readiness to serve and to achieve beyond the ordinary was surely rewarded, and with the richest of all rewards, public confidence.

Every great growth has begun in obscurity. To bring to achievement such an institution as the Allen Theatre Enterprises entailed much in effort, sacrifice, struggle and everlasting sticktoitiveness. But upon the foundation laid will be reared a structure worthy of its name and of the country.

It will be the purpose of a series of advertisements, of which this is the first, to reveal to the public the structural plan, the policies and the aspirations of Allen Theatre Enterprises, and to open the opportunity for an association even closer than that which now exists.

We look to the past with gratitude and to the future with high hopes for the chance to achieve.

Puffed-up Corns?
Use "Putnam's"
Watch 'Em Go!

Peterboro Firemen Decide City Must be Protected

Peterboro, Aug. 25.—At the request of Mayor A. A. McIntyre the members of the Peterboro fire department held a special meeting and unanimously decided not to leave the city without fire protection regardless of the results of the investigation. Should the men eventually decide to go out on strike they will give the city forty-eight hours notice, and in no contingency will they leave the city without fire protection.

It was decided to send to Montreal for the vice-president of the Firemen's Union to help present the case to the council. The men on duty have unanimously decided to support the three men who were dismissed by Chief Grange.
