## BELFAST SCENE OF MORE RIOTS

### The Troops Fire to Clear the Streets—Shops All Wrecked.

Belfast, Aug. 30.—Rioting and obstruction of property was renewed in this city early this morning, the unionist quarter being the scene of serious disorders. Troops rushed to the centre of the disturbance opened fire to clear the street, a young woman being gravely wounded and a man injured. Further grave developments are apprehended.

Shipyard employees, who are unarmed, were permitted to work this morning when they were attacked, it is charged by Sinn Feiners and shooting soon began. Soldiers arrived soon after the disorder commenced and assumed firing position across York street, giving the crowd three minutes to clear the thoroughfare. Most of the people fled to cover.

At an early hour other disorders occurred in the neighborhood of Ewatts Row, unionist quarter, which was attacked by Sinn Feiners yesterday. Shops were wrecked and to clear the street troops opened fire from an armored car. Falls Road which traverses Joseph Devlin's political division was summering this morning. Great excitement also prevailed in other affected areas and crowds were gathering during the forenoon.

### Rioting the Worst Yet.

Belfast, Aug. 30.—Today's rioting was said by the police to be the worst Belfast has yet seen. Up to two o'clock this afternoon it was definitely known that four deaths had occurred as the result of disorders. These included a young woman named Grace Orr who was shot early this morning when troops opened fire to clear a street in the Unionist quarter. Numerous persons with wounds were admitted to hospitals.

Before two o'clock the death toll was increased by the shooting of a small boy by a sniper. Curfew law will be introduced in Belfast tomorrow night extending from 10.30 till five in the morning.

## CABINET TO BANQUET SIR AUCLAND GEDDES

### On Wednesday Evening—To Honor British Ambassador to United States.

Ottawa, Aug. 30.—On Wednesday night next the Government of Canada will tender a complimentary dinner to Sir Auckland Geddes, British ambassador to Washington, who will then be a visitor in the Capital. The function, which will be a notable one, will be attended by the Prime Minister and all the members of the Cabinet in the city, as well as by many other prominent officials.

Sir Auckland Geddes comes to Ottawa chiefly for the purpose of addressing the Canadian Bar Association, which meets here next week. He will be the speaker at a luncheon to be given on Wednesday, while President Taft, of the United States, will speak at the Tuesday luncheon. It has been suggested that while in the Canadian capital the British ambassador will confer with the Government in regard to the appointment of a Canadian representative at Washington. While nothing is available as to the report, it is presumed that it will be one of the matters discussed by Sir Auckland and the Prime Minister next week. There has been little gossip of late as to the first Canadian representative at Washington, but it is likely that the appointment is one that will shortly engage the attention of the Government.

## BIG TRANSIT STRIKE IN BROOKLYN, N.Y.

### And One Million People Have Difficulty in Getting to Business.

New York, Aug. 30.—More than one million Brooklyn residents, who depend largely upon the Brooklyn Rapid Transit company to take them to business, to-day were reduced to improvised and even primitive methods of conveyance by a strike of the company's employees, that virtually paralyzed the entire transit system subways, elevated roads and trolleys. The strike went into effect Sunday morning, after the men had previously voted to postpone action, pending further attempts to adjust wage demands.

### Were They Escaped Men.

Peterboro, Aug. 30.—Detective S. Newhall returned to the city with two men who he arrested after a chase lasting four days, and which led into the Muskoka district. The men were arrested at Dorset. They were accused of stealing two horses from local livery stable. The police have a suspicion that they are the convicts who escaped from the Kingston penitentiary some time ago and who were believed to have fled in the direction of Central Ontario.

## ALBERTA IN NEED OF COAL MINERS

Calgary, Aug. 30.—From five to eight hundred men are needed in the mines in Drumheller district at once. ## PRESIDENT APPROVES MAJORITY REPORT

### The Anthracite Coal Miners to Receive 85 Millions Increase Yearly.

Washington, Aug. 30.—President Wilson today approved the majority report of the anthracite coal commission increasing the wages of the contract miners twenty per cent. over the present rates. Miners employed as company men are given the same amount in addition, and the same amount is given "consideration" miners and miners' laborers and monthly men. The findings, the report said, would fix the minimum rate of 52½ cents an hour for the lower paid men in the anthracite industry. Anthracite mine workers will receive about eighteen million in back pay under the retroactive feature of the award which makes it effective April 1st and the total increase will average at least eighty-five million dollars annually.

## WILL SIR CLIFFORD SUPPORT FARMERS

### An Editorial in the Winnipeg Free Press Causes Some Discussion.

Winnipeg, Aug. 30.—Has the Free Press, Sir Clifford Sifton's Winnipeg newspaper, definitely determined to support the farmers' political movement? This is the question general in Winnipeg. The Free Press has an editorial denouncing the tariff tinkers and asserting that the difference between the Liberal tariff policy and that announced by Hon. Arthur Meighen in his Truro address is merely the difference between two mediums and tweedledee.

