OUT WITH FACTS**

**Says the Results He Got From  
Tanlac Were Nothing Less  
Than Wonderful.**

Captain Andy Ospring, engineer on the Pennsylvania railroad, pulling the fast train known as Keystone Express between Terre Haute and St. Louis, declares that the results he has received from Tanlac are nothing less than wonderful.

Captain Ospring has been engineer on the Pennsylvania railroad for the past forty years and is one of the best known and most popular men in the service of this road. His home address is 629 North Tenth street, East St. Louis. Relating his experience with Tanlac to friends in Terre Haute, a few days ago, Captain Ospring said:

"Tanlac will always get a good recommendation from me for the results I have received from it are nothing less than wonderful. Before taking this medicine I had suffered from weak stomach, loss of appetite, sluggish liver and a run-down condition for several years. I could never enjoy anything to eat, suffered with severe pains in my back and chest, and was continually losing weight. The pains in my back were so severe that I could hardly bend over, couldn't even sit comfortably in my car, and invariably finished my run feeling all tired out. I had gotten to where I dreaded to make my runs and had lost several trips on account of feeling so bad."

"I had taken lots of different kinds of medicines, but all failed until I found Tanlac. A friend of mine in Terre Haute put me on to Tanlac and that was the turning point with me. Three bottles of this medicine have fixed me up in fine shape and my weight has been increased eleven pounds. I have a fine appetite, don't have a pain of any kind, and feel all of fifteen years younger. I make my trips regularly, never losing any time, and come in from my runs without feeling all tired out like I used to. A medicine that will do such things is certainly worth while and I will always say a good word for Tanlac."

Tanlac is sold in Kingston by A. P. Chown and by the leading druggists in every town. —Advt.

The fire started at about four o'clock in the afternoon. Mrs. McClement lit the fire in the kitchen to get the tea and then returned to her work in the other part of the house. When she went again to open the kitchen door the flames met her. It is thought the stovepipes took fire. Help was quickly summoned by telephone, while Mrs. McClement did all she could till they arrived. The men at work on Barclay's threshing outfit at once rushed to the scene in autos. They were unable to save the frame summer kitchen as it was almost burned to the ground when they arrived. Everything in it was a total loss. The ladies carried out the furniture
