### Locomotor Ataxia Yields TO PHOSPHONOL TREATMENT

The remarkable efficacy of this advanced scientific method of treatment is demonstrated in the case of a patient who secured a box of Phosphonol less than a month ago. This case was of a man 54 years old, who had been afflicted with locomotor ataxia for more than four years. He came shuffling into a drug store on his cane which announced his entrance as he painfully labored to a chair. The man told the old, sad story of a fortune wasted in "doctoring" and "cures," trying to regain health. After only three days' treatment, this same man came back a different man. He was able to walk unaided for the first time in more than a year. His eyes spoke the gratitude his tongue could not express. For the past week this man has been working in his store. He was able to scrub the floor unaided. He does not need his cane any more. His step in walking is almost brisk. At the rate of his remarkable improvement this man should be entirely well within a short time. This is only one of many dreaded ailments which have yielded to Phosphonol. Sold at all good drug stores or by mail from The Scobell Drug Co., Montreal. Prices, \$3.00 a box, or 2 for \$5.00. Don't waste your money in cheap remedies. Get one worth while.

### Killing Frost in Kansas

Topeka, Kan., Oct. 2.—Temperatures were below freezing in all parts of the state with the exception of eastern and southern counties. The low mark was at Hays—twenty-four degrees—where ice an inch thick formed. The frost killed all corn except that on the uplands, but the bulk of the crop was safely matured.