## SOVIET FUGITIVES MENACE GERMANY

Warsaw, Aug. 30.—The German government has advised the Polish government that there are now seventy thousand fugitives of the Red army interned in Germany. German authorities consider it dangerous to leave such a hotbed of Bolshevism in the frontier and neighborhood of the frontier and requests permission of the Polish government to take them across the Polish corridor in order to convey them to the centre of Germany.

## NO MORE G. & W. WHISKEY

### Neither Methylated Spirits Nor Rye Will Be Distilled.

Toronto, Aug. 30.—Goderham & Worts has distilled the last whiskey to be turned out by that firm. E. Goderham, the manager, stated that when the present stock is exhausted the firm will go out of business as distillers. He would not say what disposal will be made of the famous distillery. The quantity of distilled whiskey on hand will last for a year and a half or two years.

## DRAYTON IS PLEASED

### Luxury Tax Collecting Coming in Nicely, He Says.

Ottawa, Aug. 30.—The luxury tax collections are coming in "nicely," and in a short time it is hoped that they will be coming even better. Such was the statement of Sir Henry Drayton. The collections have not progressed far enough, he intimated, to allow of any guessing as to what amount the new taxation will bring in.

## FOOD WOULD NOW DO LORD MAYOR NO GOOD

London, Aug. 30.—The hunger strike of Terence MacSwiney, lord mayor of Cork, has progressed so far that he is such a condition, that even if he took food now it would do him no good, according to a statement by the Britton prison doctor to the mayor's wife, who visited her husband this morning. Mayor MacSwiney is said to be even more gravely ill than at last reports, and a change for the worse may come at any time in the next twenty-four hours.

## SOVIET REGIME IS TOTTERING

### Peasants of Western Siberia Have Taken Control of Important Towns.

Harbin, Manchuria, Aug. 30.—Western Siberian peasants have overthrown the Soviets at Tomsk, Novonikolaevsk, Omsk, Barnaul and other important towns. Isolated peasant uprisings which have been in progress since the spring appeared to have culminated in a general uprising. This was led by a twelfth century Kirghis tribesman which followed the withdrawal of the Bolshevik troops, presumably for the Polish front. The tribesmen were joined by Cossacks and detachments of anti-Bolshevik troops which furnished their competent leadership. This force marched on the more important centres but found them already in the hands of insurgents. Two thousand Russian officers released from Bolshevik prisons are also said to have joined the new anti-Bolshevik forces.

The insurgent movement is reported to be spreading. Outbreaks are already frequent in the far east, where it is expected that the Soviet regime will soon fall. Eastern Siberian authorities are dazed by the suddenness of the new developments. The main source of the uprising appears to come from the Mujiq farms of the provinces of Altai, Tomsk, Tobolsk, Semipalatinsk and Akmolinsk, which are the richest farming districts of Siberia.

## THE WORLD'S TIDINGS IN CONDENSED FORM

### Tidings From All Over Told in a Pointed and Pithy Way.

## CARDINAL LOQUE DENOUNCES MURDERS

Dublin, Aug. 30.—Cardinal Loque, primate of all Ireland, issued a manifesto to Ireland yesterday on the shooting of policemen, which reads: "I have been told that this is an act of war. That it is lawful to shoot on sight anyone wearing a policeman's uniform and honestly discharging a policeman's duties. I prefer to call it by its true name—cool, deliberate murder, pure and simple—hence anyone that encourages, abets or even sympathizes with the act participates in the guilt before God."

## THE MOTHER OF TWINS IN SHADOW OF GALLOWS

### Controversy in Quebec as to Whether Murderers Should Now be Freed.

Montreal, Aug. 30.—Quite a controversy has arisen as to whether Mrs. Gagnon, under sentence of death at Quebec, should undergo the penalty or not. A month or so ago she gave birth to twins in the jail and this has stirred up a lot of sympathy among a certain class. They started by writing letters to the papers throughout the province, but the details of the murder of the woman's stepdaughter were too vividly before the public mind and so a bitter battle of words is being waged. Undoubtedly the murder was the most brutal one in the criminal annals of the Dominion and many there are who feel that it would be better for the mother and the twins were she put out of the way. During the trial the French papers printed columns giving all the details, but they were of so revolting a nature that in almost every case they were omitted by the English ones.

So far no plea has been put in for executing clemency and there is a distinct feeling that if one is made it will be refused.

## TORONTO EXHIBITION OPENED SATURDAY

### Great Welcome to 28 Winners of V.C.—Sir Auckland Geddes Present.

Toronto, Aug. 30.—Twenty-eight heroes, the pick of the Canadian corps, winners of the greatest honor of home valor, the Victoria Cross, received at the hands of Ontario's war veterans a reception Saturday afternoon that surpassed all expectation and one that will live long in the memory of those that witnessed the spectacle.

