Awful Possibility. An Australian dignitary was being entertained by New York society. For was dragged through the intricacies

"Please, madam," he implored his late hostess as they parted at the gang plank, "don't ever come to Australia."

"But, why-wh-why not?" gasped that surprised and offended lady. "Because," answered the Australian, wiping his brow, "I don't want you ever to see a kangaroo at play."

### FARMERS !

You will have Savings to invest this Fall. Are you going to accept 3% just because you are handed a neat. little passbook and a amile? Why let the other fellow make the money with your hard earned cash? Come to our office and we guarantee the smile, and also that your savings will be invested direct in the very securities in which the institutions that pay you 3%, turn round and re-invest yours. You will find your intelligent investing friends in our office looking over 6 and 7% securities as a resting place for their money until it is needed. Not in the Savings department of a 3% in stitution as in the old days. We shall be glad to show you in dollars and cents just what you are losing by depositing your funds at 3% and remember your savings should be made to earn you money just as surely as you make it by the sweat of your brow. Why throw away 4% year after year? Call at our office or write for our full list of Canadian government and municipal investments as these are always readily saleable and we recommend them as the most intelligent investment that can be made to-day.

## 65 Years of Banking Service

N July 1855, the Bank of Toronto, with a paid-up capital of £27,435, opened its doors to the public for the first time.

To-day the Capital and Reserve Funds, stand at \$11,793,883 and assets at \$109,285,118.

We have grown because our customers have grown, both in number and importance. Our service has been a factor in their,

success. Sound banking practice and efficiency have characterized the Bank of Toronto from the first. Accounts of small and moderate volume are assured to-day, as always, of sympathetic co-

operation and service equally with the largest.
