Drive Out Dandruff So it Won't Return By a Specialist

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is well recognized. We appreciate, therefore, the importance of any agent that can destroy its power. For this reason it is a pleasure to give herewith a prescription which a specialist states he has found after repeated tests, will completely destroy the dandruff germs with a few applications. In many cases it will almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of partial baldness. This prescription can be made up at home or any druggist will put it up for you—6 pence Bay Rum, 2 ounces Lavona de Composes, one-half drachm Menthol Crystals. Mix thoroughly, and after standing an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger tips. If you wish it perfumed, add 1 drachm of your favorite perfume.