Sir Thomas Lipton viewed the parade from among the crowd inside the Exhibition grounds. But he did not escape unnoticed. One of the V.C.'s spotted him first and started a cheer for him. In turn the veteran sailor took off his hat.

President Fleming read the address of welcome to Sir Auckland Geddes, and the British Ambassador to the United States was received with a big cheer when he rose to respond, and declare the Exhibition open. There were 60,000 in attendance.

## Canada's Favorable Trade Balance is Disappearing

Ottawa, Aug. 30.—Canada's exports and imports almost balance as far as shown by the summary of trade of Canada for twelve months ending July 31st as prepared by the Dominion bureau of statistics. The total imports are valued at a general billion and a quarter and the exports exceed this amount by little more than eleven millions. In 1918 the exports exceeded the imports by 5,217 millions. There was a favorable trade balance, which has distinguished Canada's trade during the past years, is in process of disappearance.

## Bishop Bidwell Opposes Prohibition

### Claims It Is Unfair—Writes In National Review Advocating Strict Government Control of the Liquor Business As Best Means of Combating Drunkenness.

The Toronto Telegram has the following: "The widely divergent views regarding liquor held by the mass of the people of Britain and the majority of Canadians are dwelt upon in an article from the pen of Rev. Dr. Edward Bidwell, of Kingston, Anglican Bishop of Ontario. In the August issue of the National Review the bishop seeks to explain conditions in Canada to British readers. The bishop, who is strongly opposed to prohibition, declares that it is unfair, that it has led to the taking of drugs, of alcoholic substitutes and that the frequent breaches of the O.T.A. by otherwise highly respectable citizens who, with sympathy rather than reprobaton, tends to bring all law into contempt. Extracts from his article are given below.

"I do not," declares the bishop, "believe myself that prohibition (so called) is the best means of dealing with the terrible problem of drunkenness and have so stated publicly. It appears to me that all the good results it accomplishes could be equally well effected by strict government regulation of the drink traffic, including the closing of all bars and saloons without the evils prohibition brings in its train. The view that any and every use of alcoholic beverages is wrong in itself, which was strongly pressed in the recent campaign in Ontario and undoubtedly largely influenced the voting appears to me to be inconsistent not only with common sense, but with the Sacramental teachings of my church, indeed, with the es-

## LOST IN WOODS FIFTEEN DAYS

### The Terrible Sufferings Endured by David Kincaid, a Returned Soldier.

Peterboro, Aug. 30.—For fifteen days lost in the woods surrounding Mud and Loon Lakes, in the vicinity of Fort William, David Kincaid, a returned soldier, suffered hunger, thirst and wounds worse than active warfare in France and Flanders.

Kincaid, who saw service with the 8th Battalion, and lost a leg, went fishing near Loon Lake on 23rd July, and on starting for home got hopelessly lost in the jungle tangle of the bush. When news of his non-return was heard in Fort William, friends and relatives, assisted by Indian guides and experienced woodsmen, combed the bush for two long weeks without gaining even a trace of the missing man. All hope of ever seeing Kincaid alive again had been abandoned by Saturday, 7th August, when a C.P.R. freight train en route for Fort William was signalled from the tracks at mile post 37, between Pearl and Loon, to be stopped, and David Kincaid, who after fifteen days of terrible suffering, had managed to crawl on hands and knees over hills and through dale and woods, to rescue in the eleventh hour.

He was conveyed by the freight's crew to Fort William, and taken to McKellar hospital, where he is now receiving the best treatment the city affords.

When the freight train reached Fort William David Kincaid was met by his brother and Dr. B. C. Hardiman; and in the reaction of joy at his escape from death by starvation and from injuries, the principal actor in a thrilling Ontario episode broke down in tears.

Listened for Train Whistles. Kincaid climbed hills, listened for train whistles, and tried to follow their sounds to the railway tracks, only to find himself deeper still in a jungle, from whence there seemed no road to home and friends.

On the third day of his dangerous adventure, his artificial leg was broken when wading down a creek, and from that time onward the lost man dragged himself on all fours in search of some way out of the woods.

When the stamp of his severed leg began to bleed he used a log as a tourniquet to stop the flow from that limb's artery. During his two weeks' terrible experience all the young man had to eat was chokecherries, one small supply of blueberries, and a small amount of spaw he had in his fishing kit.

When the few matches he carried with him were exhausted, Kincaid had no means whatever of starting a fire from which to get some measure of comfort against cold nights and penetrating rains. It is piteous to hear him tell of how he used his last match in frantic efforts to fire the bush and thus attract attention.

At the hospital Kincaid was found to be suffering from terribly lacerated knees, as a result of ten days' crawling on hands and feet, exhaustion following two foodless weeks, thousands of fly-bites, and a general breakdown. He has been pronounced out of danger.

