## THE MAN ON WATCH

After Dr. Edwards' long speeches in the maritime provinces, the Unionist government candidates simply had to win out by long majorities.

The people are getting used to the early closing of the drug stores just as they are to paying higher taxes. The druggists are finding out, too, what they have missed by not closing early years ago.

Jush think of it! A United States gunboat hanging around Ogdensburg to prevent good Canadian whiskey getting into New York state.

Quebec, the most backward of the Canadian provinces, is now going ahead. Its progress dates from the time the other provinces voted liquor out.

The druggists in convention at Toronto complained that the boarding of health are dominated by medical doctors. And who should dominate a board of health? A taxi driver or a printer.

More boys who attend bible and catechism classes on Sunday afternoons steal from gardens than boys who do not go to these places of spiritual and moral instruction. Did you ever watch and see the lads made a dash for the fruit trees when freed from Sunday classes?

Dr. Spankie apparently has the ear of the Weather Man, for the Wolf Island exhibition has the fairest of days. The doctor might put in a word for "Bob" Bushell.

The Kingston bride who was bumped by an automobile, when setting out on her honeymoon the other day, did not get a very good start in wedded life. The wedding procession, like the ambulance and fire apparatus, should have the right of way on a street, but might announce itself by ringing the wedding bells.

That's a pretty interesting program announced for "Tom" Asseltine's high court sitting at the court house next week. There should be a good attendance.

With a college flourishing in that locality, the far north end of the city should take on a more cultured air. The fork will surely take the place heretofore alleged to have been monopolized by the knife.

Down at Iroquois they have a spiritualistic organization composed of some good church people. Lately they tried to get in communication with one of the brethren who had recently passed away but found that he had not yet reached the place of spirits. They are wondering how long it takes to get there.

Whenever the origin of a fire is not clearly in evidence, the poor old electric wires get the blame, when the cause of the conflagration might have been a cigarette or a mouse.

All automobile troubles on the roads are not caused by liquor but some recent occurrences certainly were. "Wine and women" are still the cause of many troubles, particularly after dark when motor cars "burn up" the roads.

—THE TOWN WATCHMAN.

Revenge is Sweet.

"There are compensations for most things," said Mrs. Wilkins. "Poor James was run over by a motor car yesterday, but he had a smile on his face when they took him to the hospital."

"Why the smile?"

"He was carrying home a rake at the time, and it punctured a tire."

## The Spirit of the Mutual

THE spirit of the Mutual is reflected in the well-known slogan of the company—"We aim to furnish the largest amount of sound life insurance for the least possible outlay."

The spirit of the Mutual is therefore the spirit of public service, and to achieve its purpose, much unselfish effort and even of sacrifice has gone into the building up of the organization. The good of the many, not personal profit, is the secret of the wonderful success of the Mutual of Canada.

To see such an altruistic institution as the Mutual Life of Canada planted and growing, and year by year widening the area of its protecting branches is the motive of the leaders of the company.

In the last five years the business of the company has doubled; the next five will probably see a similar development. Fifty years of Public Service have revealed to the people of Canada the spirit of the Mutual which is the spirit of co-operative service.

Be a Mutualist!