The Marquis of Slandford and Lord Ivor Churchill have been left \$1,000,000 each, by the late W. K. Vanderbilt. They were his grandsons. Princess Marie Jose, daughter of King Albert, will accompany him and the Queen on his trip to Brazil.

The prisoners refused to drink water because the prison attendants attempted to add liquid food to it.

## CONSTANTINE WAITS FOR CALL TO THRONE

### Former Monarch Asserts Majority of Greeks Still Consider Him King.

Paris, Aug. 30.—Former King Constantine of Greece, still hopes to regain his throne, asserting he never abdicated and that he is still considered the Greek sovereign by a majority of the people of that country, says the Lubera correspondent of The Express.

In the course of an interview with the deposed monarch, the correspondent was told that Premier Venizelos would not be able to so completely place among national affairs in Greece as to give that country her true place among nations. Constantine, denied having in any way been involved in the attempted assassination of the Greek premier in this city on August 12.

"I await here," the former king said to the correspondent, "with resignation for the Greek people, by the will of my people, and the force of traditions, I will resume the throne which I undeservedly lost. I never abdicated, and the greater part of my people still consider me king."

Asked what he thought about the recent attack upon the Greek premier, the former king replied: "I regret deeply that two of my subjects committed that cowardly deed. To me that I was the instigator of that crime is monstrous. I have never maintained in Lucerne or elsewhere a centre of repression against the new regime."

## A HUNDRED THOUSAND IMMIGRANTS COMING

### Bankers Make Land Purchases in West—Predict Exodus From United States.

Winnipeg, Aug. 30.—One hundred thousand immigrants to Canada will come from the United States next year.

That was the view expressed generally by members of a party of 40 American bankers, business men and farmers who Saturday completed a 3,000-mile trip through the Prairie Provinces of Western Canada. The party, which left Winnipeg on August 18th, made the first of a series of immigration prospecting trips to be conducted by the Industrial and Resources Department of the Canadian National Railways. Heavy purchases of prairie lands were made by several of the visitors.

## DECORATE DRUG STORES

### Dispensaries in Saskatchewan To Show Liquor Stock Openly.

Regina, Sask., Aug. 30.—Saskatchewan drug stores should present an attractive appearance which whiskey is displayed unblushingly on the shelves. This will happen when the Liquor Commission "sets its seal" upon bottles of liquor.

The old familiar brands will, however, disappear, at least in name, and their places taken by liquor made up in eight-ounce bottles, which will be sold under prescription, with the status of patent medicines.

Druggists have been notified that the commission is preparing a special seal which will go on all bottles, and the stores are being urged to reduce their liquor stocks to a minimum in anticipation of the passage of the Saskatchewan Temperance Act.

## Chorus Girls Scarce At \$75 Per Week

New York, Aug. 30.—The high cost of things has hit that tippy, enchanting high-stepper, the American chorus girl.

"Managers of 'Musigirlie' shows seen today said that \$75 is the average pay for chorus girls today, and that even at this price the girls are scarce. Girls who draw this pay appear six nights a week and at fifteen dollars, which is pretty good pay, considering that all needed is the ability to sing and dance a little, and to wear clothes, or rather how not to wear them and get away with it.

The \$100 a week chorus girl is getting more common daily.

## HATE MONGERS DIVIDE CANADA

### Hon. George P. Graham Appeals for Race Unity at Leeds Liberal Rally.

Brockville, Aug. 30.—The reading of Canada by hate-mongers, whose crowning achievement lies in the erection of a barrier of racial and religious mistrust, dividing the great provinces, was the keynote of a spirited address by Hon. George P. Graham to the Liberals of Leeds, who rallied here Saturday to hear Hon. W. L. Mackenzie King.

"The country," said Mr. Graham, has been rent by these people who, for party purposes, prod old sores and keep alive prejudices. Liberalism knows of no such weapons, but not a few so-called Liberals have allowed themselves to be swayed by appeals to their prejudices.

Hon. W. L. Mackenzie King confined himself to a brief appeal to farmers, Laborites, and Liberals, to rally under a common standard to fight the Meighen Government's tariff policy.

The Meighen administration came in for the fire of Hon. Jacques Bureau, M.P., for Three Rivers, Quebec, for its attitude towards Quebec.

## MEDICINE WITH BIG "KICK" PROTECTED

The case was regarded as a test one and had a conviction been registered several prosecutions of druggists and merchants throughout the district would have been registered. The court held that beef, iron and wine has been on the market for years as a proprietary medicine, even after the inception of the Ontario Temperance Act, and as such is protected by the Government.

The bottle introduced as evidence was shown by analysis to contain 33.17 per cent. proof spirits and 15.29 per cent. absolute alcohol by weight.
